

may individually or collectively hold, cumulatively during any fishing year, IFQ allocation in excess of the total allocation cap. The total allocation cap is the sum of the maximum allocations associated with the share caps for each individual share category and is calculated annually based on the applicable quotas or catch allowance associated with each share category.

(7) *Redistribution of shares resulting from permanent permit revocation.* If a shareholder's commercial vessel permit for Gulf reef fish has been permanently revoked under provisions of 15 CFR part 904, the RA will redistribute the IFQ shares associated with the revoked permit proportionately among remaining shareholders (subject to cap restrictions) based upon the amount of shares each held just prior to the redistribution. During December of each year, the RA will determine the amount of revoked shares, if any, to be redistributed, and the shares will be distributed at the beginning of the subsequent fishing year.

(8) *Annual recalculation and notification of IFQ shares and allocation.* On or about January 1 each year, IFQ shareholders will be notified, via the IFQ website at *ifq.sero.nmfs.noaa.gov*, of their IFQ shares and allocations, for each of the five share categories, for the upcoming fishing year. These updated share values will reflect the results of applicable share transfers and any redistribution of shares (subject to cap restrictions) resulting from permanent revocation of applicable permits under 15 CFR part 904. Allocation, for each share category, is calculated by multiplying IFQ share for that category times the annual commercial quota or commercial catch allowance for that share category. Updated allocation values will reflect any change in IFQ share for each share category, any change in the annual commercial quota or commercial catch allowance for the applicable categories; and any debits required as a result of prior fishing year overages as specified in paragraph (c)(1)(ii) of this section. IFQ participants can monitor the status of their

shares and allocation throughout the year via the IFQ website.

[74 FR 44745, Aug. 31, 2009, as amended at 75 FR 9118, Mar. 1, 2010; 76 FR 23912, Apr. 29, 2011]

EFFECTIVE DATE NOTE: At 76 FR 31881, June 2, 2011, in §635.4, paragraph (b)(2)(iv)(A) was suspended, effective from June 1, 2011 through November 29, 2011.

Subpart C—Management Measures

§ 622.30 Fishing years.

The fishing year for species or species groups governed in this part is January 1 through December 31 except for the following:

- (a) *Allowable octocoral*— October 1 through September 30.
- (b) *King and Spanish mackerel.* The fishing year for the king and Spanish mackerel bag limits specified in §622.39(c)(1) is January 1 through December 31. The following fishing years apply only for the king and Spanish mackerel quotas specified in §622.42(c):
 - (1) *Gulf migratory group king mackerel*— July 1 through June 30.
 - (2) *Gulf migratory group Spanish mackerel*—April through March.
 - (3) *South Atlantic migratory group king and Spanish mackerel*—March through February.
- (c) *Wreckfish*— April 16 through April 15.
- (d) *South Atlantic greater amberjack*— May 1 through April 30.
- (e) *South Atlantic black sea bass*—June 1 through May 31.

[61 FR 34934, July 3, 1996, as amended at 64 FR 3627, Jan. 25, 1999; 70 FR 39190, July 7, 2005; 71 FR 55106, Oct. 23, 2006]

§ 622.31 Prohibited gear and methods.

In addition to the prohibited gear/methods specified in this section, see §§ 622.33, 622.34, and 622.35 for seasonal/area prohibited gear/methods and §622.41 for species specific authorized and unauthorized gear/methods.

(a) *Explosives.* An explosive (except an explosive in a powerhead) may not be used to fish in the Caribbean, Gulf, or South Atlantic EEZ. A vessel fishing in the EEZ for a species governed in this part, or a vessel for which a permit has been issued under §622.4, may not have

§ 622.31

50 CFR Ch. VI (10–1–11 Edition)

on board any dynamite or similar explosive substance.

(b) *Chemicals and plants.* A toxic chemical may not be used or possessed in a coral area, and a chemical, plant, or plant-derived toxin may not be used to harvest a Caribbean coral reef resource in the Caribbean EEZ.

(c) *Fish traps.* A fish trap may not be used or possessed in the Gulf or South Atlantic EEZ. A fish trap deployed in the Gulf or South Atlantic EEZ may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(2) A fish trap may not be used or possessed in the Gulf EEZ west of 85°30' W. long. and, after February 7, 2007, may not be used or possessed in the Gulf EEZ.

(3) A fish trap used other than where authorized in paragraph (c) (1) or (2) of this section may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(d) *Longlines for wreckfish.* A bottom longline may not be used to fish for wreckfish in the South Atlantic EEZ. A person aboard a vessel that has a longline on board may not retain a wreckfish in or from the South Atlantic EEZ. For the purposes of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter suitable for use in the longline fishery longer than 1.5 mi (2.4 km) on any reel, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(e) *Poisons.* (1) A poison, drug, or other chemical may not be used to fish for Caribbean reef fish in the Caribbean EEZ.

(2) A poison may not be used to take Gulf reef fish in the Gulf EEZ.

(3) A poison may not be used to fish for South Atlantic snapper-grouper in the South Atlantic EEZ.

(f) *Power-assisted tools.* A power-assisted tool may not be used in the Caribbean EEZ to take a Caribbean coral reef resource or in the Gulf or South Atlantic EEZ to take allowable octocoral, prohibited coral, or live rock.

(g) *Powerheads.* A powerhead may not be used in the Caribbean EEZ to har-

vest Caribbean reef fish or in the EEZ off South Carolina to harvest South Atlantic snapper-grouper. The possession of a mutilated Caribbean reef fish in or from the Caribbean EEZ, or a mutilated South Atlantic snapper-grouper in or from the EEZ off South Carolina, and a powerhead is *prima facie* evidence that such fish was harvested by a powerhead.

