

Fishery Conservation and Management

§ 648.124

through consistent state and Federal measures so no differential effects occur on Federal permit holders.

§ 648.124 Minimum fish sizes.

(a) The minimum size for scup is 9 inches (22.9 cm) TL for all vessels issued a moratorium permit under § 648.4(a)(6). If such a vessel is also issued a charter and party boat permit and is carrying passengers for hire, or carrying more than three crew members if a charter boat, or more than five crew members if a party boat, then the minimum size specified in paragraph (b) of this section applies.

(b) The minimum size for scup is 10.5 inches (26.67 cm) TL for all vessels that do not have a moratorium permit, or for party and charter vessels that are issued a moratorium permit but are fishing with passengers for hire, or carrying more than three crew members if a charter boat, or more than five crew members if a party boat.

(c) The minimum size applies to whole fish or any part of a fish found in possession, e.g., fillets. These minimum sizes may be adjusted pursuant to the procedures in § 648.120.

[61 FR 43426, Aug. 23, 1996, as amended at 66 FR 39292, July 30, 2001; 67 FR 50373, Aug. 2, 2002; 73 FR 29999, May 23, 2008]

EFFECTIVE DATE NOTE: At 76 FR 60633, Sept. 29, 2011, § 648.124 was revised, effective October 31, 2011. For the convenience of the user, the revised text is set forth as follows:

§ 648.124 Scup commercial season and commercial fishery area restrictions.

(a) *Southern Gear Restricted Area*—(1) *Restrictions*. From January 1 through March 15, all trawl vessels in the Southern Gear Restricted Area that fish for or possess non-exempt species as specified in paragraph (a)(2) of this section must fish with nets that have a minimum mesh size of 5.0-inch (12.7-cm) diamond mesh, applied throughout the codend for at least 75 continuous meshes forward of the terminus of the net. For trawl nets with codends (including an extension) of fewer than 75 meshes, the entire trawl net must have a minimum mesh size of 5.0 inches (12.7 cm) throughout the net. The Southern Gear Restricted Area is an area bounded by straight lines connecting the following points in the order stated (copies of a chart depicting the area are available from the Regional Administrator upon request):

SOUTHERN GEAR RESTRICTED AREA

Point	N. lat.	W. long.
SGA1	39°20'	72°53'
SGA2	39°20'	72°28'
SGA3	38°00'	73°58'
SGA4	37°00'	74°43'
SGA5	36°30'	74°43'
SGA6	36°30'	75°03'
SGA7	37°00'	75°03'
SGA8	38°00'	74°23'
SGA1	39°20'	72°53'

(2) *Non-exempt species*. Unless otherwise specified in paragraph (d) of this section, the restrictions specified in paragraph (a)(1) of this section apply only to vessels in the Southern Gear Restricted Area that are fishing for or in possession of the following non-exempt species: *Loligo* squid; black sea bass; and silver hake (whiting).

(b) *Northern Gear Restricted Area 1*—(1) *Restrictions*. From November 1 through December 31, all trawl vessels in the Northern Gear Restricted Area 1 that fish for or possess non-exempt species as specified in paragraph (b)(2) of this section must fish with nets of 5.0-inch (12.7-cm) diamond mesh, applied throughout the codend for at least 75 continuous meshes forward of the terminus of the net. For trawl nets with codends (including an extension) of fewer than 75 meshes, the entire trawl net must have a minimum mesh size of 5.0 inches (12.7 cm) throughout the net. The Northern Gear Restricted Area 1 is an area bounded by straight lines connecting the following points in the order stated (copies of a chart depicting the area are available from the Regional Administrator upon request):

NORTHERN GEAR RESTRICTED AREA 1

Point	N. lat.	W. long.
NGA1	41°00'	71°00'
NGA2	41°00'	71°30'
NGA3	40°00'	72°40'
NGA4	40°00'	72°05'
NGA1	41°00'	71°00'

(2) *Non-exempt species*. Unless otherwise specified in paragraph (d) of this section, the restrictions specified in paragraph (b)(1) of this section apply only to vessels in the Northern Gear Restricted Area 1 that are fishing for, or in possession of, the following non-exempt species: *Loligo* squid; black sea bass; and silver hake (whiting).

(c) *Transiting*. Vessels that are subject to the provisions of the Southern and Northern GRAs, as specified in paragraphs (a) and (b) of this section, respectively, may transit these areas provided that trawl net codends on board of mesh size less than that specified in paragraphs (a) and (b) of this section are not available for immediate use and are

§ 648.125

50 CFR Ch. VI (10–1–11 Edition)

stowed in accordance with the provisions of § 648.23(b).

