

Commodity Credit Corporation, USDA

§ 1427.21

CCC may credit to the loan repayment amount under paragraph (i) of this section:

(1) The warehouse storage rates to be used for the 2008 through 2011 crops will be the lower of:

(i) The tariff storage rate for the warehouse for the 2005 crop or, for any warehouse not in existence in 2005, a CCC-assigned average 2005 crop tariff rate for the county or area; or

(ii) For warehouses located in Arizona and California \$3.93 per bale per month and for warehouses located in all States other than Arizona and California \$2.39 per bale per month.

(2) The warehouse storage rates to be used for the 2012 and subsequent crops will be the lower of:

(i) The tariff storage rate for the warehouse for the 2005 crop or, for any warehouse not in existence in 2005, a CCC-assigned average 2005 crop tariff rate for the county or area; or

(ii) For warehouses located in Arizona and California \$3.50 per bale per month and for warehouses located in all States other than Arizona and California \$2.13 per bale per month.

(3) CCC will not credit the loan repayment amount for a bale for any storage charges that accrued while the cotton was stored outside, except that storage may be credited for up to 15-days of outside storage beginning on the day the warehouse was notified that the bale is under loan if the bale was inside on the 15th day from the date of notification.

(4) The loan period will be determined by CCC to begin:

(i) For loan disbursed by the Farm Service Agency, on the date all loan documents, as determined and announced by CCC, have been received or

(ii) For a loan disbursed by a Cooperative Marketing Association or an authorized loan servicing agent, on the date the loan was disbursed by CCC.

(i)(1) An upland cotton loan repayment rate will not exceed the loan principal plus accrued interest for the period provided in §1427.19(j).

(2) When the prevailing adjusted world price of upland cotton, as determined under §1427.25, is less than the combined value of the loan principal, accrued interest, and warehouse storage that accrued during the period of

the loan, CCC will permit the loan to be repaid at the adjusted world price less the storage charges that accrued during the period of the loan.

(j) For purposes of calculating interest charges on upland and extra long staple cotton loan principal, the loan period will be the period starting the date after the disbursement of the loan amount to, and including, the loan repayment date, except that interest is not charged for a loan that is disbursed and repaid on the same date.

(k) Repayment of loans will not be accepted after CCC acquires title to the cotton in accordance with §1427.7.

[67 FR 64459, Oct. 18, 2002, as amended at 71 FR 51428, Aug. 30, 2006; 73 FR 65721, Nov. 5, 2008]

§ 1427.20 Handling payments and collections not exceeding \$9.99.

Amounts of \$9.99 or less will be paid to the producer only at their request. Deficiencies of \$9.99 or less, including interest, may be disregarded unless CCC demands in writing that they be paid.

§ 1427.21 Settlement.

(a) The settlement of cotton loans will be made by CCC on the basis of the quality and quantity of the cotton delivered to CCC by the producer or acquired by CCC subject to the producer being responsible for, if applicable, warehouse receiving charges, new bale ties, unpaid warehouse compression, charges for and related to the certification of a bale and for any subsequent exchange of certificated receipts, storage charges for any period of yard storage, and storage charges in excess of any maximum storage credit rates as determined and announced by CCC.

(b) For purposes of settlements for cotton delivered to CCC in satisfaction of a loan obligation, CCC may elect to calculate such settlement values based on the net weight, condition, and classification as reflected on the warehouse receipt delivered to CCC, whether such receipt is the receipt issued by the original storing warehouse and presented for calculating the loan amount or a receipt issued by a subsequent warehouse due to the transfer of such bale while pledged as collateral for a CCC loan.

§ 1427.22

(c) If a producer does not pay CCC the amount due under a loan, CCC shall take title to the cotton as provided in §1427.7(b).

(d) With respect to ELS cotton which is stored as provided in §1427.10(f), settlement of loans shall be made based upon the determination of the quantity and quality made by CCC at the time of acceptance of the cotton by CCC at the warehouse designated by CCC as provided in §1427.18(k).

(e) If CCC sells the commodity described in paragraph (a) of this section in settlement of the recourse loan, the sales proceeds shall be applied to the amount owed CCC by the producer. The producer shall be responsible for any costs incurred by CCC in completing the sale and CCC will deduct the amount of these costs from the sales proceeds. When CCC sells any cotton obtained by forfeiture under a marketing assistance loan, CCC will, in all instances, retain all proceeds obtained from the sale of the cotton and will not make any payment of any amount of such proceeds to any party, including the producer who had satisfied their obligation under the loan through forfeiture of the cotton to CCC.

(f) CCC will pay to the warehouse any unpaid storage or receiving charges for forfeited loan collateral, not to exceed the amount that accrued from the date that all necessary documents were received by CCC to the loan maturity date, as soon as practicable after the cotton is forfeited.

(a) For any outstanding marketing assistance loan provided for upland cotton, a producer may purchase a commodity certificate and exchange that commodity certificate for the marketing assistance loan collateral. This provision terminates effective ending with the 2009 crop and will not be available for subsequent crops.

(b) The exchange rate is the lesser of:

- (1) The loan rate and charges, plus interest applicable to the loan, or
