§ 660.150 Mothership (MS) Coop Program.

(a) General. The MS Coop Program requirements in this section will be effective beginning January 1, 2011. The MS Coop Program is a general term to describe the limited access program that applies to eligible harvesters and processors in the mothership sector of the Pacific whiting at-sea trawl fishery. Eligible harvesters and processors, including coop and non-coop fishery participants, must meet the requirements set forth in this section of the Pacific Coast groundfish regulations. Each year a vessel registered to a MS/CV-endorsed permit may fish in either the coop or non-coop portion of the MS Coop Program, but not both. In addition to the requirements of this section, the MS Coop Program is subject to the following groundfish regulations of subparts C and D of this part:

(1) Pacific whiting seasons § 660.131(b), subpart D. (2) Area restrictions specified for midwater trawl gear used to harvest Pacific whiting fishery specified at § 660.131(c), Subpart D for GCAs, RCAs, Salmon Conservation Zones, BRAs, and EFHCAs.

(b) Participation requirements and responsibilities—(1) Mothership vessels. (i) Mothership vessel participation requirements. A vessel is eligible to receive and process catch as a mothership in the MS Coop Program if:

(A) The vessel is registered to a MS permit; (B) The vessel is not used to fish as a C/P in the Pacific whiting fishery in the same calendar year; and (C) The vessel is not used to fish as a C/P in the Pacific whiting fishery in the same calendar year.

(ii) Mothership vessel responsibilities. The owner and operator of a mothership vessel must:

(A) Recordkeeping and reporting. Maintain a valid declaration as specified at § 660.13(d), subpart C; and, maintain and submit all records and reports specified at § 660.13(c) including, economic data, scale tests records, and cease fishing reports. (B) Observers. As specified at paragraph (i) of this section, procure observer services, maintain the appropriate level of coverage, and meet the vessel responsibilities.

(C) Catch weighing requirements. The owner and operator of a MS vessel must:

(1) Ensure that all catch is weighed in its round form on a NMFS-approved scale that meets the requirements described in section § 660.12(c), subpart C; and, maintain and submit all records and reports specified at § 660.12(c) including, economic data, scale tests records, and cease fishing reports. (2) Provide a NMFS-approved platform scale, belt scale, and test weights that meet the requirements described in section § 660.12(c), subpart C.

§ 660.150 Mothership (MS) Coop Program.

(a) General. The MS Coop Program requirements in this section will be effective beginning January 1, 2011. The MS Coop Program is a general term to describe the limited access program that applies to eligible harvesters and processors in the mothership sector of the Pacific whiting at-sea trawl fishery. Eligible harvesters and processors, including coop and non-coop fishery participants, must meet the requirements set forth in this section of the Pacific Coast groundfish regulations. Each year a vessel registered to a MS/CV-endorsed permit may fish in either the coop or non-coop portion of the MS Coop Program, but not both. In addition to the requirements of this section, the MS Coop Program is subject to the following groundfish regulations of subparts C and D of this part:

(1) Pacific whiting seasons § 660.131(b), subpart D. (2) Area restrictions specified for midwater trawl gear used to harvest Pacific whiting fishery specified at § 660.131(c), Subpart D for GCAs, RCAs, Salmon Conservation Zones, BRAs, and EFHCAs.

(b) Participation requirements and responsibilities—(1) Mothership vessels. (i) Mothership vessel participation requirements. A vessel is eligible to receive and process catch as a mothership in the MS Coop Program if:

(A) The vessel is registered to a MS permit; (B) The vessel is not used to fish as a C/P in the Pacific whiting fishery in the same calendar year; and (C) The vessel is not used to fish as a C/P in the Pacific whiting fishery in the same calendar year.

(ii) Mothership vessel responsibilities. The owner and operator of a mothership vessel must:

(A) Recordkeeping and reporting. Maintain a valid declaration as specified at § 660.13(d), subpart C; and, maintain and submit all records and reports specified at § 660.13(c) including, economic data, scale tests records, and cease fishing reports. (B) Observers. As specified at paragraph (i) of this section, procure observer services, maintain the appropriate level of coverage, and meet the vessel responsibilities.

(C) Catch weighing requirements. The owner and operator of a MS vessel must:

(1) Ensure that all catch is weighed in its round form on a NMFS-approved scale that meets the requirements described in section § 660.12(c), subpart C; and, maintain and submit all records and reports specified at § 660.12(c) including, economic data, scale tests records, and cease fishing reports. (2) Provide a NMFS-approved platform scale, belt scale, and test weights that meet the requirements described in section § 660.12(c), subpart C.
(2) Mothership catcher vessels—(i) Mothership catcher vessel participation requirements—(A) A vessel is eligible to harvest in the MS Coop Program if the following conditions are met:

(1) If the vessel is used to fish as a mothership catcher vessel for a permitted MS coop, the vessel is registered to a limited entry permit with a trawl endorsement and NMFS has been notified that the vessel is authorized to fish for the coop.

(2) If the vessel is used to harvest fish in the non-coop fishery, the vessel is registered to an MS/CV-endorsed limited entry permit.

(3) The vessel is not used to harvest fish or process as a mothership or catcher/processor vessel in the same calendar year.

(4) The vessel does not catch more than 30 percent of the Pacific whiting allocation for the mothership sector.

(B) [Reserved]

(ii) Mothership catcher vessel responsibilities—(A) Observers. As specified at paragraph (j) of this section, procure observer services, maintain the appropriate level of coverage, and meet the vessel responsibilities.

(B) Recordkeeping and reporting. Maintain a valid declaration as specified at §660.13(d), subpart C; and, maintain and submit all records and reports specified at §660.113(c) including, economic data and scale tests records, if applicable.

(3) MS coops—(i) MS coop participation requirements. For a MS coop to participate in the Pacific whiting mothership sector fishery it must:

(A) Be issued a MS coop permit;

(B) Be composed of MS/CV-endorsed limited entry permit owners;

(C) Be formed voluntarily;

(D) Be a legally recognized entity that represents its members;

(E) Designate an individual as a coop manager; and

(F) Include at least 20 percent of all MS/CV-endorsed permits as members. The coop membership percentage will be interpreted by rounding to the nearest whole permit (i.e. less than 0.5 rounds down and 0.5 and greater rounds up).

(ii) MS coop responsibilities. A MS coop is responsible for:

(A) Applying for and being registered to a MS coop permit;

(B) Organizing and coordinating harvest activities of vessels authorized to fish for the coop;

(C) Reassigning catch history assignments for use by coop members;

(D) Organizing and coordinating the transfer and leasing of catch allocations with other permitted coops through inter-coop agreements;

(E) Monitoring harvest activities and enforcing the catch limits of coop members;

(F) Submitting an annual report.

(G) Having a designated coop manager. The designated coop manager must:

(1) Serve as the contact person between NMFS, the Council, and other coops;

(2) Be responsible for the annual distribution of catch and bycatch allocations among coop members;

(3) Oversee reassignment of catch allocations within the coop;

(4) Oversee inter-coop catch allocation reassignments;

(5) Prepare and submit an annual report on behalf of the coop;

(6) Be authorized to receive or respond to any legal process in which the coop is involved; and

(7) Notify NMFS if the coop dissolves.

(iii) MS coop compliance and joint/several liability. An MS coop must comply with the provisions of this section. The MS coop, member limited entry permit owners, and owners and operators of vessels registered to member limited entry permits, are jointly and severally responsible for compliance with the provisions of this section. Pursuant to 15 CFR part 904, each MS coop, member permit owner, and owner and operator of a vessel registered to a coop member permit may be charged jointly and severally for violations of the provisions of this section. For purposes of enforcement, an MS coop is a legal entity that can be subject to NOAA enforcement action for violations of the provisions of this section.

(c) MS Coop Program species and allocations—(1) MS Coop Program species. MS Coop Program species are as follows:

(i) Species with formal allocations to the MS Coop Program are Pacific whiting, canary rockfish, darkblotch
rockfish, Pacific Ocean perch, and widow rockfish;
(i) Species with set-asides for the MS and C/P Coop Programs combined, as described in Tables 1d and 2d, subpart C.
(2) Annual mothership sector sub-allocation. Annual allocation amount(s) will be determined using the following procedure:
(i) MS/CV catch history assignments. Catch history assignments will be based on catch history using the following methodology:
(A) Pacific whiting catch history assignment. For each MS/CV-endorsed limited entry permit, the permit’s entire catch history assignment of Pacific whiting will be annually allocated to a single permitted MS coop or to the non-coop fishery. An MS/CV-endorsed permit owner cannot divide the permit’s catch history assignment between more than one MS coop or between a coop and the non-coop fishery for that year. Once assigned to a permitted MS coop or to the non-coop fishery, the permit’s catch history assignment remains with that permitted MS coop or non-coop fishery for that calendar year. When the mothership sector allocation is established through the final Pacific whiting specifications, the information for the conversion of catch history assignment to pounds will be made available to the public through a FEDERAL REGISTER announcement and/or public notice and/or the NMFS Web site. The amount of whiting from the catch history assignment will be issued to the nearest whole pound using standard rounding rules (i.e. less than 0.5 rounds down and 0.5 and greater rounds up).
(B) Non-whiting groundfish species catch—(1) Non-whiting groundfish species with a mothership sector allocation will be divided annually between the permitted coops and the non-coop fishery. The pounds associated with each permitted MS coop will be provided when the coop permit is issued.
(2) Groundfish species with at-sea sector set-asides will be managed on an annual basis unless there is a risk of a harvest specification being exceeded, unforeseen impact on another fisheries, or conservation concerns in which case inseason action may be taken. Set asides may be adjusted through the biennial specifications and management measures process as necessary.
(3) Groundfish species not addressed in paragraph (1) or (2) above, will be managed on an annual basis unless there is a risk of a harvest specification being exceeded, unforeseen impact on another fisheries, or conservation concerns in which case inseason action may be taken.
(4) Halibut set-asides. Annually a specified amount of the Pacific halibut will be held in reserve as a shared set-aside for bycatch in the at-sea Pacific whiting fisheries and the shorebased trawl sector south of 40°10’ N. lat.
(ii) Annual coop allocations—(A) Pacific whiting. Each permitted MS coop is authorized to harvest a quantity of Pacific whiting that is based on the sum of the catch history assignments for each member MS/CV-endorsed permit identified in the NMFS-accepted coop agreement for a given calendar year. Other limited entry permits registered to vessels that will fish for the coop do not bring catch allocation to a permitted MS coop.
(B) Non-whiting groundfish with allocations. Sub-allocations of non-whiting groundfish species with allocations to permitted MS coops will be in proportion to the Pacific whiting catch history assignments assigned to each permitted MS coop.
(iii) Annual non-coop allocation—(A) Pacific whiting. The non-coop whiting fishery is authorized to harvest a quantity of Pacific whiting that is remaining in the mothership sector annual allocation after the deduction of all coop allocations.
(B) Non-whiting groundfish with allocations. The sub-allocation to the non-coop fishery will be in proportion to the mothership catcher vessel Pacific whiting catch history assignments for the non-coop fishery.
(C) Announcement of the non-coop fishery allocations. Information on the amount of Pacific whiting and non-whiting groundfish with allocations that will be made available to the non-coop fishery when the final Pacific whiting specifications for the mothership sector is established and will be announced to the public.
through a Federal Register announcement and/or public notice and/or the NMFS Web site.

