and the CA’s identification number must be available to the appropriate PSAP, designated statewide default answering point, or appropriate local emergency authority from or through the appropriate automatic location information (ALI) database.

(3) Service level obligation. Notwithstanding the provisions in paragraph (b)(2) of this section, if a PSAP, designated statewide default answering point, or appropriate local emergency authority is not capable of receiving and processing either ANI or location information, a VRS or IP Relay provider need not provide such ANI or location information; however, nothing in this paragraph affects the obligation under paragraph (c) of this section of a VRS or IP Relay provider to transmit via the Wireline E911 Network all 911 calls to the PSAP, designated statewide default answering point and that has been designated for telecommunications carriers pursuant to §64.3001 of this chapter.

(4) Registered Location requirement. As of December 31, 2008, VRS and IP Relay providers must:
(i) Obtain from each Registered Internet-based TRS User, prior to the initiation of service, the physical location at which the service will first be utilized; and
(ii) If the VRS or IP Relay is capable of being used from more than one location, provide their Registered Internet-based TRS Users one or more methods of updating their Registered Location including at least one option that requires use only of the CPE necessary to access the VRS or IP Relay. Any method utilized must allow a Registered Internet-based TRS User to update the Registered Location at will and in a timely manner.

§ 64.606 Internet-based TRS provider and TRS program certification.

(a) Documentation—(1) Certified state program. Any state, through its office of the governor or other delegated executive office empowered to provide TRS, desiring to establish a state program under this section shall submit, not later than October 1, 1992, documentation to the Commission addressed to the Federal Communications Commission, Chief, Consumer & Governmental Affairs Bureau, TRS Certification Program, Washington, DC 20554, and captioned “TRS State Certification Application.” All documentation shall be submitted in narrative form, shall clearly describe the state program for implementing intra-state TRS, and the procedures and remedies for enforcing any requirements imposed by the state program. The Commission shall give public notice of states filing for certification including notification in the FEDERAL REGISTER.

(2) Internet-based TRS provider. Any entity desiring to provide Internet-based TRS and to receive compensation from the Interstate TRS Fund, shall submit documentation to the Commission addressed to the Federal Communications Commission, Chief, Consumer and Governmental Affairs Bureau, TRS Certification Program, Washington, DC 20554, and captioned “Internet-based TRS Certification Application.” The documentation shall include, in narrative form:
(i) A description of the forms of Internet-based TRS to be provided (i.e., VRS, IP Relay, and/or IP captioned telephone relay service);
(ii) A detailed description of how the applicant will meet all non-waived mandatory minimum standards applicable to each form of TRS offered, including documentary and other evidence, and in the case of VRS, such documentary and other evidence shall demonstrate that the applicant leases, licenses or has acquired its own facilities and operates such facilities associated with TRS call centers and employs communications assistants, on a full or part-time basis, to staff such call centers at the date of the application. Such evidence shall include, but not be limited to:
(A) In the case of VRS applicants or providers,

(1) Operating five or fewer call centers within the United States, a copy of each deed or lease for each call center operated by the applicant within the United States;
(2) Operating more than five call centers within the United States, a copy of each deed or lease for a representative sampling (taking into account size (by number of communications assistants) and location) of five call centers operated by the applicant within the United States, together with a list of all other call centers that they operate that includes the information required under §64.604(c)(5)(iii)(N)(2);

(3) Operating call centers outside of the United States, a copy of each deed or lease for each call center operated by the applicant outside of the United States;

(4) A description of the technology and equipment used to support their call center functions—including, but not limited to, automatic call distribution, routing, call setup, mapping, call features, billing for compensation from the TRS Fund, and registration—and for each core call center function, a statement whether such technology and equipment is owned, leased or licensed (and from whom if leased or licensed); and

(5) Proofs of purchase, leases or license agreements for all technology and equipment used to support their call center functions, including a complete copy of any lease or license agreement for automatic call distribution.

