§ 8.3 Applicability.

This part applies to all elements of the Department of Transportation.

§ 8.5 Definitions.

As used in this part:

Classification means the act or process by which information is determined to be classified information.

Classification levels means the following three levels at which information may be classified:

Classified information or “classified national security information” means information that has been determined under Executive Order 12958, or any predecessor or successor order, to require protection against unauthorized disclosure, and is marked to indicate its classified status when in documentary form.

Clearance means that an individual is eligible, under the standards of Executive Orders 10450 and 12968 and appropriate DOT regulations, for access to classified information.

Damage to the national security means harm to the national defense or foreign relations of the United States from the unauthorized disclosure of information, to include the sensitivity, value, and utility of that information.

Declassification means the authorized change in the status of information
