Federal Motor Carrier Safety Administration, DOT § 385.103

unfitness issued under subpart J of this part based on corrective action.

§ 385.19 Safety fitness information.

(a) Final safety ratings, remedial directives, and safety fitness determinations will be made available to other Federal and State agencies in writing, telephonically, or by remote computer access.

(b) The final safety rating, any applicable remedial directive(s), and the safety fitness determination pertaining to a motor carrier will be made available to the public upon request. Any person requesting information under this paragraph must provide FMCSA with the motor carrier’s name, principal office address, and, if known, the USDOT Number or the Interstate Commerce Commission MC (ICMC) docket number if any.

(c) Requests should be addressed to the Federal Motor Carrier Safety Administration, Office of Information Technology (MC–RI), 1200 New Jersey Ave., SE., Washington, DC 20590–0001. The information can also be found at the SAFER website: http://www.saferways.org.

(d) Oral requests by telephone to (800) 832–5660 will be given an oral response.

§ 385.103 Safety monitoring system.

(a) General. Each Mexico-domiciled carrier operating in the United States will be subject to an oversight program to monitor its compliance with applicable Federal Motor Carrier Safety Regulations (FMCSRs), Federal Motor Vehicle Safety Standards (FMVSSs), and Hazardous Materials Regulations (HMRs).

(b) Roadside monitoring. Each Mexico-domiciled carrier that receives provisional operating authority or a provisional Certificate of Registration under part 365 of this subchapter must have on every commercial motor vehicle it operates in the United States a current decal certifying its compliance with applicable FMCSRs.

(b) CVSA decal. Each Mexico-domiciled carrier granted provisional operating authority under part 365 of this subchapter must have on every commercial motor vehicle it operates in the United States a current decal certifying its compliance with applicable FMCSRs.

§ 385.101 Definitions

Compliance review means a compliance review as defined in §385.3 of this part.

Provisional certificate of registration means the registration under §368.6 of this subchapter that the FMCSA grants to a Mexico-domiciled motor carrier to provide interstate transportation of property within the United States solely within the municipalities along the United States-Mexico border and the commercial zones of such municipalities. It is provisional because it will be revoked if the registrant does not demonstrate that it is exercising basic safety management controls during the safety monitoring period established in this subpart.

Provisional operating authority means the registration under §365.507 of this subchapter that the FMCSA grants to a Mexico-domiciled motor carrier to provide interstate transportation within the United States beyond the municipalities along the United States-Mexico border and the commercial zones of such municipalities. It is provisional because it will be revoked if the registrant is not assigned a Satisfactory safety rating following a compliance review conducted during the safety monitoring period established in this subpart.

Safety audit means an examination of a motor carrier’s operations to provide educational and technical assistance on safety and the operational requirements of the FMCSRs and applicable HMRs and to gather critical safety data needed to make an assessment of the carrier’s safety performance and basic safety management controls. Safety audits do not result in safety ratings.
§ 385.105 Expedited action.

(a) A Mexico-domiciled motor carrier committing any of the following violations identified through roadside inspections, or by any other means, may be subjected to an expedited safety audit or compliance review, or may be required to submit a written response demonstrating corrective action:

(1) Using drivers not possessing, or operating without, a valid Licencia Federal de Conductor. An invalid Licencia Federal de Conductor includes one that is falsified, revoked, expired, or missing a required endorsement.

(2) Operating vehicles that have been placed out of service for violations of the Commercial Vehicle Safety Alliance (CVSA) North American Standard Out-of-Service Criteria, without making the required repairs.

(3) Involvement in, due to carrier act or omission, a hazardous materials incident within the United States involving:

(i) A highway route controlled quantity of a Class 7 (radioactive) material as defined in §173.403 of this title;

(ii) Any quantity of a Class 1, Division 1.1, 1.2, or 1.3 explosive as defined in §173.50 of this title; or

(iii) Any quantity of a poison inhalation hazard Zone A or B material as defined in §173.115, §173.132, or §173.133 of this title.

(4) Involvement in, due to carrier act or omission, two or more hazardous material incidents occurring within the United States and involving any hazardous material not listed in paragraph (a)(3) of this section and defined in chapter I of this title.

(5) Using a driver who tests positive for controlled substances or alcohol or who refuses to submit to required controlled substances or alcohol tests.

(6) Operating within the United States a motor vehicle that is not insured as required by part 387 of this chapter.

(7) Having a driver or vehicle out-of-service rate of 50 percent or more based upon at least three inspections occurring within a consecutive 90-day period.

(b) Failure to respond to an agency demand for a written response demonstrating corrective action within 30 days will result in the suspension of the carrier’s provisional operating authority or provisional Certificate of Registration until the required showing of corrective action is submitted to the FMCSA.

(c) A satisfactory response to a written demand for corrective action does not excuse a carrier from the requirement that it undergo a safety audit or compliance review, as appropriate, during the provisional registration period.

§ 385.107 The safety audit.

(a) The criteria used in a safety audit to determine whether a Mexico-domiciled carrier exercises the necessary basic safety management controls are specified in Appendix A to this part.

(b) If the FMCSA determines, based on the safety audit, that the Mexico-domiciled carrier has adequate basic safety management controls, the FMCSA will provide the carrier written notice of this finding as soon as practicable, but not later than 45 days after the completion of the safety audit. The carrier’s Certificate of Registration will remain provisional and the carrier’s on-highway performance will continue to be closely monitored for the remainder of the 18-month provisional registration period.

(c) If the FMCSA determines, based on the safety audit, that the Mexico-domiciled carrier’s basic safety management controls are inadequate, it will initiate a suspension and revocation proceeding in accordance with §385.111 of this subpart.

(d) The safety audit is also used to assess the basic safety management controls of Mexico-domiciled applicants for provisional operating authority to operate beyond United States municipalities and commercial zones.
