§ 648.62 Northern Gulf of Maine (NGOM) scallop management area.

(a) The NGOM scallop management area is the area north of 42°20' N. lat. and within the boundaries of the Gulf of Maine Scallop Dredge Exemption Area as specified in § 648.80(a)(11). To fish for or possess scallops in the NGOM scallop management area, a vessel must have been issued a scallop permit as specified in § 648.4(a)(2).

(1) If a vessel has been issued a NGOM scallop permit, the vessel is restricted to fishing for or possessing scallops only in the NGOM scallop management area.

(2) Scallop landings by all vessels issued LAGC scallop permits, including IFQ scallop permits, and fishing in the NGOM scallop management area shall be deducted from the NGOM scallop total allowable catch specified in paragraph (b) of this section. Scallop landings by IFQ scallop vessels fishing in the NGOM scallop management area shall be deducted from their respective scallop IFQs. Landings by limited access scallop vessels fishing under the scallop DAS program shall not be deducted from the NGOM total allowable catch specified in paragraph (b) of this section.

(3) A vessel issued a NGOM or IFQ scallop permit that fishes in the NGOM may fish for, possess, or retain up to 200 lb (90.7 kg) of shucked or 25 bu (8.81 hL) of in-shell scallops, and may possess up to 50 bu (17.6 hL) of in-shell scallops seaward of the VMS Demarcation Line. A vessel issued an incidental catch general category scallop permit that fishes in the NGOM may fish for, possess, or retain only up to 40 lb of shucked or 5 U.S. bu (1.76 hL) of in-shell scallops, and may possess up to 10 bu (3.52 hL) of in-shell scallops seaward of the VMS Demarcation Line.

(b) Total allowable catch. The total allowable catch for the NGOM scallop management area shall be specified through the framework adjustment process. The total allowable catch for the NGOM scallop management area shall be based on the Federal portion of the scallop resource in the NGOM. The total allowable catch shall be determined by historical landings until additional information on the NGOM scallop resource is available, for example through an NGOM resource survey and assessment. The total allowable catch and allocations as specified in § 648.53(a) shall not include the total allowable catch for the NGOM scallop management area, and landings from the NGOM scallop management area shall not be counted against the total allowable catch and allocations specified in § 648.53(a).

(1) NGOM annual hard TACs. The annual hard TAC for the NGOM is 70,000 lb (31.8 mt) for the 2011, 2012, and 2013 fishing years. The NGOM TAC for the 2013 fishing year is a default allocation and is subject to change in a future framework adjustment.

(2) Unless a vessel has fished for scallops outside of the NGOM scallop management area and is transiting NGOM scallop management area with all fishing gear stowed in accordance with § 648.23(b), no vessel issued a scallop permit pursuant to § 648.4(a)(2) may possess, retain, or land scallops in the NGOM scallop management area once the Regional Administrator has provided notification in the FEDERAL REGISTER that the NGOM scallop total allowable catch in accordance with this paragraph (b) has been reached. A vessel that has not been issued a Federal scallop permit that fishes exclusively in state waters is not subject to the closure of the NGOM scallop management area.

(3) If the TAC specified in paragraph (b)(1) of this section is exceeded, the amount of NGOM scallop landings in excess of the TAC specified in paragraph (b)(1) of this section shall be deducted from the NGOM TAC for the subsequent fishing year, as soon as practicable, once scallop landings data for the NGOM fishery is available.

(c) VMS requirements. Except scallop vessels issued a limited access scallop...
permit pursuant to §648.4(a)(2)(i) that have declared a trip under the scallop DAS program, a vessel issued a scallop permit pursuant to §648.4(a)(2) that intends to fish for scallops in the NGOM scallop management area or fishes for, possesses, or lands scallops in or from the NGOM scallop management area, must declare a NGOM scallop management area trip and report scallop catch through the vessel’s VMS unit, as required in §648.10.

(d) Gear restrictions. Except scallop vessels issued a limited access scallop permit pursuant to §648.4(a)(2)(i) that have properly declared a trip under the scallop DAS program, the combined dredge width in use by, or in possession on board, LAGC scallop vessels fishing in the NGOM scallop management area may not exceed 10.5 ft (3.2 m), measured at the widest point in the bail of the dredge.

§ 648.63 General category Sectors and harvesting cooperatives.

(a) Procedure for implementing Sector allocation proposals. (1) Any person may submit a Sector allocation proposal for a group of LAGC scallop vessels to the Council, at least 1 year in advance of the start of the proposed sector, and request that the Sector be implemented through a framework procedure specified at §648.55, in accordance with the conditions and restrictions of this section.

(2) Upon receipt of a Sector allocation proposal, the Council must decide whether to initiate such framework. Should a framework adjustment to authorize a Sector allocation be initiated, the Council shall follow the framework adjustment provisions of §648.55. Any framework adjustment developed to implement a Sector allocation proposal must be in compliance with the general requirements specified in paragraphs (b) and (c) of this section. Vessels that do not join a Sector remain subject to the LAGC scallop vessel regulations for non-Sector vessels specified under this part.

(b) General requirements applicable to all Sector allocations. All Sectors approved under the provisions of paragraph (a) of this section must submit the documents specified under paragraphs (a)(1) and (c) of this section, and comply with the conditions and restrictions of this paragraph (b).

(1) Participation. (i) Only LAGC scallop vessels are eligible to form Sectors, and Sectors may choose which eligible permit holders to include or exclude in the sector, consistent with all applicable law. A Sector may establish additional criteria for determining its membership, provided such criteria are specified in the Sector’s operations plan and are consistent with all applicable law. Any interested group that meets the eligibility criteria may submit a proposal for a Sector. To initiate the process of Sector creation, a group (two or more) of permit holders must agree to cooperate and submit a binding plan for management of that Sector’s allocation of total allowable catch. Vessels that do not choose to participate in a sector will fish under the IFQ program and remain in the non-sector scallop fishery.

(ii) Participation by incidental catch or NGOM scallop vessels in the Sector is subject to approval by the Council as part of the action that implements the Sector allocation, provided the details of such participation are specified in the Sector’s operations plan. A Sector allocation may be harvested by non-Sector members, provided the Sector operations plan specifies that the Sector may authorize non-Sector vessels to harvest the Sector allocation. In this case, if the Sector is approved, the landings history of the participating non-Sector vessels may not be used in the calculation of future Sector shares and may not be used as scallop catch history for such vessels. The operations plan must specify how such participating non-Sector shall be subject to the rules of the Sector.

(iii) Once a vessel operator and/or vessel owner signs a binding contract to have his/her vessel participate in a Sector, that vessel must remain in the Sector for the remainder of the fishing year.

(iv) Vessels that fish in the LAGC scallop fishery outside the Sector allocation in a given fishing year may not participate in a Sector during that...
