traditional use. The Alaska Migratory Bird Co-management Council recommendations will accommodate traditional spring and summer harvests without creating new traditions or increasing harvest of migratory birds. Recommendations will be made based on the majority of factors and the weight of the evidence using the following criteria:

1. A pattern of use recurring in the spring and summer of each year prior to 1999, excluding interruptions by circumstances beyond the user’s control;
2. The consistent harvest and use of migratory birds on or near the user’s permanent residence;
3. A use pattern that includes the handing down of knowledge of hunting skills and values from generation to generation;
4. A use pattern in which migratory birds are shared or distributed among others within a definable community of persons; a community for purposes of subsistence uses may include specific villages or towns, with a historical pattern of subsistence use; and
5. A use pattern that includes reliance for subsistence purposes upon migratory birds or their eggs and that meets nutritional and other essential needs including, but not limited to, cultural, social, and economic elements of the subsistence way of life.

(d) Participation by permanent residents of excluded areas. Immediate family members who are permanent residents of excluded areas may participate in the customary spring and summer subsistence harvest in a village’s subsistence harvest area with the permission of the village council, where it is appropriate to assist indigenous inhabitants in meeting their nutritional and other essential needs or for the teaching of cultural knowledge to or by their immediate family members. Eligibility for participation will be developed and recommended by the Co-management Council and adopted or amended by regulations published in subpart D of this part.

§ 92.6 Use and possession of migratory birds.
You may not sell, offer for sale, purchase, or offer to purchase migratory birds, their parts, or their eggs taken under this part.

(a) Eligible persons. Under this part, you may take birds for human consumption only. Harvest and possession of migratory birds must be done using nonwasteful taking. Nondedible byproducts of migratory birds taken for food may be used for other purposes, except that taxidermy is not allowed.

(b) Noneligible persons. You may receive portions of birds or their eggs not kept for human consumption from eligible persons only if you have a valid permit issued under 50 CFR 21.27 for scientific research or education, and consistent with the terms and conditions of that permit.

§§ 92.7–92.9 [Reserved]

Subpart B—Program Structure

§ 92.10 Alaska Migratory Bird Co-management Council.
(a) Establishment. The U.S. Fish and Wildlife Service hereby establishes, as authorized by the Protocol amending the Canada Treaty, a statewide management body to be known as the Alaska Migratory Bird Co-management Council.

(b) Membership. The Co-management Council must include Alaska Native, Federal, and State of Alaska representatives, as equals.

1. The Federal and State governments will each seat one representative. The Federal representative will be appointed by the Alaska Regional Director of the U.S. Fish and Wildlife Service, and the State representative will be appointed by the Commissioner of the Alaska Department of Fish and Game. Regional partner organizations may seat 1 representative from each of the 12 regions identified in §92.11(a).

2. The Federal and State representatives and the collective Native representatives will each have one vote, for a total of three votes for the entire council.

(c) **Roles and responsibilities.** The Co-management Council is authorized to:

1. Hold public meetings for the purpose of conducting business related to spring and summer subsistence harvest of migratory birds;
2. Develop recommendations for regulations governing the spring and summer subsistence harvest of migratory birds and their eggs;
3. Develop recommendations for, among other things, law enforcement policies, population and harvest monitoring, education programs, research and use of traditional knowledge, and habitat protection;
4. Develop procedures and criteria by which areas and communities can be determined to be eligible or ineligible for a spring/summer subsistence harvest;
5. Provide guidelines to the regional management bodies each year for formulation of annual regulations;
6. Consolidate regional recommendations and resolve interregional differences in order to prepare statewide recommendations;
7. Establish committees to gather or review data, develop plans for Co-management Council actions, and coordinate programs with regional management bodies;
8. Send regional representatives from the Co-management Council to meetings of the Pacific Flyway Council and to meetings of the other Flyway Councils as needed, and to meetings of the Service Regulations Committee;
9. Elect officers; and
10. Conduct other business as the Council may determine is necessary to accomplish its purpose.

(d) **Meetings.** Meetings of the Co-management Council will be open to the public. The Co-management Council will:

1. Hold meetings at least twice annually;
2. Conduct meetings in accordance with bylaws approved by the Co-management Council;
3. Provide an opportunity at each meeting for public comment;
4. Establish the dates, times, and locations of meetings; and
5. Maintain a written record of all meetings.

(e) **Staff support.** Administrative support for the Co-management Council will be provided by the U.S. Fish and Wildlife Service and will include, but not be limited to:

1. Making arrangements for the meeting rooms and associated logistics related to Co-management Council meetings;
2. Preparing public notices announcing Co-management Council meetings;
3. Maintaining records of discussions and actions taken by the Co-management Council;
4. Coordinating with the Alaska Department of Fish and Game to provide technical information needed by the Co-management Council for its deliberations;
5. Preparing documents and gathering information needed by the Co-management Council for its meetings; and
6. Preparing the annual subpart D regulations package recommended by the Co-management Council for submission to the flyway councils and the Service Regulations Committee.

§ 92.11 Regional management areas.

(a) **Regions identified.** To allow for maximum participation by residents of subsistence eligible areas, the Alaska Regional Director of the Service established 12 geographic regions based on common subsistence resource use patterns and the 12 Alaska Native regional corporation boundaries established under the Alaska Native Claims Settlement Act. Despite using the Alaska Native regional corporation boundaries, we are not working directly with the regional corporations in this program and are instead working with the Alaska Native nonprofit groups and local governments in those corresponding regions. You may obtain records and maps delineating the boundaries of the 12 regions from the U.S. Department of the Interior, Bureau of Land Management, Alaska State Office, 222 West 7th Ave., No. 13, Anchorage, AK 99513. The regions are identified as follows:

1. Aleutian/Pribilof Islands;
2. Kodiak Archipelago;
3. Bristol Bay;
4. Bristol Bay;
