§ 4284.2 Policy.

It is the policy of Cooperative Services to administer grant programs as uniformly as possible to minimize unnecessary inconsistencies in the administration of the grant programs provided for in this part. The specific provisions or definitions provided in the subparts that are specific to Cooperative Services are supplemental to these general provisions. Where a specific program provision is expressly different from what is provided in this subpart, the program specific subpart shall prevail.

Examples of agricultural producers include: a logger who has a majority interest in the logs harvested that are then converted to boards, a fisherman that has a majority interest in the fish caught that are then smoked, a wild herb gatherer that has a majority interest in the gathered herbs that are then converted into essential oils, a cattle feeder that has a majority interest in the cattle that are fed, slaughtered and sold as boxed beef, and a corn grower that has a majority interest in the corn produced that is then converted into corn meal.

Independent Producers—Agricultural producers, individuals or entities (including for profit and not for profit corporations, LLCs, partnerships or LLPs), where the entities are solely owned or controlled by Agricultural Producers who own a majority ownership interest in the agricultural product that is produced. An independent producer can also be a steering committee composed of independent producers in the process of organizing an association to operate a Value-Added venture that will be owned and controlled by the independent producers supplying the agricultural product to the market. Independent Producers must produce and own the agricultural product to which value is being added.

Producers who produce the agricultural product under contract for another entity but do not own the product produced are not independent producers.

Majority-Controlled Producer-Based Business Venture—A venture where more than 50% of the ownership and control is held by Independent Producers, or, partnerships, LLCs, LLPs, corporations or cooperatives that are themselves 100 percent owned and controlled by Independent Producers.

Matching Funds—Cash or confirmed funding commitments from non-Federal sources unless otherwise provided by law. Unless otherwise provided, matching funds must be at least equal to the grant amount. Unless otherwise provided, in-kind contributions that conform to the provisions of 7 CFR 3015.50 and 7 CFR 3019.23, as applicable, can be used as matching funds. Examples of in-kind contributions include volunteer services furnished by professional and technical personnel, donated supplies and equipment, and donated office space. Matching funds must be provided in advance of grant funding, such that for every dollar of grant that is advanced, not less than an equal amount of match funds shall have been funded prior to submitting the request for reimbursement. Matching funds are subject to the same use restrictions as grant funds. Funds used for an ineligible purpose will not be considered matching funds.

Also, the economic benefit realized from the production of farm or ranch-based renewable energy. Incremental value may be realized by the producer as a result of either an increase in value to buyers or the expansion of the overall market for the product. Examples include milling wheat into flour, slaughtering livestock or poultry, making strawberries into jam, the marketing of organic products, an identity-preserved marketing system, wind or hydro power produced on land that is farmed and collecting and converting methane from animal waste to generate energy.
