

amount of funds that may be available to the State.

[71 FR 30290, May 26, 2006]

**§ 403.504 Number and size of grants.**

(a) *General.* For available grant funds, up to and including \$10,000,000, grants will be made to States according to the terms and formula in paragraphs (b) and (c) of this section. For any available grant funds in excess of \$10,000,000, distribution of grants will be at the discretion of CMS, and will be made according to criteria that CMS will communicate to the States via grant solicitation. CMS will provide information to each State as to what must be included in the application for grant funds. CMS awards the following type of grants:

- (1) New program grants.
- (2) Existing program enhancement grants.

(b) *Grant award.* Subject to the availability of funds, each eligible State that submits an acceptable application receives a grant that includes a fixed amount (minimum funding level) and a variable amount.

(1) A fixed portion is awarded to States in the following amounts:

- (i) Each of the 50 States, \$75,000.
- (ii) The District of Columbia, \$75,000.
- (iii) Puerto Rico, \$75,000.
- (iv) American Samoa, \$25,000.
- (v) Guam, \$25,000.
- (vi) The Virgin Islands, \$25,000.

(2) A variable portion, which is based on the number and location of Medicare beneficiaries residing in the State is awarded to each State. The variable amount a particular State receives is determined as set forth in paragraph (c) of this section.

(c) *Calculation of variable portion of the grant.* (1) CMS bases the variable portion of the grant on—

- (i) The amount of available funds, and
- (ii) A comparison of each State with the average of all of the States (except the State being compared) with respect to three factors that relate to the size of the State's Medicare population and where that population resides.

(2) The factors CMS uses to compare States' Medicare populations comprise separate components of the variable amount. These factors, and the extent

to which they each contribute to the variable amount, are as follows:

(i) Approximately 75 percent of the variable amount is based on the number of Medicare beneficiaries living in the State as a percentage of all Medicare beneficiaries nationwide.

(ii) Approximately 10 percent of the variable amount is based on the percentage of the State's total population who are Medicare beneficiaries.

(iii) Approximately 15 percent of the variable amount is based on the percentage of the State's Medicare beneficiaries that reside in rural areas ("rural areas" are defined as all areas not included within a Metropolitan Statistical Area).

(3) Based on the foregoing four factors (that is, the amount of available funds and the three comparative factors), CMS determines a variable rate for each participating State for each grant period.

(d) *Submission of revised budget.* A State that receives an amount of grant funds under this subpart that differs from the amount requested in the budget submitted with its application must submit a revised budget to CMS, along with its acceptance of the grant award, that reflects the amount awarded.

[59 FR 51128, Oct. 7, 1994, as amended at 65 FR 34986, June 1, 2000; 71 FR 30290, May 26, 2006]

**§ 403.508 Limitations.**

(a) *Use of grants.* Except as specified in paragraph (b) of this section, and in the terms and conditions in the notice of grant award, a State that receives a grant under this subpart may use the grant for any reasonable expenses for planning, developing, implementing, and/or operating the program for which the grant is made as described in the solicitation for application for the grant.

(b) *Maintenance of effort.* A State that receives a grant to supplement an existing program (that is, an existing program enhancement grant)—

- (1) Must not use the grant to supplant funds for activities that were conducted immediately preceding the date of the initial award of a grant made under this subpart and funded through other sources (including in-kind contributions).
