§ 447.280

(iv) If a State meets the criteria in paragraph (e)(2)(ii) of this section and its State plan amendment expires before the end of the applicable transition period, the State may continue making payments that exceed the UPL described in paragraph (b) of this section in accordance with the applicable transition schedule described in paragraph (e)(2)(ii) of this section.

(v) A State with an approved State plan amendment payment provision that makes payments up to 150 percent of the UPL described in paragraph (b)(1) of this section does not qualify for a transition period.

(f) Reporting requirements for payments during the transition periods. States that are eligible for a transition period described in paragraph (e) of this section, and that make payments that exceed the upper payment limit under paragraph (b)(1) of this section, must report annually the following information to CMS:

1. The total Medicaid payments made to each facility for services furnished during the entire State fiscal year;
2. A reasonable estimate of the amount that would be paid for the services furnished by the facility under Medicare payment principles.

SWING-BED HOSPITALS

§ 447.280 Hospital providers of NF services (swing-bed hospitals).

(a) General rule. If the State plan provides for NF services furnished by a swing-bed hospital, as specified in §§ 440.40(a) and 440.150(f) of this chapter, the methods and standards used to determine payment rates for routine NF services must—

1. Provide for payment at the average rate per patient day paid to NFs, as applicable, for routine services furnished during the previous calendar year; or
2. Meet the State plan and payment requirements described in this subpart, as applicable.

(b) Application of the rule. The payment methodology used by a State to set payment rates for routine NF services must apply to all swing-bed hospitals in the State.

[59 FR 56237, Nov. 10, 1994]

Subpart D [Reserved]

(a) The provisions of this section apply to the 50 States and the District of Columbia, but not to any State whose entire Medicaid program is operated under a waiver granted under section 1115 of the Act.

(b) For the period January 1, 1992 through September 30, 1992, FFP is available for aggregate payments to hospitals that serve a disproportionate number of low-income patients with special needs only if the payments are made in accordance with sections 1902(a)(13)(A) and 1923 of the Act, and with one of the following:

3. A State plan amendment, or modification thereof, submitted to CMS between October 1, 1991 and November 26, 1991, if the amendment, or modification thereof, was intended to limit the State’s definition of disproportionate share hospitals to those hospitals with Medicaid inpatient utilization rates or low-income utilization rates (as defined in section 1923(b) of the Act) at or above the statewide arithmetic mean.
4. A methodology for disproportionate share hospital payments that was established and in effect as of September 30, 1991, or in accordance with a
(5) A State plan amendment submitted to CMS by September 30, 1992 that increases aggregate disproportionate share hospitals payments in order to meet the minimum payment adjustments required by section 1923(c)(1) of the Act. The minimum payment adjustment is the amount required by the Medicare methodology described in section 1923(c)(1) of the Act for those hospitals that satisfy the minimum Federal definition of a disproportionate share hospital in section 1923(b) of the Act.

(6) A State plan amendment submitted to CMS by September 30, 1992 that provides for a redistribution of disproportionate share hospital payments within the State without raising total payments compared to the previously approved State plan. CMS will approve the amendment only if the State submits written documentation that demonstrates to CMS that the aggregate payments that will be made after the redistribution are no greater than those payments made before the redistribution.

(7) A State plan amendment submitted to CMS by September 30, 1992 that provides for a reduction in disproportionate share hospital payments.

§ 447.297 Limitations on aggregate payments for disproportionate share hospitals beginning October 1, 1992.

(a) Applicability. The provisions of this section apply to the 50 States and the District of Columbia, but not to any State whose entire Medicaid program is operated under a waiver granted under section 1115 of the Act.

(b) National payment target. The national payment target for disproportionate share hospital (DSH) payments for any Federal fiscal year is equal to 12 percent of the total medical assistance expenditures that will be made during the Federal fiscal year under State plans, excluding administrative costs. A preliminary national expenditure target will be published by CMS prior to October 1 of each year. This preliminary national expenditure target will be superseded by a final national expenditure target published by April 1 of each Federal fiscal year, as specified in paragraph (d) of this section.

(c) State disproportionate share hospital allotments. Prior to October 1 of each Federal fiscal year, CMS will publish in the Federal Register preliminary State DSH allotments for each State. These preliminary State DSH allotments will be determined using the most current applicable actual and estimated State expenditure information as reported to CMS and adjusted by CMS as may be necessary using the methodology described in §447.298. CMS will publish final State DSH allotments by April 1 of each Federal fiscal year, as described in paragraph (d) of this section.

