

INDEMNIFICATION AND INSURANCE (JAN 2008)

(a) *Indemnification.* The contractor expressly agrees to indemnify and save the Government, its officers, agents, servants, and employees harmless from and against any and all claims, loss, damage, injury, and liability, however caused, resulting from, arising out of, or in any way connected with the performance of work under this agreement. Further, it is agreed that any negligence or alleged negligence of the Government, its officers, agents, servants, and employees, shall not be a bar to a claim for indemnification unless the act or omission of the Government, its officers, agents, servants, and employees is the sole, competent, and producing cause of such claims, loss, damage, injury, and liability. At the option of the contractor, and subject to the approval by the contracting officer of the sources, insurance coverage may be employed as guaranty of indemnification.

(b) *Insurance.* Satisfactory insurance coverage is a condition precedent to award of a contract. In general, a successful bidder must present satisfactory evidence of full compliance with State and local requirements, or those below stipulated, whichever are the greater. More specifically, workers' compensation and employer's liability coverage will conform to applicable State law requirements for the service contemplated, whereas general liability and automobile liability of comprehensive type shall, in the absence of higher statutory minimums, be required in the amounts per vehicle used of not less than \$200,000 per person and \$500,000 per occurrence for bodily injury and \$20,000 per occurrence for property damage. State-approved sources of insurance coverage ordinarily will be deemed acceptable to the Department of Veterans Affairs installation, subject to timely certifications by such sources of the types and limits of the coverages afforded by the sources to the bidder. [Contracting Officer's Note: In those instances where airplane service is to be used, substitute the word "aircraft" for "automobile" and "vehicle" and modify coverage to require aircraft public and passenger liability insurance of at least \$200,000 per passenger and \$500,000 per occurrence for bodily injury, other than passenger liability, and \$200,000 per occurrence for property damage. Coverage for passenger liability bodily injury shall be at least \$200,000 multiplied by the number of seats or passengers, whichever is greater.]

(d) Dimensions shown of existing work and all dimensions required for work that is to connect with existing work shall be verified by the contractor by actual measurement of

the existing work. Any work at variance with that specified or shown in the drawings shall not be performed by the contractor until approved in writing by the contracting officer.

(End of clause)

852.236-72 Performance of work by the contractor.

As prescribed in 836.501, insert the following clause:

PERFORMANCE OF WORK BY THE CONTRACTOR (JUL 2002)

The clause entitled "Performance of Work by the Contractor" in FAR 52.236-1 is supplemented as follows:

(a) Contract work accomplished on the site by laborers, mechanics, and foremen/forewomen on the contractor's payroll and under his/her direct supervision shall be included in establishing the percent of work to be performed by the contractor. Cost of material and equipment installed by such labor may be included. The work by the contractor's executive, supervisory and clerical forces shall be excluded in establishing compliance with the requirements of this clause.

(b) The contractor shall submit, simultaneously with the schedule of costs required by the Payments Under Fixed-Price Construction Contracts clause of the contract, a statement designating the branch or branches of contract work to be performed with his/her forces. The approved schedule of costs will be used in determining the value of a branch or branches, or portions thereof, of the work for the purpose of this article.

(c) If, during the progress of work hereunder, the contractor requests a change in the branch or branches of the work to be performed by his/her forces and the contracting officer determines it to be in the best interest of the Government, the contracting officer may, at his/her discretion, authorize a change in such branch or branches of said work. Nothing contained herein shall permit a reduction in the percentage of work to be performed by the contractor with his/her forces, it being expressly understood that this is a contract requirement without right or privilege of reduction.

(d) In the event the contractor fails or refuses to meet the requirement of the FAR clause at 52.236-1, it is expressly agreed that the contract price will be reduced by 15 percent of the value of that portion of the percentage requirement that is accomplished by others. For the purpose of this clause, it is agreed that 15 percent is an acceptable estimate of the contractor's overhead and profit, or mark-up, on that portion of the work which the contractor fails or refuses to perform, with his/her own forces, in accordance with the FAR clause at 52.236-1.