(h) *Rebreathers and spearfishing gear.* In the South Atlantic EEZ, a person using a rebreather may not harvest South Atlantic snapper-grouper with spearfishing gear. The possession of such snapper-grouper while in the water with a rebreather is *prima facie* evidence that such fish was harvested with spearfishing gear while using a rebreather.

(i) *Sea bass pots.* A sea bass pot may not be used in the South Atlantic EEZ south of 28°35.1' N. lat. (due east of the NASA Vehicle Assembly Building, Cape Canaveral, FL). A sea bass pot deployed in the EEZ south of 28°35.1' N. lat. may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(j) *Spears and hooks.* A spear, hook, or similar device may not be used in the Caribbean EEZ to harvest a Caribbean spiny lobster. The possession of a speared, pierced, or punctured Caribbean spiny lobster in or from the Caribbean EEZ is *prima facie* evidence of violation of this section.

(k) *Traps for royal red shrimp in the Gulf EEZ and transfer at sea.* A trap may not be used to fish for royal red shrimp in the Gulf EEZ. Possession of a trap and royal red shrimp on board a vessel is prohibited. A trap used to fish for royal red shrimp in the Gulf EEZ may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer. In addition, royal red shrimp cannot be transferred in the Gulf EEZ, and royal red shrimp taken in the Gulf EEZ cannot be transferred at sea regardless of where the transfer takes place.

(l) *Gillnets and trammel nets in the Caribbean EEZ.* A gillnet or trammel net may not be used in the Caribbean EEZ to fish for Caribbean reef fish or Caribbean spiny lobster. Possession of a

gillnet or trammel net and any Caribbean reef fish or Caribbean spiny lobster in or from the Caribbean EEZ is prima facie evidence of violation of this paragraph (l). A gillnet or trammel net used in the Caribbean EEZ to fish for any other species must be tended at all times.

(m) *Weak link*. A bottom trawl that does not have a weak link in the tickler chain may not be used to fish in the Gulf EEZ. For the purposes of this paragraph, a weak link is defined as a length or section of the tickler chain that has a breaking strength less than the chain itself and is easily seen as such when visually inspected.

(n) Gulf reef fish other than sand perch or dwarf sand perch may not be used as bait in any fishery, except that, when purchased from a fish processor, the filleted carcasses and offal of Gulf reef fish may be used as bait in trap fisheries for blue crab, stone crab, deep-water crab, and spiny lobster.

[61 FR 34934, July 3, 1996, as amended at 62 FR 13987, Mar. 25, 1997; 63 FR 10567, Mar. 4, 1998; 63 FR 57590, Oct. 28, 1998; 67 FR 51079, Aug. 7, 2002; 70 FR 62080, Oct. 28, 2005; 70 FR 76219, Dec. 23, 2005; 71 FR 45435, Aug. 9, 2006; 73 FR 411, Jan. 3, 2008]

§ 622.32 Prohibited and limited-harvest species.

(a) *General*. The harvest and possession restrictions of this section apply without regard to whether the species is harvested by a vessel operating under a commercial vessel permit. The operator of a vessel that fishes in the EEZ is responsible for the limit applicable to that vessel.

(b) *Prohibited species*. Prohibited species, by geographical area, are as follows:

(1) *Caribbean*. (i) Caribbean prohibited coral may not be fished for or possessed in or from the Caribbean EEZ. The taking of Caribbean prohibited coral in the Caribbean EEZ is not considered unlawful possession provided it is returned immediately to the sea in the general area of fishing.

(ii) No person may fish for or possess goliath grouper and Nassau grouper in or from the Caribbean EEZ. Such fish caught in the Caribbean EEZ must be released immediately with a minimum of harm.

(iii) Egg-bearing spiny lobster in the Caribbean EEZ must be returned to the water unharmed. An egg-bearing spiny lobster may be retained in a trap, provided the trap is returned immediately to the water. An egg-bearing spiny lobster may not be stripped, scraped, shaved, clipped, or in any other manner molested, in order to remove the eggs.

(iv) No person may fish for or possess on board a fishing vessel a Caribbean queen conch in or from the Caribbean EEZ, in the area east of 64°34' W. longitude which includes Lang Bank east of St. Croix, U.S. Virgin Islands, except during November 1 through May 31.

(2) *Gulf*. (i) Gulf and South Atlantic prohibited coral taken as incidental catch in the Gulf EEZ must be returned immediately to the sea in the general area of fishing. In fisheries where the entire catch is landed unsorted, such as the scallop and groundfish fisheries, unsorted prohibited coral may be landed ashore; however, no person may sell or purchase such prohibited coral.

(ii) Goliath grouper may not be harvested or possessed in or from the Gulf EEZ.

(iii) Red drum and Nassau grouper may not be harvested or possessed in or from the Gulf EEZ. Such fish caught in the Gulf EEZ must be released immediately with a minimum of harm.

(3) *South Atlantic*. (i) Gulf and South Atlantic prohibited coral taken as incidental catch in the South Atlantic EEZ must be returned immediately to the sea in the general area of fishing. In fisheries where the entire catch is landed unsorted, such as the scallop and groundfish fisheries, unsorted prohibited coral may be landed ashore; however, no person may sell or purchase such prohibited coral.

(ii) Goliath grouper and Nassau grouper may not be harvested or possessed in or from the South Atlantic EEZ. Goliath grouper and Nassau grouper taken in the South Atlantic EEZ incidentally by hook-and-line must be released immediately by cutting the line without removing the fish from the water.

(iii) Wild live rock may not be harvested or possessed in the South Atlantic EEZ.
