(c) *Pre-authorization safety audit.* Every non-North America-domiciled motor carrier that applies under this part must satisfactorily complete an FMCSA-administered safety audit before FMCSA will grant new entrant registration to operate in the United States. The safety audit is a review by FMCSA of the carrier's written procedures and records to validate the accuracy of information and certifications provided in the application and determine whether the carrier has established or exercises the basic safety management controls necessary to ensure safe operations. FMCSA will evaluate the results of the safety audit using the criteria in the Appendix to this subpart.

(d) An application of a non-North America-domiciled motor carrier requesting for-hire operating authority under part 365 of this subchapter may be protested under §365.109(b). If a protest to the application is filed with FMCSA, new entrant registration will be granted only if FMCSA denies or rejects the protest.

(e) If FMCSA grants new entrant registration to the applicant, it will assign a distinctive USDOT Number that

(g) FMCSA may not re-designate a non-North America-domiciled carrier's registration from new entrant to permanent prior to 18 months after the date its USDOT Number is issued and subject to successful completion of the safety monitoring system for non-North America-domiciled carriers set out in part 385, subpart I of this subchapter. Successful completion includes obtaining a Satisfactory safety rating as the result of a compliance review.