(B) For all applicants, a list of individuals or entities that hold at least a 10 percent equity interest in the applicant, have the power to vote 10 percent or more of the securities of the applicant, or exercise de jure or de facto control over the applicant, a description of the applicant’s organizational structure, and the names of its executives, officers, members of its board of directors, general partners (in the case of a partnership), and managing members (in the case of a limited liability company);

(C) For all applicants, a list of the number of applicant’s full-time and part-time employees involved in TRS operations, including and divided by the following positions: executives and officers; video phone installers (in the case of VRS), communications assistants, and persons involved in marketing and sponsorship activities;

(D) For all applicants, copies of employment agreements for all of the provider’s employees directly involved in TRS operations, executives, and communications assistants, and a list of names of employees directly involved in TRS operations, need not be submitted with the application, but must be retained by the applicant for five years from the date of application, and submitted to the Commission upon request; and

(E) For all applicants, a list of all sponsorship arrangements relating to Internet-based TRS, including any associated written agreements;

(iii) A description of the provider’s complaint procedures; and

(iv) A statement that the provider will file annual compliance reports demonstrating continued compliance with these rules.

(3) Assessment of Internet-based TRS Provider Certification application. In order to assess the merits of a certification application submitted by an Internet-based TRS provider, the Commission may conduct one or more on-site visits of the applicant’s premises, to which the applicant must consent.

(b)(1) Requirements for state certification. After review of state documentation, the Commission shall certify, by letter, or order, the state program if the Commission determines that the state certification documentation:

(i) Establishes that the state program meets or exceeds all operational, technical, and functional minimum standards contained in §64.604;

(ii) Establishes that the state program makes available adequate procedures and remedies for enforcing the requirements of the state program, including that it makes available to TRS users informational materials on state and Commission complaint procedures sufficient for users to know the proper procedures for filing complaints; and

(iii) Where a state program exceeds the mandatory minimum standards contained in §64.604, the state establishes that its program in no way conflicts with federal law.

(2) Requirements for Internet-based TRS Provider FCC certification. After review of certification documentation, the Commission shall certify, by Public
§ 64.606

Notice, that the Internet-based TRS provider is eligible for compensation from the Interstate TRS Fund if the Commission determines that the certification documentation:

(i) Establishes that the provision of Internet-based TRS will meet or exceed all non-waived operational, technical, and functional minimum standards contained in §64.604;

(ii) Establishes that the Internet-based TRS provider makes available adequate procedures and remedies for ensuring compliance with the requirements of this section and the mandatory minimum standards contained in §64.604, including that it makes available for TRS users informational materials on complaint procedures sufficient for users to know the proper procedures for filing complaints.

(2) Suspension or revocation of Internet-based TRS Provider FCC certification. The Commission may suspend or revoke the certification of an Internet-based TRS provider if, after notice and opportunity for hearing, the Commission determines that such certification is no longer warranted. The Commission may, on its own motion, require a certified Internet-based TRS provider to submit documentation demonstrating ongoing compliance with the Commission’s minimum standards if, for example, the Commission receives evidence that a certified Internet-based TRS provider may not be in compliance with the minimum standards.

(f) Notification of substantive change. (1) States must notify the Commission of substantive changes in their TRS programs within 60 days of when they occur, and must certify that the state TRS program continues to meet federal minimum standards after implementing the substantive change.

(2) VRS and IP Relay providers certified under this section must notify the Commission of substantive changes in their TRS programs, services, and features within 60 days of when such changes occur, and must certify that the interstate TRS provider continues to meet Federal minimum standards after implementing the substantive change. Substantive changes shall include, but not be limited to:

(i) The use of new equipment or technologies to facilitate the manner in which relay services are provided;

(ii) Providing services from a new facility not previously identified to the Commission or the Fund administrator; and

(iii) Discontinuation of service from any facility.

(g) Internet-based TRS providers certified under this section shall file with the Commission, on an annual basis, a report demonstrating that they are in compliance with §64.604.
(1) Such reports must update the information required in paragraph (a)(2) of this section and include updated documentation and a summary of the updates, or certify that there are no changes to the information and documentation submitted with the application for certification, application for renewal of certification, or the most recent annual report, as applicable.

(2) The chief executive officer (CEO), chief financial officer (CFO), or other senior executive of an Internet-based TRS provider under this section with first-hand knowledge of the accuracy and completeness of the information provided, when submitting an annual report under paragraph (g) of this section, must, with each such submission, certify as follows:

I swear under penalty of perjury that I am __________, an officer of the above-named reporting entity, and that I have examined the foregoing submissions, and that all information required under the Commission's rules and orders has been provided and all statements of fact, as well as all documentation contained in this submission, are true, accurate, and complete.

(h) Unauthorized service interruptions.

(1) Each certified VRS provider must provide Internet-based TRS without unauthorized voluntary service interruptions.