(d) Final national disproportionate share hospitals expenditure target and State disproportionate share hospitals allotments. (1) CMS will revise the preliminary national expenditure target and the preliminary State DSH allotments by April 1 of each Federal fiscal year. The final national DSH expenditure target and State DSH allotments will be based on the most current applicable actual and estimated expenditure information reported to CMS and adjusted by CMS as may be necessary immediately prior to the April 1 publication date. The final national expenditure target and State DSH allotments will not be recalculated for that Federal fiscal year based upon any subsequent actual or estimated expenditure information reported to CMS.

(2) If CMS determines that at any time a State has exceeded its final DSH allotment for a Federal fiscal year, FFP attributable to the excess DSH expenditures will be disallowed.

(3) If a State’s actual DSH expenditures applicable to a Federal fiscal year are less than its final State DSH allotment for that Federal fiscal year, the State is permitted, to the extent allowed by its approved State plan, to make additional DSH expenditures applicable to that Federal fiscal year up to the amount of its final DSH allotment for that Federal fiscal year.

(e) Publication of limits. (1) Before the beginning of each Federal fiscal year, CMS will publish in the Federal Register—

357
§ 447.298 State disproportionate share hospital allotments.

(a) Calculation of State’s base allotment for Federal fiscal year 1993. (1) For Federal fiscal year 1993, CMS will calculate for each State a DSH allotment, using the State’s “base allotment.” The State’s base allotment is the greater of:

(i) The total amount of the State’s projected DSH payments for Federal fiscal year 1992 under the State plan applicable to Federal fiscal year 1992, calculated in accordance with paragraph (a)(2) of this section; or

(ii) $1,000,000.

(2) In calculating the State’s DSH payments applicable to Federal fiscal year 1992, CMS will derive amounts from payments applicable to the period of October 1, 1991, through September 30, 1992, under State plans or plan amendments that meet the requirements specified in §447.296(b). The calculation will not include—

(i) DSH payment adjustments made by the State applicable to the period October 1, 1991 through December 31, 1991 under State plans or plan amendments that do not meet the criteria described in §447.296; and

(ii) Retroactive DSH payments made in 1992 that are not applicable to Federal fiscal year 1992.

(3) CMS will calculate a percentage for each State by dividing the DSH base allotment by the total unadjusted medical assistance expenditures, excluding administrative costs, made during Federal fiscal year 1992. On the basis of this percentage, CMS will classify each State as a “high-DSH” or “low-DSH” State.

(i) If the State’s base allotment exceeded 12 percent of its total unadjusted medical assistance expenditures made under the State plan in Federal fiscal year 1992, CMS will classify the State as a “high-DSH” State.

(ii) If the State’s base allotment was 12 percent or less of its total unadjusted medical assistance expenditures made under the State plan in Federal fiscal year 1992, CMS will classify the State as a “low-DSH” State.

(b) State disproportionate share hospital allotments for Federal fiscal year 1993. (1) For Federal fiscal year 1993, CMS will calculate a DSH allotment for each low-DSH State that equals the State’s base allotment described under paragraph (a) of this section, increased by State growth, as specified in paragraph (d) of this section.

(2) For high-DSH States, the dollar amount of DSH payments in Federal fiscal year 1993 may not exceed the dollar amount of DSH payments applicable to Federal fiscal year 1992 (that is, the State base allotment).

(c) State disproportionate share hospital allotment for Federal fiscal years 1994 and after. For Federal fiscal years 1994 and after—

(1) For low-DSH States, CMS will calculate the DSH allotment for each Federal fiscal year by increasing the prior year’s State DSHs allotment by—

(i) State growth, as specified in paragraph (d) of this section; and

(ii) A supplemental amount, if applicable, as described in paragraph (e) of this section.

(2) For high-DSH States, the dollar amount of DSH payments applicable to any Federal fiscal year may not exceed the dollar amount of payments applicable to Federal fiscal year 1992 (that is, the State base allotment). This payment limitation will apply until the Federal fiscal year in which the State’s DSH payments applicable to that Federal fiscal year, expressed as a percentage of the State’s total unadjusted medical assistance expenditures in that Federal fiscal year, equal 12 percent or less. When a high-DSH State’s percentage equals 12 percent or less, the State will be reclassified as a low-DSH State.

(d) State growth. (1) The State growth for a State in a Federal fiscal year is equal to the product of—

(i) The growth factor that is CMS’s projected percentage increase in the
State’s total unadjusted medical assistance expenditures (including administrative costs) relative to the corresponding amount in the previous year; and
(ii) The State’s prior year DSH allotment.

(2) If the growth factor is zero or is negative, the State growth is zero.