(3) Reaching an allocation or sub-allocation. When the mothership sector Pacific whiting allocation, Pacific whiting sub-allocation, or non-whiting groundfish catch allocation is reached or is projected to be reached, the following action may be taken:

(i) Further harvesting, receiving or at-sea processing by a mothership or catcher vessel in the mothership sector Pacific whiting allocation or non-whiting groundfish allocation is projected to be reached. No additional unprocessed groundfish may be brought on board after at-sea processing is prohibited, but a mothership may continue to process catch that was on board before at-sea processing was prohibited. Pacific whiting may not be taken and retained, possessed, or landed by a catcher vessel participating in the mothership sector.

(ii) When a permitted MS coop sub-allocation of Pacific whiting or non-whiting groundfish species is reached, further harvesting or receiving of groundfish by vessels fishing in the permitted MS coop must cease, unless the permitted MS coop is operating under an NMFS-accepted inter-coop agreement.

(iii) When the non-coop fishery sub-allocation of Pacific whiting or non-whiting groundfish species is projected to be reached, further harvesting or receiving of groundfish by vessels fishing in the non-coop fishery must cease.

(4) Non-whiting groundfish species reapportionment. This paragraph (c)(4) describes the process for reapportioning non-whiting groundfish species with allocations between permitted MS coops and the catcher/processor sector. Reapportionment of mothership sector allocations to the catcher/processor will not occur until all permitted MS coops and the non-coop fishery have been closed by NMFS or have informed NMFS that they have ceased operations for the remainder of the calendar year.

(i) Within the mothership sector. The Regional Administrator may make available for harvest to permitted coops and the non-coop fishery that have not notified NMFS that they have ceased fishing for the year, the amounts of a permitted MS coop’s non-whiting catch allocation remaining when a coop reaches its Pacific whiting allocation or when the designated coop manager notifies NMFS that a permitted coop has ceased fishing for the year. The reapportioned allocations will be in proportion to their original allocations.

(ii) Between the mothership and catcher/processor sectors. The Regional Administrator may make available for harvest to the catcher/processor sector of the Pacific whiting fishery, the amounts of the mothership sector’s non-whiting catch allocation remaining when the Pacific whiting allocation is reached or participants in the sector do not intend to harvest the remaining allocation. The designated coop manager, or in the case of an inter-coop, all of the designated coop managers must submit a cease fishing report to NMFS indicating that harvesting has concluded for the year. At any time after greater than 80 percent of the Mothership sector Pacific whiting allocation has been harvested, the Regional Administrator may contact designated coop managers to determine whether they intend to continue fishing. When considering redistribution of non-whiting catch allocation, the Regional Administrator will take into consideration the best available data on total projected fishing impacts. Reapportionment between permitted MS coops and the non-coop fishery within the mothership sector will be in proportion to their original coop allocations for the calendar year.

(iii) Set-aside species. No inseason management actions are associated with set asides.

(5) Announcements. The Regional Administrator will announce in the Federal Register when the mothership sector or the allocation of Pacific whiting or non-whiting groundfish with an allocation is reached, or is projected to be reached, and specify the appropriate action. In order to prevent exceeding an allocation and to avoid underutilizing the resource, prohibitions against further taking and retaining,
receiving, or at-sea processing of Pacific whiting, or reapportionment of non-whiting groundfish with allocations may be made effective immediately by actual notice to fishers and processors, by e-mail, internet (www.nwr.noaa.gov/Groundfish-Halibut/Groundfish-Fishery-Management/Whiting-Management/index.cfm), phone, fax, letter, press release, and/or USCG Notice to Mariners (monitor channel 16 VHF), followed by publication in the Federal Register, in which instance public comment will be sought for a reasonable period of time thereafter.

(6) Redistribution of annual allocation—(i) Between permitted MS coops (inter-coop). (A) Through an inter-coop agreement, the designated coop managers of permitted MS coops may distribute Pacific whiting and non-whiting groundfish allocations among one or more permitted MS coops, provided the processor obligations at paragraph (c)(7) of this section have been met or a mutual agreement exception at paragraph (c)(7)(iv) of this section has been submitted to NMFS.

(B) In the case of a MS coop failure during the Pacific whiting primary season for the mothership sector, unused allocation associated with the catch history will not be available for harvest by the coop that failed, by any former members of the coop that failed, or any other MS coop for the remainder of that calendar year.

(ii) Between the MS coop and non-coop fisheries. Pacific whiting may not be redistributed between the coop and non-coop fisheries.

(iii) Between Pacific whiting sectors. Pacific whiting may not be redistributed between the mothership sector and catcher/processor sector. Whiting may not be redistributed to the Shorebased IFQ Program.

(7) Processor obligation and mutual agreement exceptions—(i) Processor obligation. Through the annual MS/CV-endorsed limited entry permit renewal process, the MS/CV-endorsed permit owner must identify to NMFS to which MS permit the MS/CV permit owner intends to obligate the catch history assignment associated with that permit if they are participating in the MS coop fishery. Only one MS permit may be designated (the obligation may not be split among MS permits).

(ii) Expiration of a processor obligation. Processor obligations expire at the end of each calendar year when the MS Coop Permit expires.

(iii) Processor obligation when MS coop allocation is redistributed. When a permitted MS coop redistributes Pacific whiting allocation within the permitted MS coop or from one permitted MS coop to another permitted MS coop through an inter-coop agreement, such allocations must be delivered to the mothership registered to the MS permit to which the allocation was obligated under the processor obligation submitted to NMFS, unless a mutual agreement exception has been submitted to NMFS.

(iv) Mutual agreement exception. An MS/CV-endorsed permit’s catch history assignment can be released from a processor obligation through a mutual agreement exception. The MS/CV-endorsed permit owner must submit a copy to NMFS of the written agreement that includes the initial MS permit owner’s acknowledgment of the release of the MS/CV-endorsed permit owner’s processor obligation and the MS/CV-endorsed permit owner must identify a processor obligation for a new MS permit.

(v) MS permit withdrawal. If an MS permit withdraws from the mothership fishery before the resulting amounts of catch history assignment have been announced by NMFS, any MS/CV-endorsed permit obligated to the MS permit may elect to participate in the coop or non-coop fishery. In such an event, the MS permit owner must provide written notification of its withdrawal to NMFS and all MS/CV-endorsed permits that are obligated to the MS permit, and the owner of each MS/CV-endorsed permit obligated to the MS permit must provide written notification to NMFS of their intent to either participate in the non-coop fishery or the coop fishery, and if participating in the coop fishery must identify a processor obligation for a new MS permit.

(vi) Submission of a mutual agreement exception or MS permit withdrawal. Written notification of a mutual exception agreement or MS permit withdrawal
§ 660.150

must be submitted to NMFS, Northwest Region, Permits Office, Bldg. 1, 7600 Sand Point Way, NE., Seattle, WA 98115.

(d) MS coop permit and agreement—(1) Eligibility and registration. (i) Eligibility. To be an eligible coop entity a group of MS/CV-endorsed permit owners (coop members) must be a recognized entity under the laws of the United States or the laws of a State and represent all of the coop members.

(ii) Annual registration and deadline. Each year, a coop entity intending to participate as a coop under the MS Coop Program must submit an application for a MS coop permit between February 1 and March 31 of the year in which it intends to fish. NMFS will not consider any applications received after March 31. A MS coop permit expires on December 31 of the year in which it was issued.

(iii) Application for MS coop permit. The designated coop manager, on behalf of the coop entity, must submit a complete application form and include each of the items listed in paragraph (d)(1)(iii)(A) of this section. Only complete applications will be considered for issuance of a MS coop permit. An application will not be considered complete if any required application fees and annual coop reports have not been received by NMFS. NMFS may request additional supplemental documentation as necessary to make a determination of whether to approve or disapprove the application. Application forms and instruction are available on the NMFS NWR Web site (http://www.nwr.noaa.gov) or by request from NMFS. The designated coop manager must sign the application acknowledging the responsibilities of a designated coop manager defined in paragraph (b)(3) of this section.

(A) Coop agreement. Signed copies of the coop agreement must be submitted to NMFS before the coop is authorized to engage in fishing activities. A coop agreement must include all of the information listed in this paragraph to be considered a complete coop agreement. NMFS will only review complete coop agreements. A coop agreement will not be accepted unless it includes all of the required information; the descriptive items listed in this paragraph appear to meet the stated purpose; and information submitted is correct and accurate.

(I) Coop agreement contents. Each coop agreement must be signed by all of the coop members (MS/CV-endorsed permit owners) and include the following information:

(i) A list of all vessels, and permit holders participating in the coop and their share of the allocated catch which must match the amount distributed to individual permit owners by NMFS.

(ii) All MS/CV-endorsed limited entry member permits identified by permit number.

(iii) A processor obligation clause indicating that each MS/CV-endorsed permit has notified a specific MS permit by September 1 of the previous year of that MS/CV-endorsed permit's intent to obligate its catch history assignment to that MS permit, except that for the 2011 fishery, such notification must have been made prior to submission of the MS coop permit application.

(iv) A clause indicting that each member MS/CV-endorsed permit's catch history assignment is based on the catch history assignment calculation by NMFS used for distribution to the coop.

(v) A description of the coop's plan to adequately monitor and account for the catch of Pacific whiting and non-whiting groundfish allocations, and to monitor and account for the catch of prohibited species.

(vi) A clause stating that if a permit is transferred during the effective period of the coop agreement, any new owners of that member permit would be coop members required to comply with membership restrictions in the coop agreement.

(vii) A description of the coop's enforcement and penalty provisions adequate to maintain catch of Pacific whiting and non-whiting groundfish within the allocations.

(viii) A description of measures to reduce catch of overfished species.

(ix) A clause describing the co-op manager's responsibility for managing inter-coop reassignments of catch history assignment, should any occur.
(x) A clause describing how the annual report will be produced to document the coop’s catch, bycatch data, inseason catch history reassignments and any other significant activities undertaken by the coop during the year, and the submission deadlines for that report.

(xi) Identification of the designated coop manager.

(xii) Provisions that prohibit member permit owners that have incurred legal sanctions that prevent them from fishing groundfish in the Council region from fishing in the coop.

(2) Inter-coop agreement. The coop entity must provide, at the time of annual application, copies of any inter-coop agreement(s) into which the coop has entered. Such agreements must incorporate and honor the provisions of the individual coop agreements for each coop that is a party to the inter-coop agreement. Inter-coop agreements are specified at paragraph (e) of this section.

(B) Acceptance of a coop agreement—(1) If NMFS does not accept the coop agreement, the coop permit application will be returned to the applicant with a letter stating the reasons the coop agreement was not accepted by NMFS.

(2) Coop agreements that are not accepted may be resubmitted for review by sufficiently addressing the deficiencies identified in the NMFS letter and resubmitting the entire coop permit application by the date specified in the NMFS letter.

(3) An accepted coop agreement that was submitted with the MS coop permit application and for which a MS coop permit was issued will remain in place through the end of the calendar year. The designated coop manager must resubmit a complete coop agreement to NMFS consistent with the coop agreement contents described in paragraph (d)(1)(iii)(A)(I) of this section if there is a material change to the coop agreement.