(d) [Reserved]

(e) *Addition or deletion of exemptions.* The MAFMC may recommend to the Regional Administrator, through the framework procedure specified in § 648.130(a), additions or deletions to exemptions for fisheries other than scup. A fishery may be restricted or exempted by area, gear, season, or other means determined to be appropriate to reduce bycatch of scup.

(f) *Exempted experimental fishing.* The Regional Administrator may issue an exempted experimental fishing permit (EFP) under the provisions of § 600.745(b), consistent with paragraph (d)(2) of this section, to allow any vessel participating in a scup discard mitigation research project to engage in any of the following activities: Fish in the applicable gear restriction area; use fishing gear that does not conform to the regulations; possess non-exempt species specified in paragraphs (a)(2) and (b)(2) of this section; or engage in any other activity necessary to project operations for which an exemption from regulatory provision is required. Vessels issued an EFP must comply with all conditions and restrictions specified in the EFP.

(1) A vessel participating in an exempted experimental fishery in the Scup Gear Restriction Area(s) must carry an EFP authorizing the activity and any required Federal fishery permit on board.

(2) The Regional Administrator may not issue an EFP unless s/he determines that issuance is consistent with the objectives of the FMP, the provisions of the Magnuson-Stevens Act, and other applicable law and will not:

- (i) Have a detrimental effect on the scup resource and fishery;
- (ii) Cause the quotas for any species of fish for any quota period to be exceeded;
- (iii) Create significant enforcement problems; or
- (iv) Have a detrimental effect on the scup discard mitigation research project.

§ 648.125 Possession limit.

(a) No person shall possess more than 10 scup in, or harvested from, the EEZ unless that person is the owner or operator of a fishing vessel issued a scup moratorium permit, or is issued a scup dealer permit. Persons aboard a commercial vessel that is not eligible for a scup moratorium permit are subject to this possession limit. The owner, operator, and crew of a charter or party boat issued a scup moratorium permit are subject to the possession limit when carrying passengers for hire or when carrying more than five crew members for a party boat, or more

than three crew members for a charter boat. This possession limit may be adjusted pursuant to the procedures in § 648.120.

(b) If whole scup are processed into fillets, an authorized officer will convert the number of fillets to whole scup at the place of landing by dividing fillet number by 2. If scup are filleted into a single (butterfly) fillet, such fillet shall be deemed to be from one whole scup.

(c) Scup harvested by vessels subject to the possession limit with more than one person aboard may be pooled in one or more containers. Compliance with the daily possession limit will be determined by dividing the number of scup on board by the number of persons aboard other than the captain and crew. If there is a violation of the possession limit on board a vessel carrying more than one person, the violation shall be deemed to have been committed by the owner and operator.

(d) Scup and scup parts harvested by a vessel with a moratorium or charter or party boat scup permit, or in or from the EEZ north of 35°15.3' N. lat., may not be landed with the skin removed.

[61 FR 43426, Aug. 23, 1996, as amended at 66 FR 39292, July 30, 2001; 67 FR 50373, Aug. 2, 2002; 68 FR 44236, July 28, 2003; 73 FR 30000, May 23, 2008; 75 FR 39178, July 8, 2010]

EFFECTIVE DATE NOTE: At 76 FR 60634, Sept. 29, 2011, § 648.125 was revised, effective October 31, 2011. For the convenience of the user, the revised text is set forth as follows:

§ 648.125 Scup gear restrictions.

(a) *Trawl vessel gear restrictions*—(1) *Minimum mesh size.* No owner or operator of an otter trawl vessel that is issued a scup moratorium permit may possess 500 lb (226.8 kg) or more of scup from November 1 through April 30, or 200 lb (90.7 kg) or more of scup from May 1 through October 31, unless fishing with nets that have a minimum mesh size of 5.0-inch (12.7-cm) diamond mesh, applied throughout the codend for at least 75 continuous meshes forward of the terminus of the net, and all other nets are stowed in accordance with § 648.23(b)(1). For trawl nets with codends (including an extension) of fewer than 75 meshes, the entire trawl net must have a minimum mesh size of 5.0 inches (12.7 cm) throughout the net. Scup on board these vessels must be stowed separately and kept readily available for inspection. Measurement of nets will conform with § 648.80(f).