(3) If a low-DSH State experiences a level of negative growth to the extent that its previous Federal fiscal year’s DSH allotment would be more than 12 percent of its current Federal fiscal year’s total unadjusted medical assistance expenditures (excluding administrative costs), the low-DSH State’s previous year’s DSH allotment will be reduced to the extent necessary to maintain the individual low-DSH State’s 12-percent limit and that amount will become the low-DSH State’s DSH allotment for the current Federal fiscal year. In no Federal fiscal year will a low-DSH State’s DSH allotment be allowed to exceed its individual State 12-percent limit.

(e) Supplemental amount available for low-DSH States.

(1) A supplemental amount is the State’s share of a pool of money (referred to as a redistribution pool).

(2) CMS will calculate the redistribution pool for the appropriate Federal fiscal year by subtracting from the projected national DSH expenditure target the following:
(i) The total of the State DSH base allotments for all high-DSH States;
(ii) The total of the previous year’s State DSH allotments for all low-DSH States;
(iii) The State growth amount for all low-DSH States; and
(iv) The total amount of additional DSH payment adjustments made in order to meet the minimum payment adjustments required under section 1923(c)(1) of the Act, which are made in accordance with §447.296(b)(5).

(3) CMS will determine the percent of the redistribution pool for each low-DSH State on the basis of each State’s relative share of the total unadjusted medical assistance expenditures for the Federal fiscal year compared to the total unadjusted medical assistance expenditures for the Federal fiscal year projected to be made by all low-DSH States. The percent of the redistribution pool that each State will receive is equal to the State’s total unadjusted medical assistance expenditures divided by the total unadjusted medical assistance expenditures for all low-DSH States.

(4) CMS will not provide any low-DSH State a supplemental amount that would result in the State’s total DSH allotment exceeding 12 percent of its projected total unadjusted medical assistance expenditures. CMS will reallocate any supplemental amounts not allocated to States because of this 12-percent limitation to other low-DSH States in accordance with the percentage determined in paragraph (e)(3) of this section.

(5) CMS will not reallocate to low-DSH States the difference between any State’s actual DSH expenditures applicable to a Federal fiscal year and its DSH allotment applicable to that Federal fiscal year. Thus, any unspent DSH allotment may not be reallocated.

(f) Special provision. Any increases in a State’s aggregate disproportionate payments, that are made to meet the minimum payment requirements specified in §447.296(b)(5), may exceed the State base allotment to the extent such increases are made to satisfy the minimum payment requirement. In such cases, CMS will adjust the State’s base allotment in the subsequent Federal fiscal year to include the increased minimum payments.

§447.299 Reporting requirements.

(a) Beginning with the first quarter of Federal fiscal year 1993, each State must submit to CMS the quarterly aggregate amount of its disproportionate share hospital payments made to each individual public and private provider or facility. States’ reports must present a complete, accurate, and full disclosure of all of their DSH programs and expenditures.

(b) Each State must report the aggregate information specified under paragraph (a) of this section on a quarterly basis in accordance with procedures established by CMS.

(c) Beginning with each State’s Medicaid State plan rate year 2005, for each
Medicaid State plan rate year, the State must submit to CMS, at the same time as it submits the completed audit required under §455.204, the following information for each DSH hospital to which the State made a DSH payment in order to permit verification of the appropriateness of such payments:

1. Hospital name. The name of the hospital that received a DSH payment from the State, identifying facilities that are institutes for mental disease (IMDs) and facilities that are located out-of-state.

2. Estimate of hospital-specific DSH limit. The State’s estimate of eligible uncompensated care for the hospital receiving a DSH payment for the year under audit based on the State’s methodology for determining such limit.

3. Medicaid inpatient utilization rate. The hospital’s Medicaid inpatient utilization rate, as defined in Section 1923(b)(2) of the Act, if the State does not use alternative qualification criteria described in paragraph (c)(5) of this section.

4. Low income utilization rate. The hospital’s low income utilization rate, as defined in Section 1923(b)(3) of the Act if the State does not use alternative qualification criteria described in paragraph (c)(5) of this section.

5. State defined DSH qualification criteria. If the State uses an alternate broader DSH qualification methodology as authorized in Section 1923(b)(4) of the Act, the value of the statistic and the methodology used to determine that statistic.

6. IP/OP Medicaid fee-for-service (FFS) basic rate payments. The total annual amount paid to the hospital under the State plan, including Medicaid FFS rate adjustments, but not including DSH payments or supplemental/enhanced Medicaid payments, for inpatient and outpatient services furnished to Medicaid eligible individuals.

7. IP/OP Medicaid managed care organization payments. The total annual amount paid to the hospital by Medicaid managed care organizations for inpatient hospital and outpatient hospital services furnished to Medicaid eligible individuals.