(4) Within 7 calendar days following a material change, the designated coop manager must notify NMFS of the material change. Within 30 calendar days, the designated coop manager must submit to NMFS the revised coop agreement with a letter that describes such changes. NMFS will review the material changes and provide a letter to the coop manager that either accepts the changes as given or does not accept the revised coop agreement with a letter stating the reasons that it was not accepted by NMFS. The coop may resubmit the coop agreement with further revisions to the material changes responding to NMFS concerns.

(iv) Effective date of MS coop permit. A MS coop permit will be effective upon the date approved by NMFS and will allow fishing from the start of the MS sector primary whiting season until the end of the calendar year or until one or more of the following events occur, whichever comes first:

(A) NMFS permanently closes the mothership sector fishing season for the year or a specific MS coop or the designated coop manager notifies NMFS that the coop has completed fishing for the calendar year,

(B) The coop has reached its Pacific whiting allocation,

(C) A material change to the coop agreement has occurred and the designated coop manager failed to notify NMFS within 7 calendar days of the material change and submit to NMFS the revised coop agreement with a letter that describes such changes within 30 calendar days, or

(D) NMFS has determined that a coop failure occurred.

(2) Initial administrative determination. For all complete applications, NMFS will issue an IAD that either approves or disapproves the application. If approved, the IAD will include a MS coop permit. If disapproved, the IAD will provide the reasons for this determination.

(3) Appeals. An appeal to a MS coop permit action follows the same process as the general permit appeals process defined at §660.25(g), subpart C.

(4) Fees. The Regional Administrator is authorized to charge fees for administrative costs associated with the issuance of a MS coop permit consistent with the provisions given at §660.25(f), subpart C.

(5) Cost recovery. [Reserved]

(e) Inter-coop agreements—(1) General. Permitted MS coops may voluntarily enter into inter-coop agreements for the purpose of sharing permitted MS coop allocations of Pacific whiting and
allocated non-whiting groundfish. If two or more permitted MS coops enter into an inter-coop agreement, the inter-coop agreement must incorporate and honor the provisions of each permitted MS coop subject to the inter-coop agreement.

(2) Submission of inter-coop agreements. Inter-coop agreements must be submitted to NMFS for acceptance.

(3) Inter-coop agreement review process. Each designated coop manager must submit a copy of the inter-coop agreement signed by both designated coop managers for review. Complete coop agreements containing all items listed under paragraph (d)(1)(iii)(A)(I) will be reviewed by NMFS.

(f) Mothership (MS) permit.

(1) General. Any vessel that processes or receives deliveries as a mothership processor in the Pacific whiting fishery mothership sector must be registered to an MS permit. A vessel registered to an MS permit may receive fish from a vessel that fishes in an MS coop and/or may receive fish from a vessel that fishes in the non-coop fishery at the same time or during the same year.

(i) Vessel size endorsement. An MS permit does not have a vessel size endorsement. The endorsement provisions at §660.25(b)(3)(iii), subpart C, do not apply to an MS permit.

(ii) Restriction on C/P vessels operating as motherships. Restrictions on a vessel registered to a limited entry permit with a C/P endorsement operating as a mothership are specified at §660.160, subpart D.

(2) Renewal, change of permit ownership, or vessel registration—(i) Renewal. An MS permit must be renewed annually consistent with the limited entry permit regulations given at §660.25(b)(4), subpart C. If a vessel registered to the MS permit will operate as a mothership in the year for which the permit is renewed, the permit owner must make a declaration as part of the permit renewal that while participating in the whiting fishery it will operate solely as a mothership during the calendar year to which its limited entry permit applies. Any such declaration is binding on the vessel for the calendar year, even if the permit is transferred during the year, unless it is rescinded in response to a written request from the permit owner. Any request to rescind a declaration must be made by the permit holder and granted in writing by the Regional Administrator before any unprocessed whiting has been taken on board the vessel that calendar year.

(B) Change of permit ownership. An MS permit is subject to the limited entry permit change in permit ownership regulations given at §660.25(b)(4), subpart C.

(iii) Change of vessel registration. An MS permit is subject to the limited entry permit change of vessel registration regulations given at §660.25(b)(4), subpart C.

(3) Accumulation limits—(i) MS permit usage limit. No person who owns an MS permit(s) may register the MS permit(s) to vessels that cumulatively process more than 45 percent of the annual mothership sector Pacific whiting allocation. For purposes of determining accumulation limits, NMFS requires that permit owners submit a complete trawl ownership interest form for the permit owner as part of annual renewal for the MS permit. An ownership interest form will also be required whenever a new permit owner obtains an MS permit as part of a permit transfer request. Accumulation limits will be determined by calculating the percentage of ownership interest a person has in any MS permit. Determination of ownership interest will subject to the individual and collective rule.

(ii) Ownership—individual and collective rule. The ownership that counts toward a person’s accumulation limit will include:

(A) Any MS permit owned by that person, and

(B) A portion of any MS permit owned by an entity in which that person has an interest, where the person’s share of interest in that entity will determine the portion of that entity’s ownership that counts toward the person’s limit.

(iii) [Reserved]

(iv) Trawl identification of ownership interest form. Any person that is applying for or renewing an MS permit shall document those persons that have an ownership interest in the permit greater than or equal to 2 percent. This ownership interest must be documented.
with the SFD via the Trawl Identification of Ownership Interest Form. SFD will not issue an MS Permit unless the Trawl Identification of Ownership Interest Form has been completed. NMFS may request additional information of the applicant as necessary to verify compliance with accumulation limits.

(4) Appeals. An appeal to an MS permit action follows the same process as the general permit appeals process defined at §660.25(g), subpart C.

(5) Fees. The Regional Administrator is authorized to charge fees for administrative costs associated with the issuance of an MS permit consistent with the provisions given at §660.25(f), Subpart C.

(6) Application requirements and initial issuance for MS permit—(i) Eligibility criteria for MS permit. Only the current owner of a vessel that processed Pacific whiting in the mothership sector in the qualifying years is eligible to receive initial issuance of an MS permit, except that in the case of bareboat charterers, the charterer of the bareboat may receive an MS permit instead of the vessel owner. As used in this section, “bareboat charterer” means a vessel charterer operating under a bareboat charter, defined as a complete transfer of possession, command, and navigation of a vessel from the vessel owner to the charterer for the limited time of the charter agreement.

(ii) Qualifying criteria for MS permit. To qualify for initial issuance of an MS permit, a person must own, or operate under a bareboat charter, a vessel on which at least 1,000 mt of Pacific whiting was processed in the mothership sector in each year for at least two years between 1997 and 2003 inclusive.

(iii) MS permit application. Persons may apply for initial issuance of an MS permit in one of two ways: complete and submit a prequalified application received from NMFS, or complete and submit an application package. The completed application must be either postmarked or hand-delivered within normal business hours no later than November 1, 2010. If an applicant fails to submit a completed application by the deadline date, they forgo the opportunity to receive consideration for initial issuance of an MS permit.

(A) Prequalified application. A “prequalified application” is a partially pre-filled application where NMFS has preliminarily determined the processing history that may qualify the applicant for an initial issuance of an MS permit. NMFS will mail prequalified application packages to the owners or bareboat charterer of vessels which NMFS determines may qualify for an MS permit. NMFS will mail the application by certified mail to the current address of record in the NMFS permit database. The application will contain the basis of NMFS’ calculation. The application package will include, but is not limited to: A prequalified application (with processing history), a Trawl Identification of Ownership Interest form, and any other documents NMFS believes are necessary to aid the owners of the vessel or charterer of the bareboat to complete the MS permit application.

(B) Request for an application. Any current owner or bareboat charterer of a vessel that the owner or bareboat charterer believes qualifies for initial issuance of an MS permit that does not receive a prequalified application must complete an application package and submit the completed application to NMFS by the application deadline. Application packages are available on NMFS’ Web site (http://www.nwr.noaa.gov/Groundfish-Halibut/Groundfish-Permits/index.cfm) or by contacting SFD. An application must include valid NORPAC data or other credible information that substantiates the applicant’s qualification for initial issuance of an MS permit.

(iv) Corrections to the application. If the applicant does not accept NMFS’ calculation in the prequalified application either in part or whole, in order for NMFS to reconsider NMFS’ calculation, the applicant must identify in writing to NMFS which parts of the prequalified application that the applicant contends to be inaccurate, and must provide specific credible information to substantiate any requested corrections. The completed application and specific credible information must be provided to NMFS in writing by the application deadline. Written communication must be either post-marked or hand-delivered within normal business hours no later than November 1, 2010.
hours no later than November 1, 2010. Requests for corrections may only be granted for errors in NMFS’ use or application of data, including:

(A) Errors in NMFS’ use or application of data from NORPAC;
(B) Errors in NMFS’ calculations; and
(C) Errors in the vessel registration as listed in the NMFS permit database, or in the identification of the mothership owner or bareboat charterer.

(v) Submission of the application and application deadline—(A) Submission of the Application. Submission of the complete, certified application includes, but is not limited to, the following:

(1) The applicant is required to sign and date the application and have the document notarized by a licensed Notary Public.
(2) The applicant must certify that they qualify to own an MS permit.
(3) The applicant must indicate they accept NMFS’ calculation in the prequalified application, or provide credible information that demonstrates their qualification for an MS permit.
(4) The applicant is required to provide a complete Trawl Identification of Ownership Interest Form as specified at paragraph (f)(3)(iv) of this section.
(5) Business entities may be required to submit a corporate resolution or other credible documentation as proof that the representative of the entity is authorized to act on behalf of the entity;
(6) A bareboat charterer must provide credible evidence that demonstrates it was chartering the mothership vessel under a private contract during the qualifying years; and
(7) NMFS may request additional information of the applicant as necessary to make an IAD on initial issuance of an MS permit.

(B) Application deadline. A complete, certified application must be either postmarked or hand-delivered within normal business hours to NMFS, Northwest Region, Permits Office, Bldg. 1, 7600 Sand Point Way, NE., Seattle, WA 98115, no later than November 1, 2010. NMFS will not accept or review any applications received or postmarked after the application deadline.

There are no hardship provisions for this deadline.

(vi) Initial administrative determination (IAD). NMFS will issue an IAD for all complete, certified applications received by the application deadline date. If NMFS approves an application for initial issuance of an MS permit, the applicant will receive an MS permit. If NMFS disapproves an application, the IAD will provide the reasons. If the applicant does not appeal the IAD within 60 calendar days of the date on the IAD, the IAD becomes the final decision of the Regional Administrator acting on behalf of the Secretary of Commerce.

(vii) Appeals. For MS permits issued under this section, the appeals process and timelines are specified at §660.25(g), subpart C. For the initial issuance of an MS permit, the bases for appeal are described in paragraph (f)(6)(iv) of this section. Items not subject to appeal include, but are not limited to, the accuracy of data in the relevant NORPAC dataset on August 1, 2010.

