§ 319.56–45  Shelled garden peas from Kenya.

Garden peas (Pisum sativum) may be imported into the continental United States from Kenya only under the following conditions and in accordance with all other applicable provisions of this subpart:

(a) The peas must be shelled from the pod.

(b) The peas must be washed in disinfectant water at 3 to 5 °C containing 50 ppm chlorine.

(c) Each shipment of peas must be accompanied by a phytosanitary certificate issued by the national plant protection organization of Kenya bearing the following additional declaration: “These peas have been shelled and washed in accordance with § 319.56–45 and have been inspected and found free of pests.”

§ 319.56–46  Mangoes from India.

Mangoes (Mangifera indica) may be imported into the continental United States from India only under the following conditions:

(a) The mangoes must be treated in India with irradiation for plant pests of the class Insecta, except pupae and adults of the order Lepidoptera in accordance with part 305 of this chapter.

(b) The risks presented by Cytosphaera mangiferae and Macrophoma mangiferae must be addressed in one of the following ways:

(1) The mangoes are treated with a broad-spectrum post-harvest fungicidal dip; or

(2) The orchard of origin is inspected prior to the beginning of harvest as determined by the mutual agreement between APHIS and the national plant protection organization (NPPO) of India and the orchard is found free of grapefruit, sweet oranges, and tangerines from Mexico in such a way as to eliminate any risk that exotic fruit flies could be disseminated into the United States, as determined by APHIS.
