Architectural Barriers Act Accessibility Standard (ABAAS). Facilities subject to the Architectural Barriers Act (other than facilities described in paragraphs (b) and (c) of this section) must comply with ABAAS as set forth below:

(1) For construction or alteration of facilities subject to the Architectural Barriers Act (other than Federal lease-construction and other lease actions described in paragraphs (a)(2) and (3), respectively, of this section), compliance with ABAAS is required if the construction or alteration commenced after May 8, 2006. If the construction or alteration of such a facility commenced on or before May 8, 2006, compliance with the Uniform Federal Accessibility Standards (UFAS) is required.

(2) For Federal lease-construction actions subject to the Architectural Barriers Act, where the Government expressly requires new construction to meet its needs, compliance with ABAAS is required for all such leases awarded on or after June 30, 2006. UFAS compliance is required for all such leases awarded before June 30, 2006.

(3) For all other lease actions subject to the Architectural Barriers Act (other than those described in paragraph (a)(2) of this section), compliance with ABAAS is required for all such leases awarded pursuant to solicitations issued after February 6, 2007. UFAS compliance is required for all such leases awarded pursuant to solicitations issued on or before February 6, 2007.

(b) Residential facilities subject to the Architectural Barriers Act must meet the standards prescribed by the Department of Housing and Urban Development.

(c) Department of Defense and United States Postal Service facilities subject to the Architectural Barriers Act must meet the standards prescribed by those agencies.

§ 102–76.70 When are the costs of alterations to provide an accessible path of travel to an altered area containing a primary function disproportionate to the costs of the overall alterations for facilities subject to the standards in § 102–76.65(a)?

For facilities subject to the standards in § 102–76.65(a), the costs of alterations to provide an accessible path of travel to an altered area containing a primary function are disproportionate to the costs of the overall alterations when they exceed 20 percent of the costs of the alterations to the primary function area. If a series of small alterations are made to areas containing a primary function and the costs of any of the alterations considered individually would not result in providing an accessible path of travel to the altered areas, the total costs of the alterations made within the three year period after the initial alteration must be considered when determining whether the costs of alterations to provide an accessible path of travel to the altered areas are disproportionate. Facilities for which new leases are entered into must comply with F202.6 of the Architectural Barriers Act Accessibility Standard without regard to whether the costs of alterations to comply with F202.6 are disproportionate to the costs of the overall alterations.

§ 102–76.75 What costs are included in the costs of alterations to provide an accessible path of travel to an altered area containing a primary function for facilities subject to the standards in § 102–76.65(a)?

For facilities subject to the standards in § 102–76.65(a), the costs of alterations to provide an accessible path of travel to an altered area containing a primary function include the costs associated with—

(a) Providing an accessible route to connect the altered area and site arrival points, including but not limited to interior and exterior ramps, elevators and lifts, and curb ramps;

(b) Making entrances serving the altered area accessible, including but not limited to widening doorways and installing accessible hardware;

(c) Making restrooms serving the altered area accessible, including but