(g) Mothership catcher vessel (MS/CV)—endorsed permit—(1) General. Any vessel that delivers whiting to a mothership processor in the Pacific whiting fishery mothership sector must be registered to an MS/CV-endorsed permit, except that a vessel registered to limited entry trawl permit without an MS/CV or C/P endorsement may fish for a coop if authorized by the coop. Within the MS Coop Program, an MS/CV-endorsed permit may participate in an MS coop or in the non-coop fishery. An MS/CV-endorsed permit is a limited entry permit and is subject to the limited entry permit provisions given at §660.25(b), subpart C.

(1) Catch history assignment. NMFS will assign a catch history assignment to each MS/CV-endorsed permit. The catch history assignment is based on the catch history in the Pacific whiting mothership sector during the qualifying years of 1994 through 2003. The catch history assignment is expressed as a percentage of Pacific whiting of the total mothership sector allocation as described at paragraph (d)(2)(i) of this section. Catch history assignments will be issued to the nearest whole pound using standard rounding rules.
(i.e. decimal amounts from zero up to 0.5 round down and 0.5 up to 1.0 round up).

(ii) Pacific whiting mothership sector allocation. The catch history assignment allocation accrues to the coop to which the MS/CV-endorsed permit is tied through private agreement, or will be assigned to the non-coop fishery if the MS/CV-endorsed permit does not participate in the coop fishery.

(iii) Non-severable. The MS/CV endorsement and its catch history assignment are not severable from the limited entry trawl permit. An MS/CV endorsement and its catch history assignment are permanently affixed to the original qualifying limited entry permit, and cannot be transferred separately from the original qualifying limited entry permit.

(iv) Restrictions on processing for MS/CV-endorsed permits. A vessel registered to an MS/CV-endorsed permit in a given year shall not engage in processing of Pacific whiting during that year.

(2) Renewal, change of permit owner, vessel registration, or combination—(i) Renewal. An MS/CV-endorsed permit must be renewed annually consistent with the limited entry permit regulations given at §660.25(b)(4), subpart C. During renewal, all MS/CV-endorsed limited entry permit owners must make a preliminary declaration regarding their intent to participate in the coop or non-coop portion of the MS Coop Program for the following year. If the owner of the MS/CV-endorsed permit intends to participate in the coop portion of the MS Coop Program, they must also declare which MS vessel to which they intend to obligate the permit’s catch history assignment. MS/CV-endorsed permits not obligated to a permitted MS coop by March 31 of the fishing year will be assigned to the non-coop fishery. For an MS/CV-endorsed permit that is not renewed, the following occurs:

(A) For the first year after the permit is not renewed, the permit will be extinguished, and the catch history assignment from that permit will be redistributed proportionally to all valid MS/CV-endorsed permits.

(B) In the year after the permit is extinguished (the second year after the permit is not renewed), the catch history assignment from that permit will be redistributed proportionally to all valid MS/CV-endorsed permits.

(ii) Change of permit ownership. An MS/CV-endorsed permit is subject to the limited entry permit change in permit ownership regulations given at §660.25(b)(4), subpart C.

(iii) Change of vessel registration. An MS/CV-endorsed permit is subject to the limited entry permit change of vessel registration regulations given at §660.25(b)(4), subpart C.

(iv) Combination. An MS/CV-endorsed permit may be combined with one or more other limited entry trawl permits; the resulting permit will be a single permit with an increased size endorsement. If the MS/CV-endorsed permit is combined with another limited entry trawl-endorsed permit other than a C/P-endorsed permit, the resulting permit will be MS/CV-endorsed. If an MS/CV-endorsed permit is combined with a C/P-endorsed permit, the resulting permit will be exclusively a C/P-endorsed permit, and will not have an MS/CV endorsement. If an MS/CV-endorsed permit is combined with another MS/CV-endorsed permit, the combined catch history assignment of the permit(s) will be added to the active permit (the permit remaining after combination) and the other permit will be retired. NMFS will not approve a permit combination if it results in a person exceeding the accumulation limits specified at paragraph (g)(3) of this section. Any request to combine permits is subject to the provision provided at §660.25(b), including the combination formula for resulting size endorsements.

(3) Accumulation limits—(i) MS/CV-endorsed permit ownership limit. No person shall own MS/CV-endorsed permits for which the collective Pacific whiting allocation total is greater than 20 percent of the total mothership sector allocation. For purposes of determining accumulation limits, NMFS requires that permit owners submit a complete trawl ownership interest form for the permit owner as part of annual renewal of an MS/CV-endorsed permit. An ownership interest form will also be required whenever a new permit owner obtains an MS/CV-endorsed permit as
part of a permit transfer request. Accumulation limits will be determined by calculating the percentage of ownership interest a person has in any MS/CV-endorsed permit and the amount of the Pacific whiting catch history assignment given on the permit. Determination of ownership interest will be subject to the individual and collective rule.

(A) Ownership—Individual and collective rule. The Pacific whiting catch history assignment that applies to a person’s accumulation limit will include:

(1) The catch history assignment on any MS/CV-endorsed permit owned by that person, and

(2) That portion of the catch history assignment on any MS/CV-endorsed permit owned by an entity in which that person has an economic or financial interest, where the person’s share of interest in that entity will determine the portion of that entity’s catch history assignment that counts toward the person’s limit.

(B) [Reserved]

(C) Trawl identification of ownership interest form. Any person that owns a limited entry trawl permit and that is applying for or renewing an MS/CV endorsement shall document those persons that have an ownership interest in the permit greater than or equal to 2 percent. This ownership interest must be documented with the SFD via the Trawl Identification of Ownership Interest Form. SFD will not issue an MS/CV-endorsed permit(s), up to the time their divestiture is completed. At the end of year two of the MS Coop Program, any MS/CV-endorsed permits owned by a person (including any person who has ownership interest in the owner named on the permit) in excess of the accumulation limits will not be issued (renewed) until the permit owner complies with the accumulation limits.

(ii) Catcher vessel usage limit. No vessel may catch more than 30 percent of the mothership sector’s whiting allocation.

(4) Appeals. An appeal to an MS/CV-endorsed permit action follows the same process as the general permit appeals process defined at §660.25(g), subpart C.

(5) Fees. The Regional Administrator is authorized to charge a fee for administrative costs associated with the issuance of an MS/CV-endorsed permit, as provided at §660.25(f), subpart C.
(ii) Qualifying criteria for MS/CV endorsement. In order to qualify for an MS/CV endorsement, a qualifying trawl-endorsed limited entry permit must have been registered to a vessel or vessels that caught and delivered a cumulative amount of at least 500 mt of Pacific whiting to motherships between 1994 through 2003. The calculation will be based on the following:

(A) To determine a permit’s qualifying catch history, NMFS will use documented deliveries to a mothership in Pacific whiting observer data as recorded in the relevant NORPAC dataset on August 1, 2010.

(B) The qualifying catch history will include any deliveries of Pacific whiting to motherships by vessels registered to limited entry trawl-endorsed permits that were subsequently combined to generate the current permit.

(C) If two or more limited entry trawl permits have been simultaneously registered to the same vessel, NMFS will divide the qualifying catch history evenly between all such limited entry trawl-endorsed permits during the time they were simultaneously registered to the vessel.

(D) History of illegal deliveries will not be included in the qualifying catch history.

(E) Deliveries made from Federal limited entry groundfish permits that were retired through the Federal buyback program will not be included in the qualifying catch history.

(F) Deliveries made under provisional “A” permits that did not become “A” permits and “B” permits will not be included in the qualifying catch history.

(iii) Qualifying criteria for catch history assignment. A catch history assignment will be specified as a percent on the MS/CV-endorsed permit. The calculation will be based on the following:

(A) For determination of a permit’s catch history, NMFS will use documented deliveries to a mothership in Pacific whiting observer data as recorded in the relevant NORPAC dataset on August 1, 2010.

(B) NMFS will use relative history, which means the catch history of a permit for a year divided by the total fleet history for that year, expressed as a percent. NMFS will calculate relative history for each year in the qualifying period from 1994 through 2003 by dividing the total deliveries of Pacific whiting to motherships for the vessel(s) registered to the permit for each year by the sum of the total catch of Pacific whiting delivered to mothership vessels for that year.

(C) NMFS will select the eight years with the highest relative history of Pacific whiting, unless the applicant requests a different set of eight years during the initial issuance and appeals process, and will add the relative histories for these years to generate the permit’s total relative history. NMFS will then divide the permit’s total relative history by the sum of all qualifying permits’ total relative histories to determine the permit’s catch history assignment, expressed as a percent.

(D) The total relative history will include any deliveries of Pacific whiting to motherships by vessels registered to limited entry trawl-endorsed permits that were subsequently combined to generate the current permit.

(E) If two or more limited entry trawl permits have been simultaneously registered to the same vessel, NMFS will split the catch history evenly between all such limited entry trawl-endorsed permits during the time they were simultaneously registered to the vessel.

(F) History of illegal deliveries will not be included in the calculation of a permit’s catch history assignment or in the calculation of relative history for individual years.

(G) Deliveries made from Federal limited entry groundfish permits that were retired through the Federal buyback program will not be included in the calculation of a permit’s catch history assignment other than for the purpose of calculating relative history for individual years.

(H) Deliveries made under provisional “A” permits that did not become “A” permits and “B” permits will not be included in the calculation of a permit’s catch history assignment other than for the purpose of calculating relative history for individual years.

(iv) MS/CV endorsement and catch history assignment application. Persons may apply for an initial issuance of an
Fishery Conservation and Management § 660.150

MS/CV endorsement on a limited entry trawl permit and its associated catch history assignment in one of two ways: complete and submit a prequalified application received from NMFS, or complete and submit an application package. The completed application must be either postmarked or hand-delivered within normal business hours no later than November 1, 2010. If an applicant fails to submit a completed application by the deadline date, they forgo the opportunity to receive consideration for an initial issuance of an MS/CV endorsement and associated catch history assignment.

(A) Prequalified application. A "prequalified application" is a partially pre-filled application where NMFS has preliminarily determined the catch history that may qualify the applicant for an initial issuance of an MS/CV endorsement and associated catch history assignment. NMFS will mail prequalified application packages to the owners of current limited entry trawl permits, as listed in the NMFS permit database at the time applications are mailed, which NMFS determines may qualify for an MS/CV endorsement and associated catch history assignment. NMFS will mail the application by certified mail to the current address of record in the NMFS permit database. The application will contain the basis of NMFS' calculation. The application package will include, but is not limited to: a prequalified application (with landings history), a Trawl Identification of Ownership Interest form, and any other documents NMFS believes are necessary to aid the limited entry permit owner in completing the application.

(B) Request for an application. Any owner of a current limited entry trawl permit that does not receive a prequalified application that believes the permit qualifies for an initial issuance of an MS/CV endorsement and associated catch history assignment must complete an application package and submit the completed application to NMFS by the application deadline. Application packages are available on the NMFS Web site (http://www.nwr.noaa.gov/Groundfish-Halibut/Groundfish-Permits/index.cfm) or by contacting SFD. An application must include valid NORPAC data, copies of NMFS observer data forms, or other credible information that substantiates the applicant’s qualification for an initial issuance of an MS/CV endorsement and associated catch history assignment.