(2) A VRS provider seeking to voluntarily interrupt service for a period of 30 minutes or more in duration must first obtain Commission authorization by submitting a written request to the Commission's Consumer and Governmental Affairs Bureau (CGB) at least 60 days prior to any planned service interruption, with detailed information of:

(i) Its justification for such interruption;

(ii) Its plan to notify customers about the impending interruption; and

(iii) Its plans for resuming service, so as to minimize the impact of such disruption on consumers through a smooth transition of temporary service to another provider, and restoration of its service at the completion of such interruption. CGB will grant or deny such a request, CGB will consider such factors as the length of time of the proposed interruption, the reason for such interruption, the frequency with which such requests have been made by the provider in the past, the potential impact of the interruption on consumers, and the provider’s plans for a smooth service restoration.

(3) In the event of an unforeseen service interruption due to circumstances beyond an Internet-based TRS service provider’s control, or in the event of a VRS provider’s voluntary service interruption of less than 30 minutes in duration, the provider must submit a written notification to CGB within two business days of the commencement of the service interruption, with an explanation of when and how the provider has restored service or the provider’s plan to do so imminently. In the event the provider has not restored service at the time such report is filed, the provider must submit a second report within two business days of the restoration of service with an explanation of when and how the provider has restored service. The provider also must provide notification of service outages covered by this paragraph to consumers on an accessible Web site, and that notification of service status must be updated in a timely manner.

(4) A VRS provider that fails to obtain prior Commission authorization for a voluntary service interruption or fails to provide written notification after a voluntary service interruption of less than 30 minutes in duration, or an Internet-based TRS provider that fails to provide written notification after the commencement of an unforeseen service interruption due to circumstances beyond the provider’s control in accordance with this subsection, may be subject to revocation of certification, suspension of payment from the TRS Fund, or other enforcement action by the Commission, as appropriate.

Editorial Note: At 76 FR 47477, Aug. 5, 2011, in §64.606, paragraph (a)(2)(v) was revised. However, this amendment could not be performed because paragraph (a)(v) did not exist.
§ 64.607 Furnishing related customer premises equipment.

(a) Any communications common carrier may provide, under tariff, customer premises equipment (other than hearing aid compatible telephones as defined in part 68 of this chapter, needed by persons with hearing, speech, vision or mobility disabilities. Such equipment may be provided to persons with those disabilities or to associations or institutions who require such equipment regularly to communicate with persons with disabilities. Examples of such equipment include, but are not limited to, artificial larynxes, bone conductor receivers and TTs.

(b) Any carrier which provides telecommunications devices for persons with hearing and/or speech disabilities, whether or not pursuant to tariff, shall respond to any inquiry concerning:

(1) The availability (including general price levels) of TTs using ASCII, Baudot, or both formats; and

(2) The compatibility of any TT with other such devices and computers.

§ 64.608 Provision of hearing aid compatible telephones by exchange carriers.

In the absence of alternative suppliers in an exchange area, an exchange carrier must provide a hearing aid compatible telephone, as defined in §68.316 of this chapter, and provide related installation and maintenance services for such telephones on a detariffed basis to any customer with a hearing disability who requests such equipment or services.

§ 64.609 Enforcement of related customer premises equipment rules.

Enforcement of §§64.607 and 64.608 is delegated to those state public utility or public service commissions which adopt those sections and provide for their enforcement. Subpart G—Furnishing of Enhanced Services and Customer-Premises Equipment by Communications Common Carriers

§ 64.610 Establishment of a National Deaf-Blind Equipment Distribution Program.

(a) The National Deaf-Blind Equipment Distribution Program (NDBEDP) is established as a pilot program to distribute specialized customer premises equipment (CPE) used for telecommunications service, Internet access service, and advanced communications, including interexchange services and advanced telecommunications and information services, to low-income individuals who are deaf-blind. The duration of this pilot program will be two years, with a Commission option to extend such program for an additional year.

(b) Certification to receive funding. For each state, the Commission will certify a single program as the sole authorized entity to participate in the NDBEDP and receive reimbursement for its program's activities from the Interstate Telecommunications Relay Service Fund (TRS Fund). Such entity will have full oversight and responsibility for distributing equipment and providing related services in that state, either directly or through collaboration, partnership, or contract with other individuals or entities in-state or out-of-state, including other NDBEDP certified programs.

(1) Any state with an equipment distribution program (EDP) may have its EDP apply to the Commission for certification as the sole authorized entity for the state to participate in the NDBEDP and receive reimbursement for its activities from the TRS Fund.
