

temporary handicaps may not be recognized as handicapped by social service agencies.

9. *Question:* Can the operator require that elderly and handicapped persons come to a central office to register for an off-peak half-fare program?

Answer: FTA strongly encourages operators to develop procedures which maximize the availability of off-peak half-fares to eligible individuals. Requiring individuals to travel to a single office which may be inconveniently located is not consistent with this policy, although it is not strictly prohibited. FTA reserves the right to review such local requirements on a case-by-case basis.

10. *Question:* Must ID cards issued by one operator be transferable to another?

Answer: No. However, FTA encourages consistency among off-peak procedures and the maximizing of availability to eligible individuals, especially among operators within a single urban area. Nevertheless, each operator is permitted to require its own certification of individuals using its service.

11. *Question:* Can an operator require an elderly or handicapped person to submit to a procedure certifying their eligibility before they can receive half-fare? For example, if an operator requires eligible individuals to have a special ID card, can the half-fare be denied to an individual who can otherwise give proof of age, etc, but does not have an ID card?

Answer: Yes, although FTA does not endorse this practice.

[53 FR 53356, Dec. 30, 1988. Redesignated and amended at 61 FR 19562, May 2, 1996]

PART 611—MAJOR CAPITAL INVESTMENT PROJECTS

Sec.

611.1 Purpose and contents.

611.3 Applicability.

611.5 Definitions.

611.7 Relation to planning and project development processes.

611.9 Project justification criteria for grants and loans for fixed guideway systems.

611.11 Local financial commitment criteria.

611.13 Overall project ratings.

APPENDIX A TO PART 611—DESCRIPTION OF MEASURES FOR PROJECT EVALUATION.

AUTHORITY: 49 U.S.C. 5309; 49 CFR 1.51

SOURCE: 65 FR 76880, Dec. 7, 2000, unless otherwise noted.

§611.1 Purpose and contents.

(a) This part prescribes the process that applicants must follow to be considered eligible for capital investment grants and loans for new fixed guide-

way systems or extensions to existing systems ("new starts"). Also, this part prescribes the procedures used by FTA to evaluate proposed new starts projects as required by 49 U.S.C. 5309(e), and the scheduling of project reviews required by 49 U.S.C. 5328(a).

(b) This part defines how the results of the evaluation described in paragraph (a) of this section will be used:

(1) Approve entry into preliminary engineering and final design, as required by 49 U.S.C. 309(e)(6);

(2) Rate projects as "highly recommended," "recommended," or "not recommended," as required by 49 U.S.C. 5309(e)(6);

(3) Assign individual ratings for each of the project justification criteria specified in 49 U.S.C. 5309(e)(1)(B) and (C);

(4) Determine project eligibility for Federal funding commitments, in the form of Full Funding Grant Agreements;

(5) Support funding recommendations for this program for the Administration's annual budget request; and

(6) Fulfill the reporting requirements under 49 U.S.C. 5309(o)(1), Funding Levels and Allocations of Funds, Annual Report, and 5309(o)(2), Supplemental Report on New Starts.

(c) The information collected and ratings developed under this part will form the basis for the annual reports to Congress, required by 49 U.S.C. 5309(o)(1) and (2).

§611.3 Applicability.

(a) This part applies to all proposals for Federal capital investment funds under 49 U.S.C. 5309 for new transit fixed guideway systems and extensions to existing systems.

(b) Projects described in paragraph (a) of this section are not subject to evaluation under this part if the total amount of funding from 49 U.S.C. 5309 will be less than \$25 million, or if such projects are otherwise exempt from evaluation by statute.

(1) Exempt projects must still be rated by FTA for purposes of entering into a Federal funding commitment as

§611.5

required by 49 U.S.C. 5309(e)(7). Sponsors who believe their projects to be exempt are nonetheless strongly encouraged to submit data for project evaluation as described in this part.

(2) Such projects are still subject to the requirements of 23 CFR part 450 and 23 CFR part 771.

(3) This part does not apply to projects for which a Full Funding Grant Agreement (FFGA) has already been executed.

(c) Consistent with 49 U.S.C. 5309(e)(8)(B), FTA will make project approval decisions on proposed projects using expedited procedures as appropriate, for proposed projects that are:

- (1) Located in a nonattainment area;
- (2) Transportation control measures as defined by the Clean Air Act (42 U.S.C. 7401 *et seq.*); and
- (3) Required to carry out a State Implementation Plan.

§611.5 Definitions.

The definitions established by Titles 12 and 49 of the United States Code, the Council on Environmental Quality's regulation at 40 CFR parts 1500–1508, and FHWA–FTA regulations at 23 CFR parts 450 and 771 are applicable. In addition, the following definitions apply:

Alternatives analysis is a corridor level analysis which evaluates all reasonable mode and alignment alternatives for addressing a transportation problem, and results in the adoption of a locally preferred alternative by the appropriate State and local agencies and official boards through a public process.

Baseline alternative is the alternative against which the proposed new starts project is compared to develop project justification measures. Relative to the no build alternative, it should include transit improvements lower in cost than the new start which result in a better ratio of measures of transit mobility compared to cost than the no build alternative.

BRT means bus rapid transit.

Bus Rapid Transit refers to coordinated improvements in a transit system's infrastructure, equipment, operations, and technology that give preferential treatment to buses on fixed guideways and urban roadways. The intention of Bus Rapid Transit is to re-

49 CFR Ch. VI (10–1–11 Edition)

duce bus travel time, improve service reliability, increase the convenience of users, and ultimately, increase bus ridership.

Extension to existing fixed-guideway system means a project to extend an existing fixed guideway system.

FFGA means a Full Funding Grant Agreement.

Final Design is the final phase of project development, and includes (but is not limited to) the preparation of final construction plans (including construction management plans), detailed specifications, construction cost estimates, and bid documents.

Fixed guideway system means a mass transportation facility which utilizes and occupies a separate right-of-way, or rail line, for the exclusive use of mass transportation and other high occupancy vehicles, or uses a fixed catenary system and a right of way usable by other forms of transportation. This includes, but is not limited to, rapid rail, light rail, commuter rail, automated guideway transit, people movers, ferry boat service, and fixed-guideway facilities for buses (such as bus rapid transit) and other high occupancy vehicles. A *new fixed guideway system* means a newly-constructed fixed guideway system in a corridor or alignment where no such system exists.

FTA means the Federal Transit Administration.

Full Funding Grant Agreement means an instrument that defines the scope of a project, the Federal financial contribution, and other terms and conditions.

Major transit investment means any project that involves the construction of a new fixed guideway system or extension of an existing fixed guideway system for use by mass transit vehicles.

NEPA process means those procedures necessary to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA), at 23 CFR part 771; the NEPA process is completed when a Record of Decision (ROD) or Finding of No Significant Impact (FONSI) is issued.

New start means a new fixed guideway system, or an extension to an existing fixed guideway system.