(v) Corrections to the application. If the applicant does not accept NMFS' calculation in the prequalified application either in part or whole, in order for NMFS to reconsider NMFS' calculation, the applicant must identify in writing to NMFS which parts of the application that the applicant contends to be inaccurate, and must provide specific credible information to substantiate any requested corrections. The completed application and specific credible information must be provided to NMFS in writing by the application deadline. Written communication must be either post-marked or hand-delivered within normal business hours no later than November 1, 2010. Requests for corrections may only be granted for changes to the selection of the eight years with the highest relative history of whiting and errors in NMFS’ use or application of data, including:

(A) Errors in NMFS' use or application of data from NORPAC;
(B) Errors in NMFS' calculations;
(C) Errors in the identification of the permit owner, permit combinations, or vessel registration as listed in the NMFS permit database; and
(D) Errors in NMFS' use or application of ownership interest information.

(vi) Submission of the application and application deadline—(A) Submission of the application. Submission of the complete, certified application includes, but is not limited to, the following:

(1) The applicant is required to sign and date the application and have the document notarized by a licensed Notary Public.

(2) The applicant must certify that they qualify to own an MS/CV-endorsed permit and associated catch history assignment.

(3) The applicant must indicate they accept NMFS’ calculation of initial issuance of an MS/CV-endorsed permit
§ 660.150 and associated catch history assignment provided in the prequalified application, or provide credible information that demonstrates their qualification for an MS/CV-endorsed permit and associated catch history assignment.

(4) The applicant is required to provide a complete Trawl Identification of Ownership Interest Form as specified at paragraph (g)(3)(i)(C) of this section.

(5) Business entities may be required to submit a corporate resolution or other credible documentation as proof that the representative of the entity is authorized to act on behalf of the entity; and

(6) NMFS may request additional information of the applicant as necessary to make an IAD on initial issuance of an MS/CV-endorsed permit and associated catch history assignment.

(B) Application deadline. A complete, certified application must be either postmarked or hand-delivered within normal business hours to NMFS, Northwest Region, Permits Office, Bldg. 1, 7600 Sand Point Way NE., Seattle, WA 98115, no later than November 1, 2010. NMFS will not accept or review any applications received or postmarked after the application deadline. There are no hardship provisions for this deadline.

(vii) Permit transfer during application period. NMFS will not review or approve any request for a change in limited entry trawl permit owner at any time after either November 1, 2010 or the date upon which the application is received by NMFS, whichever occurs first, until a final decision is made by the Regional Administrator on behalf of the Secretary of Commerce for the owner of the MS/CV-endorsed permit.

(viii) Initial Administrative Determination (IAD). NMFS will issue an IAD for all complete, certified applications received by the application deadline date. If NMFS approves an application for initial issuance of an MS/CV-endorsed permit and associated catch history assignment, the applicant will receive an MS/CV endorsement on a limited entry trawl permit specifying the amounts of catch history assignment for which the applicant has qualified. If NMFS disapproves an application, the IAD will provide the reasons. If known at the time of the IAD, NMFS will indicate if the owner of the MS/CV-endorsed permit has ownership interest in catch history assignments that exceed the accumulation limits and are subject to divestiture provisions given at paragraph (g)(3)(i)(D) of this section. If the applicant does not appeal the IAD within 60 calendar days of the date on the IAD, the IAD becomes the final decision of the Regional Administrator acting on behalf of the Secretary of Commerce.

(ix) Appeals. For an MS/CV-endorsed permit and associated catch history assignment issued under this section, the appeals process and timelines are specified at §660.25(g), subpart C. For the initial issuance of an MS/CV-endorsed permit and associated catch history assignment, the bases for appeal are described in paragraph (g)(6)(v) of this section. Items not subject to appeal include, but are not limited to, the accuracy of data in the relevant NORPAC dataset on August 1, 2010.

(h) Non-coop fishery—(1) Access to non-coop fishery allocation. All vessels registered to the MS/CV-endorsed permits assigned to the non-coop fishery will have access to harvest and deliver the aggregate catch history assignment of all MS/CV permits assigned to the non-coop fishery.

(2) Non-coop fishery closure. The non-coop fishery will be closed by automatic action as specified at §660.60(d) when the Pacific whiting or non-whiting allocations to the non-coop fishery have been reached or are projected to be reached.

(i) Retention requirements. Catcher vessels participating in the MS Coop Program may discard minor operational amounts of catch at sea if the observer has accounted for the discard (i.e., a maximized retention fishery).

(j) Observer requirements—(1) Observer coverage requirements. (i) Coverage. (A) Motherships. Any vessel registered to an MS permit 125 ft (38.1 m) LOA or longer must carry two NMFS-certified observers, and any vessel registered to an MS permit shorter than 125 ft (38.1 m) LOA must carry one NMFS-certified observer, each day that the vessel is used to take, retain, receive, land, process, or transport groundfish. (B) Catcher vessels. Any vessel delivering catch to any mothership must
carry one NMFS-certified observer each day that the vessel is used to take groundfish.

(ii) Observer workload—(A) Motherships. The time required for the observer to complete sampling duties must not exceed 12 consecutive hours in each 24-hour period.

(B) Catcher vessels. If an observer is unable to perform their duties for any reason, the vessel is required to be in port within 36 hours of the last haul sampled by the observer.

(iii) Refusal to board. Any boarding refusal on the part of the observer or vessel must be reported to the observer program and NOAA OLE by the observer provider. The observer must be available for an interview with the observer program or NOAA OLE if necessary.

(2) Vessel responsibilities. An operator and/or crew of a vessel required to carry an observer must provide:

(i) Accommodations and food—(A) Motherships. Provide accommodations and food that are equivalent to those provided for officers, engineers, foremen, deck-bosses or other management level personnel of the vessel.

(B) Catcher vessels—(1) Accommodations and food for trips less than 24 hours must be equivalent to those provided for the crew.

(2) Accommodations and food for trips of 24 hours or more must be equivalent to those provided for the crew and must include berthing space, a space that is intended to be used for sleeping and is provided with installed bunks and mattresses. A mattress or futon on the floor or a cot is not acceptable if a regular bunk is provided to any crew member, unless other arrangements are approved in advance by the Regional Administrator or their designee.

(ii) Safe conditions. Motherships and Catcher Vessels must:

(A) Maintain safe conditions on the vessel for the protection of observers including adherence to all U.S. Coast Guard and other applicable rules, regulations, or statutes pertaining to safe operation of the vessel including, but not limited to, rules of the road, vessel stability, emergency drills, emergency equipment, vessel maintenance, vessel general condition, and port bar crossings. An observer may refuse boarding or reboarding a vessel and may request a vessel return to port if operated in an unsafe manner or if unsafe conditions are identified.

(B) Have on board a valid Commercial Fishing Vessel Safety Decal that certifies compliance with regulations found in 33 CFR chapter I and 46 CFR Chapter I, a certificate of compliance issued pursuant to 46 CFR 28.710 or a valid certificate of inspection pursuant to 46 U.S.C. 3311.

(iii) Computer hardware and software—(A) Motherships must:

(1) Provide hardware and software pursuant to regulations at §§679.50(g)(1)(iii)(B)(1) through 679.50(g)(1)(iii)(B)(3).

(2) Provide the observer(s) access to a computer required under paragraph (j)(2)(iii)(A) of this section, and that is connected to a communication device that provides a point-to-point connection to the NMFS host computer.

(3) Ensure that the mothership has installed the most recent release of NMFS data entry software provided by the Regional Administrator, or other approved software prior to the vessel receiving, catching or processing IFQ species.

(4) Ensure that the communication equipment required in paragraph (j)(2)(iii) of this section and that is used by observers to enter and transmit data, is fully functional and operational. “Functional” means that all the tasks and components of the NMFS supplied, or other approved, software described at paragraph (j)(2)(iii) of this section and the data transmissions to NMFS can be executed effectively aboard the vessel by the communications equipment.

(B) Catcher vessels. [Reserved]

(iv) Vessel position. Allow observer(s) access to the vessel’s navigation equipment and personnel, on request, to determine the vessel’s position.

(v) Access. Allow observer(s) free and unobstructed access to the vessel’s bridge, trawl or working decks, holding bins, processing areas, freezer spaces, weight scales, cargo holds, and any other space that may be used to hold, process, weigh, or store fish or fish products at any time.
(vi) Prior notification. Notify observer(s) at least 15 minutes before fish are brought on board, or fish and fish products are transferred from the vessel, to allow sampling the catch or observing the transfer.

(vii) Records. Allow observer(s) to inspect and copy any state or Federal logbook maintained voluntarily or as required by regulation.

(viii) Assistance. Provide all other reasonable assistance to enable observer(s) to carry out their duties, including, but not limited to:

(A) Measuring decks, codends, and holding bins.

(B) Providing the observer(s) with a safe work area.

(C) Collecting samples of catch.

(D) Collecting and carrying baskets of fish.

(E) Allowing the observer(s) to collect biological data and samples.

(F) Providing adequate space for storage of biological samples.

(ix) Sample station and operational requirements.

(A) Motherships. To allow the observer to carry out required duties, the vessel owner must provide an observer sampling station that meets the following requirements:

(1) Accessibility. The observer sampling station must be available to the observer at all times.

(2) Location. The observer sampling station must be located within 4 m of the location from which the observer samples unsorted catch.

(3) Access. Unobstructed passage must be provided between the observer sampling station and the location where the observer collects sample catch.

(4) Minimum work space. The observer must have a working area of at least 4.5 square meters, including the observer's sampling table, for sampling and storage of fish to be sampled. The observer must be able to stand upright and have a work area at least 0.9 m deep in the area in front of the table and scale.

(5) Table. The observer sampling station must include a table at least 0.6 m deep, 1.2 m wide and 0.9 m high and no more than 1.1 m high. The entire surface area of the table must be available for use by the observer. Any area for the observer sampling scale is in addition to the minimum space requirements for the table. The observer's sampling table must be secured to the floor or wall.

(6) Diverter board. The conveyor belt conveying unsorted catch must have a removable board ("diverter board") to allow all fish to be diverted from the belt directly into the observer's sampling baskets. The diverter board must be located downstream of the scale used to weigh total catch. At least 1 m of accessible belt space, located downstream of the scale used to weigh total catch, must be available for the observer's use when sampling.

(7) Other requirements. The sampling station must be in a well-drained area that includes floor grating (or other material that prevents slipping), lighting adequate for day or night sampling, and a hose that supplies fresh or seawater to the observer.

(B) Catcher vessels. To allow the observer to carry out the required duties, the vessel owner must provide an observer sampling station that is:

(1) Accessible. The observer sampling station must be available to the observer at all times.

(2) Limits hazards. To the extent possible, the area should be free and clear of hazards including, but not limited to, moving fishing gear, stored fishing gear, inclement weather conditions, and open hatches.

(x) Transfer at sea. Observers may be transferred at sea between motherships, between motherships and catcher-processors, or between a mothership and a catcher vessel. Transfers at sea between catcher vessels is prohibited. For transfers, both vessels must:

(A) Ensure that transfers of observers at sea via small boat under its own power are carried out during daylight hours, under safe conditions, and with the agreement of observers involved.
(B) Notify observers at least 3 hours before observers are transferred, such that the observers can finish any sampling work, collect personal belongings, equipment, and scientific samples.

