

§ 1740.3

§ 1740.3 Applicant eligibility.

Eligibility for grants is limited to public television stations that serve rural areas, regardless of whether urban areas are additionally served.

§ 1740.4 Maximum amounts of grants.

The maximum grant amount shall be announced in each fiscal year's Notice of Funds Availability.

§ 1740.5 Matching funds.

No matching funds are required in this program.

§ 1740.6 Eligible purposes of grants.

Grants shall be made to enable applicants to perform digital transitions of television broadcasting serving rural areas, regardless of the location of their main transmitter. Grant funds may be used to acquire, lease, and/or install facilities and software necessary to the digital transition. Specific purposes include:

- (a) Digital transmitters, translators, and repeaters, including all facilities required to initiate DTV broadcasting. All broadcast facilities acquired with grant funds shall be capable of delivering DTV programming and HDTV programming, at both the interim and final channel and power authorizations. There is no limit to the number of transmitters or translators that may be included in an application;
- (b) Power upgrades of existing DTV transmitter equipment;
- (c) Studio-to-transmitter links;
- (d) Equipment to allow local control over digital content and programming, including master control equipment;
- (e) Digital program production equipment, including cameras, editing, mixing and storage equipment;
- (f) Multicasting and datacasting equipment;
- (g) Cost of the lease of facilities, if any, for up to three years; and
- (h) Associated engineering and environmental studies necessary to implementation.

§ 1740.7 Ineligible purposes.

- (a) Grant funds shall not be used to fund ongoing operations or for facilities that will not be owned by the ap-

7 CFR Ch. XVII (1-1-11 Edition)

plicant, except for leased facilities as provided in §1740.6.

(b) Costs of salaries, wages, and employee benefits of public television station personnel are not eligible for funding under this program unless they are for construction or installation of eligible facilities.

(c) Facilities for which other grant funding from any source has been approved are not eligible for funding under this program.

(d) Expenditures made prior to this deadline are not eligible for funding. To be an eligible grant purpose, an expenditure must be made after the application deadline specified in the Notice of Funds Available.

§ 1740.8 Scoring criteria for the grant competition.

(a) After an application is found to be eligible, it will be scored in three categories: the rurality of the applicant's core coverage area, the average National School Lunch Program eligibility ratio in the applicant's core coverage area, and the critical need for the project.

(b)(1)(i) Scoring in this program is based on a simplified representation of the project's digital coverage area. To find a transmitter's simplified coverage area, go to the FCC TV Query Web site (<http://www.fcc.gov/fcc-bin/audio/tvq.html>) and access the station Service Contour Map. This map shows coverage at the appropriate field strength in dBμ, overlaid on a Census Tiger Map. The map also shows counties covered. The core coverage area is the set of counties that are either entirely within the appropriate coverage contour, or are at least seventy-five percent (75%) within the contour. For contours where counties are very large with respect to coverage, as might be the case for some western states and for most translators, there may be only one county within the coverage contour. In such cases, this county is the station's core coverage area. Every transmitter and translator must have a core coverage area consisting of one or more counties.

(ii) In the case of translators, where a coverage contour area does not exist, the applicant shall define a coverage contour area and explain how coverage
