

## §4110.1-1

## 43 CFR Ch. II (10-1-11 Edition)

grazing use on the public lands an applicant must own or control land or water base property, and must be:

(1) A citizen of the United States or have properly filed a valid declaration of intention to become a citizen or a valid petition for naturalization; or

(2) A group or association authorized to conduct business in the State in which the grazing use is sought, all members of which are qualified under paragraph (a) of this section; or

(3) A corporation authorized to conduct business in the State in which the grazing use is sought.

(b) Applicants for the renewal or issuance of new permits and leases and any affiliates must be determined by the authorized officer to have a satisfactory record of performance under §4130.1-1(b).

(c) Applicants shall submit an application and any other relevant information requested by the authorized officer in order to determine that all qualifications have been met.

### §4110.1-1 Acquired lands.

Where lands have been acquired by the Bureau of Land Management through purchase, exchange, Act of Congress or Executive Order, and an agreement or the terms of the act or Executive Order provide that the Bureau of Land Management shall honor existing grazing permits or leases, such permits or leases are governed by the terms and conditions in effect at the time of acquisition by the Bureau of Land Management, and are not subject to the requirements of §4110.1.

### §4110.2 Grazing preference.

#### §4110.2-1 Base property.

(a) The authorized officer shall find land or water owned or controlled by an applicant to be base property (see §4100.0-5) if:

(1) It is capable of serving as a base of operation for livestock use of public lands within a grazing district; or

(2) It is contiguous land, or, when no applicant owns or controls contiguous land, noncontiguous land that is capa-

ble of being used in conjunction with a livestock operation which would utilize public lands outside a grazing district.

(b) After appropriate consultation, cooperation, and coordination, the authorized officer shall specify the length of time for which land base property shall be capable of supporting authorized livestock during the year, relative to the multiple use management objective of the public lands.

(c) An applicant shall provide a legal description, or plat, of the base property and shall certify to the authorized officer that this base property meets the requirements under paragraphs (a) and (b) of this section.

(d) A permittee's or lessee's interest in water previously recognized as base property on public land shall be deemed sufficient in meeting the requirement that the applicant control base property. Where such waters become unusable and are replaced by newly constructed or reconstructed water developments that are the subject of a range improvement permit or cooperative range improvement agreement, the permittee's or lessee's interest in the replacement water shall be deemed sufficient in meeting the requirement that the applicant control base property.

(e) If a permittee or lessee loses ownership or control of all or part of his/her base property, the permit or lease, to the extent it was based upon such lost property, shall terminate immediately without further notice from the authorized officer. However, if, prior to losing ownership or control of the base property, the permittee or lessee requests, in writing, that the permit or lease be extended to the end of the grazing season or grazing year, the termination date may be extended as determined by the authorized officer after consultation with the new owner. When a permit or lease terminates because of a loss of ownership or control of a base property, the grazing preference shall remain with the base property and be available through application and transfer procedures at 43 CFR 4110.2-3, to the new owner or person in control of that base property.