(C) Provide a safe pilot ladder and conduct the transfer to ensure the safety of observers during transfers.

(D) Provide an experienced crew member to assist observers in the small boat in which any transfer is made.

(3) Procurement of observer services—(i) Motherships—(A) Owners of vessels required to carry observers under paragraph (j)(1)(i) of this section must arrange for observer services from a permitted observer provider, except that:

1. Vessels are required to procure observer services directly from NMFS when NMFS has determined and given notification that the vessel must carry NMFS staff or an individual authorized by NMFS in lieu of an observer provided by a permitted observer provider.

2. Vessels are required to procure observer services directly from NMFS and a permitted observer provider when NMFS has determined and given notification that the vessel must carry NMFS staff and/or individuals authorized by NMFS, in addition to an observer provided by a permitted observer provider.

(B) [Reserved]

(ii) Catcher vessels—(A) Owners of vessels required to carry observers under paragraph (j)(1)(i) of this section must arrange for observer services from a permitted observer provider, except that:

1. Vessels are required to procure observer services directly from NMFS and a permitted observer provider when NMFS has determined and given notification that the vessel must carry NMFS staff and/or individuals authorized by NMFS, in addition to an observer provided by a permitted observer provider.

(B) [Reserved]

(4) Application to become an observer provider—(i) Motherships. Any observer provider holding a valid permit issued by the North Pacific Groundfish Observer Program in 2010 can supply observer services and will be issued a West Coast Groundfish Observer Program permit.

(ii) Catcher vessels. [Reserved]

(5) Observer provider responsibilities—(i) Provide qualified candidates to serve as observers. Observer providers must provide qualified candidates to serve as observers. To be qualified, a candidate must have:

(A) A Bachelor’s degree or higher from an accredited college or university with a major in one of the natural sciences;

(B) Successfully completed a minimum of 30 semester hours or equivalent in applicable biological sciences with extensive use of dichotomous keys in at least one course;

(C) Successfully completed at least one undergraduate course each in math and statistics with a minimum of 5 semester hours total for both; and

(D) Computer skills that enable the candidate to work competently with standard database software and computer hardware.

(ii) Hiring an observer candidate—(A) Motherships.

1. The observer provider must provide the candidate a copy of NMFS-provided pamphlets, information and other literature describing observer duties (i.e. The At-Sea Hake Observer Program’s Observer Manual) prior to hiring the candidate. Observer job information is available from the Observer Program Office’s Web site at http://www.nwfsc.noaa.gov/research/divisions/fram/observer/atseahake.cfm.

2. Observer contracts. The observer provider must have a written contract or a written contract addendum that is signed by the observer and observer provider prior to the observer’s deployment with the following clauses:

(i) That all the observer’s in-season messages and catch reports required to be sent while deployed are delivered to the Observer Program Office as specified by written Observer Program instructions;
§ 660.150

(i) That the observer inform the observer provider prior to the time of embarkation if he or she is experiencing any new mental illness or physical ailments or injury since submission of the physician’s statement as required as a qualified observer candidate that would prevent him or her from performing their assigned duties.

(B) Catcher vessels—(1) Provide the candidate a copy of NMFS-provided pamphlets, information and other literature describing observer duties, for example, the West Coast Groundfish Observer Program’s sampling manual. Observer job information is available from the Observer Program Office’s Web site at http://www.nwfsc.noaa.gov/research/decisions/fram/observer/index.cfm.

(2) Observer contracts. The observer provider must have a written contract or a written contract addendum that is signed by the observer and observer provider prior to the observer’s deployment with the following clauses:

(i) That all the observer’s in-season messages and catch reports required to be sent while deployed are delivered to the Observer Program Office as specified by written Observer Program instructions;

(ii) That the observer inform the observer provider prior to the time of embarkation if he or she is experiencing any new mental illness or physical ailments or injury since submission of the physician’s statement as required as a qualified observer candidate that would prevent him or her from performing their assigned duties; and

(iii) That the observer completes a basic cardiopulmonary resuscitation/first aid course prior to the end of the NMFS West Coast Groundfish Observer Training class.

(3) Ensure that observers complete duties in a timely manner—(A) Motherships. An observer provider must ensure that observers employed by that observer provider do the following in a complete and timely manner:

(1) Submit to NMFS all data, logbooks, and reports as required by the Observer Manual;

(2) Report for his or her scheduled debriefing and complete all debriefing responsibilities;

(3) Return all sampling and safety gear to the Observer Program Office;

(4) Submit all biological samples from the observer’s deployment by the completion of the electronic vessel and/or processor survey(s); and

(5) Immediately report to the Observer Program Office and the NOAA OLE any refusal to board an assigned vessel.

(B) Catcher vessels. An observer provider must ensure that observers employed by that observer provider do the following in a complete and timely manner:

(1) Submit to NMFS all data, logbooks, and reports as required by the Observer Manual;

(2) Report for his or her scheduled debriefing and complete all debriefing responsibilities;

(3) Return all sampling and safety gear to the Observer Program Office;

(4) Immediately report to the Observer Program Office and the NOAA OLE any refusal to board an assigned vessel.

(iv) Observers provided to vessel—(A) Motherships. Observers provided to mothership vessels:

(1) Must have a valid North Pacific groundfish observer certification endorsement and an At-Sea Hake Observer Program certification;

(2) Must not have not informed the provider prior to the time of embarkation that he or she is experiencing a mental illness or a physical ailment or injury developed since submission of the physician’s statement that would prevent him or her from performing his or her assigned duties; and

(3) Must have successfully completed all NMFS required training and briefing before deployment.

(B) Catcher vessels. Observers provided to catcher vessels:

(1) Must have a valid West Coast Groundfish observer certification;

(2) Must have not informed the provider prior to the time of embarkation that he or she is experiencing a mental illness or a physical ailment or injury developed since submission of the physician’s statement (required in paragraph (j)(5)(xi)(B)(2) of this section) that would prevent him or her from performing his or her assigned duties; and

(3) Must have successfully completed all NMFS required training and briefing before deployment.
(3) Must have successfully completed all NMFS required training and briefing before deployment.

(v) Respond to industry requests for observers. An observer provider must provide an observer for deployment pursuant to the terms of the contractual relationship with the vessel to fulfill vessel requirements for observer coverage specified at paragraph (j)(1)(i) of this section. An alternate observer must be supplied in each case where injury or illness prevents the observer from performing his or her duties or where the observer resigns prior to completion of his or her duties. If the observer provider is unable to respond to an industry request for observer coverage from a vessel for whom the provider is in a contractual relationship due to lack of available observers by the estimated embarking time of the vessel, the provider must report it to the observer program at least 4 hours prior to the vessel’s estimated embarking time.

(vi) Provide observer salaries and benefits. An observer provider must provide to its observer employees salaries and any other benefits and personnel services in accordance with the terms of each observer’s contract.

(vii) Provide observer deployment logistics—(A) Motherships. An observer provider must provide to each of its observers under contract:

(1) All necessary transportation, including arrangements and logistics, of observers to the initial location of deployment, to all subsequent vessel assignments during that deployment, and to the debriefing location when a deployment ends for any reason; and

(2) Lodging, per diem, and any other services necessary to observers assigned to fishing vessels.

(3) An observer under contract may be housed on a vessel to which he or she is assigned:

(i) Prior to their vessel’s initial departure from port;

(ii) For a period not to exceed twenty-four hours following the completion of an offload when the observer has duties and is scheduled to disembark; or

(iii) For a period not to exceed twenty-four hours following the vessel’s arrival in port when the observer is scheduled to disembark.

(iv) During all periods an observer is housed on a vessel, the observer provider must ensure that the vessel operator or at least one crew member is aboard.

(v) An observer under contract who is between vessel assignments must be provided with shoreside accommodations pursuant to the terms of the contract between the observer provider and the observers. If the observer provider is responsible for providing accommodations under the contract with the observer the accommodations must be at a licensed hotel, motel, bed and breakfast, or other shoreside accommodations for the duration of each period between vessel or shoreside assignments. Such accommodations must include an assigned bed for each observer and no other person may be assigned that bed for the duration of that observer’s stay. Additionally, no more than four beds may be in any room housing observers at accommodations meeting the requirements of this section.

(B) Catcher vessels. An observer provider must ensure each of its observers under contract:

(1) Has an individually assigned mobile or cell phones, in working order, for all necessary communication. An observer provider may alternatively compensate observers for the use of the observer’s personal cell phone or pager for communications made in support of, or necessary for, the observer’s duties.

(2) Calls into the NMFS deployment hotline upon departing and arriving into port for each trip to leave the following information: Observer name, phone number, vessel departing on, expected trip end date and time.

(3) Remains available to NOAA OLE and the Observer Program until the conclusion of debriefing.

(4) Receives all necessary transportation, including arrangements and logistics, of observers to the initial location of deployment, to all subsequent vessel assignments during that deployment, and to the debriefing location when a deployment ends for any reason; and

(5) Receives lodging, per diem, and any other services necessary to observers assigned to fishing vessels.
§ 660.150  

(i) An observer under contract may be housed on a vessel to which he or she is assigned: Prior to their vessel’s initial departure from port; for a period not to exceed 24 hours following the completion of an offload when the observer has duties and is scheduled to disembark; or for a period not to exceed twenty-four hours following the vessel’s arrival in port when the observer is scheduled to disembark.

(ii) During all periods an observer is housed on a vessel, the observer provider must ensure that the vessel operator or at least one crew member is aboard.

(iii) Otherwise, each observer between vessels, while still under contract with a permitted observer provider, shall be provided with accommodations in accordance with the contract between the observer and the observer provider. If the observer provider is responsible for providing accommodations under the contract with the observer, the accommodations must be at a licensed hotel, motel, bed and breakfast, or other shoreside accommodations that has an assigned bed for each observer that no other person may be assigned to for the duration of that observer’s stay. Additionally, no more than four beds may be in any room housing observers at accommodations meeting the requirements of this section.

(viii) Observer deployment limitations—

(A) Motherships. Unless alternative arrangements are approved by the Observer Program Office, an observer provider must not:

(1) Deploy an observer on the same vessel more than 90 days in a 12-month period;

(2) Deploy an observer for more than 90 days in a single deployment;

(3) Include more than four vessels assignments in a single deployment, or

(4) Disembark an observer from a vessel before that observer has completed his or her sampling or data transmission duties.

(B) Catcher vessels. Not deploy an observer on the same vessel more than 90 calendar days in a 12-month period.

(ix) Verify vessel’s safety decal. An observer provider must verify that a vessel has a valid USCG safety decal as required under paragraph (i)(2)(ii)(B) of this section before an observer may get underway aboard the vessel. One of the following acceptable means of verification must be used to verify the decal validity:

(A) The observer provider or employee of the observer provider, including the observer, visually inspects the decal aboard the vessel and confirms that the decal is valid according to the decal date of issuance; or

(B) The observer provider receives a hard copy of the USCG documentation of the decal issuance from the vessel owner or operator.

(x) Maintain communications with observers. An observer provider must have an employee responsible for observer activities on call 24 hours a day to handle emergencies involving observers or problems concerning observer logistics, whenever observers are at sea, in transit, or in port awaiting vessel reassignment.

