§ 102–117.145 What are coastwise laws?

Coastwise laws refer to laws governing shipment of freight, household goods and passengers by water between points in the United States or its territories. The purpose of these laws is to assure reliable shipping service and the existence of a maritime capability in times of war or national emergency (see section 27 of the Merchant Marine Act of 1920, 46 App. U.S.C. 883, 19 CFR 4.80).

You need to know that:

(a) Goods transported entirely or partly by water between U.S. points, either directly or via a foreign port, must travel in U.S. flag vessels that have a coastwise endorsement;

(b) There are exceptions and limits for the U.S. Island territories and possessions in the Atlantic and Pacific Oceans (see §102–117.155); and

(c) The Secretary of the Treasury is empowered to impose monetary penalties against agencies that violate the coastwise laws.

Use the following shipping process for freight:

(a) For domestic shipments you must:

(1) Identify what you are shipping;

(2) Decide if the cargo is HAZMAT, classified, or sensitive that may require special handling or placards;

(3) Decide mode;

(4) Check for applicable contracts or rate tenders within your agency or other agencies, including GSA;

(5) Select the most efficient and economical TSP that gives the best value;

(6) Prepare shipping documents; and

(7) Schedule pickup, declare released value and ensure prompt delivery with a fully executed receipt, and oversee shipment.

(b) For international shipments you must follow all the domestic procedures and, in addition, comply with the cargo preference laws. For specific information, see subpart D of this part.

§ 102–117.170 What reference materials are available to ship freight?

(a) The following is a partial list of handbooks and guides available from GSA:

§ 102–117.175 What factors do I consider to determine the mode of transportation? Your shipping urgency and any special handling requirements determine which mode of transportation you select. Each mode has unique requirements for documentation, liability, size, weight and delivery time. HAZMAT, radioactive, and other specialized cargo may require special permits and may limit your choices.

§ 102–117.180 What transportation documents must I use to ship freight?

To ship freight:

(a) By land (domestic shipments), use a bill of lading;

(b) By land (international shipments), you may, but are not required to, use the optional GBL;

(c) By ocean, use an ocean bill of lading, when suitable, along with the GBL. You only need an ocean bill of lading for door-to-door movements; and

(d) By air, use a bill of lading.