8. Supplemental/enhanced Medicaid IP/OP payments. Indicate the total annual amount of supplemental/enhanced Medicaid payments made to the hospital under the State plan. These amounts do not include DSH payments, regular Medicaid FFS rate payments, and Medicaid managed care organization payments.

9. Total Medicaid IP/OP Payments. Provide the total sum of items identified in §447.299(c)(6), (7) and (8).

10. Total Cost of Care for Medicaid IP/OP Services. The total annual costs incurred by each hospital for furnishing inpatient hospital and outpatient hospital services to Medicaid eligible individuals.

11. Total Medicaid Uncompensated Care. The total amount of uncompensated care attributable to Medicaid inpatient and outpatient services. The amount should be the result of subtracting the amount identified in §447.299(c)(9) from the amount identified in §447.299(c)(10). The uncompensated care costs of providing Medicaid physician services cannot be included in this amount.

12. Uninsured IP/OP revenue. Total annual payments received by the hospital by or on behalf of individuals with no source of third party coverage for inpatient and outpatient hospital services they receive. This amount does not include payments made by a State or units of local government, for services furnished to indigent patients.

13. Total Applicable Section 1011 Payments. Federal Section 1011 payments for uncompensated inpatient and outpatient hospital services provided to Section 1011 eligible aliens with no source of third party coverage for the inpatient and outpatient hospital services they receive.

14. Total cost of IP/OP care for the uninsured. Indicate the total costs incurred for furnishing inpatient hospital and outpatient hospital services to individuals with no source of third party coverage for the hospital services they receive.

15. Total uninsured IP/OP uncompensated care costs. Total annual amount of uncompensated IP/OP care for furnishing inpatient hospital and outpatient hospital services to Medicaid eligible individuals and to individuals with no source of third party coverage for the hospital services they receive.
The amount should be the result of subtracting paragraphs (c)(12) and (c)(13), from paragraph (c)(14) of this section. The uncompensated care costs of providing physician services to the uninsured cannot be included in this amount. The uninsured uncompensated amount also cannot include amounts associated with unpaid co-pays or deductibles for individuals with third party coverage for the inpatient and/or outpatient hospital services they receive or any other unreimbursed costs associated with inpatient and/or outpatient hospital services provided to individuals with those services in their third party coverage benefit package. Nor does uncompensated care costs include bad debt or payer discounts related to services furnished to individuals who have health insurance or other third party payer.

(16) Total annual uncompensated care costs. The total annual uncompensated care cost equals the total cost of care for furnishing inpatient hospital and outpatient hospital services to Medicaid eligible individuals and to individuals with no source of third party coverage for the hospital services they receive less the sum of regular Medicaid FFS rate payments, Medicaid managed care organization payments, supplemental/enhanced Medicaid payments, uninsured revenues, and Section 1011 payments for inpatient and outpatient hospital services. This should equal the sum of paragraphs (c)(9),(c)(12), and (c)(13) subtracted from the sum of paragraphs (c)(10) and (c)(14) of this section.

(17) Disproportionate share hospital payments. Indicate total annual payment adjustments made to the hospital under Section 1923 of the Act.

(18) States must report DSH payments made to all hospitals under the authority of the approved Medicaid State plan. This includes both in-State and out-of-State hospitals. For out-of-State hospitals, States must report, at a minimum, the information identified in §447.299(c)(1) through (c)(6), (c)(8), (c)(9), and (c)(17).

(d) Each State must maintain, in readily reviewable form, supporting documentation that provides a detailed description of each DSH program, the legal basis of each DSH program, and the amount of DSH payments made to each individual public and private provider or facility each quarter. This information must be made available to Federal reviewers upon request.

(e) If a State fails to comply with the reporting requirements contained in this section, future grant awards will be reduced by the amount of FFP CMS estimates is attributable to the expenditures made to the disproportionate share hospitals as to which the State has not reported properly, until such time as the State complies with the reporting requirements. Deferrals and/or disallowances of equivalent amounts may also be imposed with respect to quarters for which the State has failed to report properly. Unless otherwise prohibited by law, FFP for those expenditures will be released when the State complies with all reporting requirements.

Subpart F—Payment Methods for Other Institutional and Non-Institutional Services

§ 447.300 Basis and purpose.

In this subpart, §447.302 through §447.335 and §447.361 implement section 1902(a)(30) of the Act, which requires that payments be consistent with efficiency, economy and quality of care. Section 447.371 implements section 1902(a)(15) of the Act, which requires that the State plan provide for payment for rural health clinic services in accordance with regulations prescribed by the Secretary.

[72 FR 39239, July 17, 2007]

§ 447.302 State plan requirements.

A State plan must provide that the requirements of this subpart are met.

[46 FR 48560, Oct. 1, 1981]