(xi) Maintain communications with the Observer Program Office. An observer provider must provide all of the following information by electronic transmission (e-mail), fax, or other method specified by NMFS.

(A) Motherships—(I) Training and briefing registration materials. The observer provider must submit training and briefing registration materials to the Observer Program Office at least 5 business days prior to the beginning of a scheduled observer at-sea hake training or briefing session.

(i) Registration materials consist of the date of requested training or briefing with a list of observers including each observer’s full name (i.e., first, middle and last names).

(ii) Projected observer assignments. Prior to the observer’s completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include the observer’s name; vessel, gear type, and vessel/processor code; port of embarkation; and area of fishing.

(2) Observer debriefing registration. The observer provider must contact the At-Sea Hake Observer Program within 5 business days after the completion of an observer’s deployment to schedule a date, time and location for debriefing. Observer debriefing registration information must be provided at the time of
debriefing scheduling and must include the observer’s name, cruise number, vessel name(s) and code(s), and requested debriefing date.

(3) Observer provider contracts. If requested, observer providers must submit to the Observer Program Office a completed and unaltered copy of each type of signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract) between the observer provider and those entities requiring observer services under paragraph (j)(1)(i) of this section. Observer providers must also submit to the Observer Program Office upon request, a completed and unaltered copy of the current or most recent signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract and any agreements or policies with regard to observer compensation or salary levels) between the observer provider and the particular entity identified by the Observer Program or with specific observers. The copies must be submitted to the Observer Program Office via fax or mail within 5 business days of the request. Signed and valid contracts include the contracts an observer provider has with:

(i) Vessels required to have observer coverage as specified at paragraph (j)(1)(i) of this section; and
(ii) Observers.

(4) Change in observer provider management and contact information. Observer providers must submit notification of any other change to provider contact information, including but not limited to, changes in contact name, phone number, email address, and address.

(5) Other reports. Reports of the following must be submitted in writing to the At-Sea Hake Observer Program Office by the observer provider via fax or email address designated by the Observer Program Office within 24 hours after the observer provider becomes aware of the information:

(i) Any information regarding possible observer harassment;
(ii) Any information regarding any action prohibited under §660.12(e); §660.12(a)(4); or §600.725(o), (t) and (u);
(iii) Any concerns about vessel safety or marine casualty under 46 CFR 4.05-1(a)(1) through (7);
(iv) Any observer illness or injury that prevents the observer from completing any of his or her duties described in the observer manual; and
(v) Any information, allegations or reports regarding observer conflict of interest or breach of the standards of behavior described in observer provider policy.

(B) Catcher vessels. An observer provider must provide all of the following information by electronic transmission (e-mail), fax, or other method specified by NMFS.

(i) Observer training, briefing, and debriefing registration materials. This information must be submitted to the Observer Program Office at least 7 business days prior to the beginning of a scheduled West Coast groundfish observer certification training or briefing session.

(ii) Training registration materials consist of the following: Date of requested training; a list of observer candidates that includes each candidate’s first, middle and last names, date of birth, and gender; a copy of each candidate’s academic transcripts and resume; a statement signed by the candidate under penalty of perjury which discloses the candidate’s criminal convictions; projected observer assignments—Prior to the observer’s completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include that includes each observer’s name, full name (i.e., first, middle and last names), date of birth, and gender; a copy of each candidate’s academic transcripts and resume; a statement signed by the candidate under penalty of perjury which discloses the candidate’s criminal convictions; projected observer assignments—Prior to the observer’s completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include that includes each observer’s name, current mailing address, phone number, email address, phone numbers and port of embarkation (“home port”); and length of observers contract.

(ii) Briefing registration materials consist of the following: Date and type of requested briefing session; list of observers to attend the briefing session, that includes each observer’s full name (first, middle, and last names); projected observer assignments—Prior to the observer’s completion of the training or briefing session, the observer provider must submit to the Observer Program Office a statement of projected observer assignments that include that includes each observer’s name, current mailing address, phone number, email address, phone numbers and port of embarkation (“home port”); and length of observers contract.
Program Office a statement of projected observer assignments that include that includes each observer’s name, current mailing address, e-mail address, phone numbers and port of embarkation (“home port”); and length of observer contract.

(iii) Debriefing. The West Coast Groundfish Observer Program will notify the observer provider which observers require debriefing and the specific time period the provider has to schedule a date, time, and location for debriefing. The observer provider must contact the West Coast Groundfish Observer program within 5 business days by telephone to schedule debriefings. Observer providers must immediately notify the observer program when observers end their contract earlier than anticipated.

(2) Physical examination. A signed and dated statement from a licensed physician that he or she has physically examined an observer or observer candidate. The statement must confirm that, based on that physical examination, the observer or observer candidate does not have any health problems or conditions that would jeopardize that individual’s safety or the safety of others while deployed, or prevent the observer or observer candidate from performing his or her duties satisfactorily. The statement must declare that, prior to the examination, the physician was made aware of the duties of the observer and the dangerous, remote, and rigorous nature of the work by reading the NMFS-prepared information. The physician’s statement must be submitted to the Observer Program Office prior to certification of an observer. The physical exam must have occurred during the 12 months prior to the observer’s or observer candidate’s deployment. The physician’s statement will expire 12 months after the physical exam occurred. A new physical exam must be performed, and accompanying statement submitted, prior to any deployment occurring after the expiration of the statement.

(3) Certificates of insurance. Copies of “certificates of insurance”, that names the NMFS Observer Program leader as the “certificate holder”, shall be submitted to the Observer Program Office by February 1 of each year. The certificates of insurance shall verify the following coverage provisions and state that the insurance company will notify the certificate holder if insurance coverage is changed or canceled.

(i) Maritime Liability to cover “seamen’s” claims under the Merchant Marine Act (Jones Act) and General Maritime Law ($1 million minimum).

(ii) Coverage under the U.S. Longshore and Harbor Workers’ Compensation Act ($1 million minimum).

(iii) States Worker’s Compensation as required.

(iv) Commercial General Liability.

(4) Observer provider contracts. If requested, observer providers must submit to the Observer Program Office a completed and unaltered copy of each type of signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract) between the observer provider and those entities requiring observer services under paragraph (j)(1)(i) of this section. Observer providers must also submit to the Observer Program Office upon request, a completed and unaltered copy of the current or most recent signed and valid contract (including all attachments, appendices, addendums, and exhibits incorporated into the contract and any agreements or policies with regard to observer compensation or salary levels) between the observer provider and the particular entity identified by the Observer Program or with specific observers. The copies must be submitted to the Observer Program Office via fax or mail within 5 business days of the request. Signed and valid contracts include the contracts an observer provider has with:

(i) Vessels required to have observer coverage as specified at paragraph (j)(1)(i) of this section; and

(ii) Observers.

(5) Change in observer provider management and contact information. An observer provider must submit to the Observer Program office any change of management or contact information submitted on the provider’s permit application under paragraphs (j)(4) of this section within 30 days of the effective date of such change.

(6) Boarding refusals. The observer provider must report to NMFS any trip
Fishery Conservation and Management § 660.150

that has been refused by an observer within 24 hours of the refusal.

(7) Biological samples. The observer provider must ensure that biological samples are stored/handled properly prior to delivery/transport to NMFS.

(8) Observer status report. Each Tuesday, observer providers must provide NMFS with an updated list of contact information for all observers that includes the observer’s name, mailing address, e-mail address, phone numbers, port of embarkation (“home port”), fishery deployed the previous week and whether or not the observer is “in service”, indicating when the observer has requested leave and/or is not currently working for the provider.

(9) Providers must submit to NMFS, if requested, copies of any information developed and used by the observer providers distributed to vessels, such as informational pamphlets, payment notification, description of observer duties, etc.

(10) Other reports. Reports of the following must be submitted in writing to the At-Sea Hake or West Coast Groundfish Observer Program Office by the observer provider via fax or email address designated by the Observer Program Office within 24 hours after the observer provider becomes aware of the information:

(i) Any information regarding possible observer harassment;

(ii) Any information regarding any action prohibited under §660.12(e); §660.112(a)(4); or §600.725(o), (t) and (u);

(iii) Any concerns about vessel safety or marine casualty under 46 CFR 4.05–1(a)(1) through (7);

(iv) Any observer illness or injury that prevents the observer from completing any of his or her duties described in the observer manual; and

(v) Any information, allegations or reports regarding observer conflict of interest or breach of the standards of behavior described in observer provider policy.

(xii) Replace lost or damaged gear. An observer provider must replace all lost or damaged gear and equipment issued by NMFS to an observer under contract to that provider. All replacements must be in accordance with requirements and procedures identified in writing by the Observer Program Office.

(xiii) Maintain confidentiality of information. An observer provider must ensure that all records on individual observer performance received from NMFS under the routine use provision of the Privacy Act or as otherwise required by law remain confidential and are not further released to anyone outside the employ of the observer provider company to whom the observer was contracted except with written permission of the observer.

(xiv) Limitations on conflict of interest. Observer providers must meet limitations on conflict of interest. Observer providers:

(A) Must not have a direct financial interest, other than the provision of observer services, in the North Pacific or Pacific Coast Groundfish fishery managed under an FMP for the waters off the coasts of Alaska, Washington, Oregon, and California, including, but not limited to,

(1) Any ownership, mortgage holder, or other secured interest in a vessel, or shoreside processor facility involved in the catching, taking, harvesting or processing of fish,

(2) Any business involved with selling supplies or services to any vessel or shoreside processors participating in a fishery managed pursuant to an FMP in the waters off the coasts of Alaska, California, Oregon, and Washington, or

(3) Any business involved with purchasing raw or processed products from any vessel or shoreside processor participating in a fishery managed pursuant to an FMP in the waters off the coasts of Alaska, California, Oregon, and Washington.

(B) Must assign observers without regard to any preference by representatives of vessels other than when an observer will be deployed.

(C) Must not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value except for compensation for providing observer services from anyone who conducts fishing or fish processing activities that are regulated by NMFS, or who has interests that may be substantially affected by the performance or nonperformance.
of the official duties of observer providers.

(xv) Observer conduct and behavior. Observer providers must develop and maintain a policy addressing observer conduct and behavior for their employees that serve as observers. The policy shall address the following behavior and conduct regarding:

(A) Observer use of alcohol;
(B) Observer use, possession, or distribution of illegal drugs and;
(C) Sexual contact with personnel of the vessel or processing facility to which the observer is assigned, or with any vessel or processing plant personnel who may be substantially affected by the performance or non-performance of the observer’s official duties.

(D) An observer provider shall provide a copy of its conduct and behavior policy by February 1 of each year, to: Observers, observer candidates and; the Observer Program Office.

(xvi) Refusal to deploy an observer. Observer providers may refuse to deploy an observer on a requesting vessel if the observer provider has determined that the requesting vessel is inadequate or unsafe pursuant to those regulations described at §600.746 or U.S. Coast Guard and other applicable rules, regulations, statutes, or guidelines pertaining to safe operation of the vessel.

(6) Observer certification and responsibilities—(i) Applicability. Observer certification authorizes an individual to fulfill duties as specified in writing by the NMFS Observer Program Office while under the employ of a NMFS-permitted observer provider and according to certification endorsements as designated under paragraph (j)(6)(iii) of this section.

(ii) Observer certification official. The Regional Administrator will designate a NMFS observer certification official who will make decisions for the Observer Program Office on whether to issue or deny observer certification.

(iii) Certification requirements—(A) Initial certification. NMFS may certify individuals who, in addition to any other relevant considerations:

(1) Are employed by an observer provider company permitted pursuant to §679.50 at the time of the issuance of the certification;

(2) Have provided, through their observer provider:

(i) Information identified by NMFS at §679.50 regarding an observer candidate’s health and physical fitness for the job;

(ii) Meet all observer education and health standards as specified in §679.50 and

(iii) Have successfully completed NMFS-approved training as prescribed by the At-Sea Hake and/or the West Coast Groundfish Observer Program. Successful completion of training by an observer applicant consists of meeting all attendance and conduct standards issued in writing at the start of training; meeting all performance standards issued in writing at the start of training for assignments, tests, and other evaluation tools; and completing all other training requirements established by the Observer Program.

(iv) Have not been decertified under paragraph (j)(6)(ix) of this section, or pursuant to §679.50.

(B) [Reserved]

(iv) Denial of a certification. The NMFS observer certification official will issue a written determination denying observer certification if the candidate fails to successfully complete training, or does not meet the qualifications for certification for any other relevant reason.

(v) Issuance of an observer certification. An observer certification will be issued upon determination by the observer certification official that the candidate has successfully met all requirements for certification as specified at paragraph (j)(6)(ii) of this section. The following endorsements must be obtained, in addition to observer certification, in order for an observer to deploy.

(A) Motherships—(I) North Pacific Groundfish Observer Program certification training endorsement. A certification training endorsement signifies the successful completion of the training course required to obtain observer certification. This endorsement expires when the observer has not been deployed and performed sampling duties as required by the Observer Program Office for a period of time, specified by the Observer Program, after his or her most recent debriefing. The observer
can renew the endorsement by successfully completing certification training once more.

(2) North Pacific Groundfish Observer Program annual general endorsements. Each observer must obtain an annual general endorsement to their certification prior to his or her first deployment within any calendar year subsequent to a year in which a certification training endorsement is obtained. To obtain an annual general endorsement, an observer must successfully complete the annual briefing, as specified by the Observer Program. All briefing attendance, performance, and conduct standards required by the Observer Program must be met.

(3) North Pacific Groundfish Observer Program deployment endorsements. Each observer who has completed an initial deployment after certification or annual briefing must receive a deployment endorsement to their certification prior to any subsequent deployments for the remainder of that year. An observer may obtain a deployment endorsement by successfully completing all pre-cruise briefing requirements. The type of briefing the observer must attend and successfully complete will be specified in writing by the Observer Program during the observer's most recent debriefing.

(4) At-Sea Hake Observer Program endorsements. A Pacific hake fishery endorsement is required for purposes of performing observer duties aboard vessels that process groundfish at sea in the Pacific whiting fishery. A Pacific whiting fishery endorsement to an observer's certification may be obtained by meeting the following requirements:

(i) Be a prior NMFS-certified observer in the groundfish fisheries off Alaska;

(ii) Receive an evaluation by NMFS for his or her most recent deployment that indicated that the observer's performance met Observer Program expectations for that deployment; successfully complete a NMFS-approved observer training and/or Pacific whiting briefing as prescribed by the Observer Program; and comply with all of the other requirements of this section.

(B) Catcher vessels. The following endorsements must be obtained in addition to observer certification, in order for an observer to deploy.

(1) West Coast Groundfish Observer Program training certification endorsement. A training certification endorsement signifies the successful completion of the training course required to obtain observer certification. This endorsement expires when the observer has not been deployed and performed sampling duties as required by the observer Program office for a period of time, specified by the Observer Program, after his or her most recent debriefing. The observer can renew the endorsement by successfully completing training once more.

(2) West Coast Groundfish Observer Program annual general endorsement. Each observer must obtain an annual general endorsement to their certification prior to his or her first deployment within any calendar year subsequent to a year in which a training certification endorsement is obtained. To obtain an annual general endorsement, an observer must successfully complete the annual briefing, as specified by the Observer Program. All briefing attendance, performance, and conduct standards required by the Observer Program must be met.

(3) West Coast Groundfish Observer Program deployment endorsement. Each observer who has completed an initial deployment after their certification or annual briefing must receive a deployment endorsement to their certification prior to any subsequent deployments for the remainder of that year. An observer may obtain a deployment endorsement by successfully completing all briefing requirements, when applicable. The type of briefing the observer must attend and successfully complete will be specified in writing by the Observer Program during the observer's most recent debriefing.

(vi) Maintaining the validity of an observer certification. After initial issuance, an observer must keep their certification valid by meeting all of the following requirements specified below:

(A) Motherships—(1) Successfully perform their assigned duties as described in the Observer Manual or other written instructions from the Observer Program Office including calling into
the NMFS deployment hotline upon departing and arriving into port each trip to leave the following information: Observer name, phone number, vessel name departing on, date and time of departure and date and time of expected return.

(2) Accurately record their sampling data, write complete reports, and report accurately any observations of suspected violations of regulations relevant to conservation of marine resources or their environment.

(3) Not disclose collected data and observations made on board the vessel or in the processing facility to any person except the owner or operator of the observed vessel or an authorized officer or NMFS.

(4) Successfully complete NMFS-approved annual briefings as prescribed by the West Coast Groundfish Observer Program.

(5) Successful completion of briefing by an observer applicant consists of meeting all attendance and conduct standards issued in writing at the start of training; meeting all performance standards issued in writing at the start of training for assignments, tests, and other evaluation tools; and completing all other briefing requirements established by the Observer Program.

(6) Hold current basic cardiopulmonary resuscitation/first aid certification as per American Red Cross Standards.

(7) Successfully meet all expectations in all debriefings including reporting for assigned debriefings.

(8) Submit all data and information required by the observer program within the program’s stated guidelines.

(9) Meet the minimum annual deployment period of 3 months at least once every 12 months.

(vii) Limitations on conflict of interest.

Observers:

(A) Must not have a direct financial interest, other than the provision of observer services, in a fishery managed pursuant to an FMP for the waters off the coast of Alaska, or in a Pacific Coast fishery managed by either the State or Federal Governments in waters off Washington, Oregon, or California, including but not limited to:

(1) Any ownership, mortgage holder, or other secured interest in a vessel, shore-based or floating stationary processor facility involved in the catching, taking, harvesting or processing of fish,

(2) Any business involved with selling supplies or services to any vessel, shore-based or floating stationary processing facility; or

(3) Any business involved with purchasing raw or processed products from
any vessel, shore-based or floating stationary processing facilities.

(B) Must not solicit or accept, directly or indirectly, any gratuity, gift, favor, entertainment, loan, or anything of monetary value from anyone who either conducts activities that are regulated by NMFS in the Pacific coast or North Pacific regions or has interests that may be substantially affected by the performance or nonperformance of the observers’ official duties.

(C) May not serve as observers on any vessel or at any shore-based owned or operated by a person who employed the observer in the last two years.

(D) May not solicit or accept employment as a crew member or an employee of a vessel or shore-based processor while employed by an observer provider.

(E) Provisions for remuneration of observers under this section do not constitute a conflict of interest.

(viii) Standards of behavior. Observers must:

(A) Perform their assigned duties as described in the Observer Manual or other written instructions from the Observer Program Office.

(B) Immediately report to the observer program office and the NMFS OLE any time they refuse to board.

(C) Accurately record their sampling data, write complete reports, and report accurately any observations of suspected violations of regulations relevant to conservation of marine resources or their environment.

(D) Not disclose collected data and observations made on board the vessel to any person except the owner or operator of the observed vessel, an authorized officer, or NMFS.

(ix) Suspension and decertification—(A) Suspension and decertification review official. The Regional Administrator (or a designee) will designate an observer suspension and decertification review official(s), who will have the authority to review observer certifications and issue initial administrative determinations of observer certification suspension and/or decertification.

(B) Causes for suspension or decertification. The suspension/decertification official may initiate suspension or decertification proceedings against an observer:

(1) When it is alleged that the observer has not met applicable standards, including any of the following:

   (i) Failed to satisfactorily perform duties of observers as specified in writing by the NMFS Observer Program; or

   (ii) Failed to abide by the standards of conduct for observers, including conflicts of interest;

(2) Upon conviction of a crime or upon entry of a civil judgment for:

   (i) Commission of fraud or other violation in connection with obtaining or attempting to obtain certification, or in performing the duties as specified in writing by the NMFS Observer Program;

   (ii) Commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

   (iii) Commission of any other offense indicating a lack of integrity or honesty that seriously and directly affects the fitness of observers.

(C) Issuance of initial administrative determination. Upon determination that suspension or decertification is warranted, the suspension/decertification official will issue a written IAD to the observer via certified mail at the observer’s most current address provided to NMFS. The IAD will identify whether a certification is suspended or revoked and will identify the specific reasons for the action taken. Decertification is effective 30 calendar days after the date on the IAD, unless there is an appeal.

(D) Appeals. A certified observer who receives an IAD that suspends or revokes his or her observer certification may appeal the determination within 30 calendar days after the date on the IAD to the Office of Administrative Appeals pursuant to §679.43.

(k) MS coop failure—(1) The Regional Administrator will determine that a permitted MS coop is considered to have failed if:

   (i) The coop members dissolve the coop, or

   (ii) The coop membership falls below 20 percent of the MS/CV-endorsed limited entry permits, or

   (iii) The coop agreement is no longer valid.
§ 660.160 Catcher/processor (C/P) Coop Program.

(a) General. The C/P Coop Program requirements in § 660.160 will be effective beginning January 1, 2011, except for paragraphs (d)(5) and (d)(7) of this section, which are effective immediately. The C/P Coop Program is a limited access program that applies to vessels in the C/P sector of the Pacific whiting at-sea trawl fishery and is a single voluntary coop. Eligible harvesters and processors must meet the requirements set forth in this section of the Pacific Coast groundfish regulations. In addition to the requirements of this section, the C/P Coop Program is subject to the following groundfish regulations:

(1) Pacific whiting seasons § 660.131(b), subpart D.

(2) Area restrictions specified for midwater trawl gear used to harvest Pacific whiting fishery specified at § 660.131(c), subpart D for GCAs, RCAs, Salmon Conservation Zones, BRAs, and EMPHACs.

(b) Participation requirements and responsibilities—(1) C/P vessels—(i) C/P vessel participation requirements. A vessel is eligible to fish as a catcher/processor in the C/P Coop Program if:

(A) The vessel is registered to a C/P-endorsed limited entry trawl permit.

(B) The vessel is not used to harvest fish as a catcher vessel in the mothership coop program in the same calendar year.

(C) The vessel is not used to fish as a mothership in the MS Coop Program in the same calendar year.

(ii) C/P vessel responsibilities. The owner and operator of a catcher/processor vessel must:

(A) Recordkeeping and reporting. Maintain a valid declaration as specified at § 660.13(d), subpart C; and maintain and submit all records and reports specified at § 660.13(d) including, economic data, scale tests records, and cease fishing reports.
