

(e) The Department will implement procurement contracts, contribution agreements, cooperative agreements, and other appropriate instruments in accordance with applicable Federal acquisition or USDA Federal assistance rules and requirements for competency, quality, and selection, as appropriate. Any contract, contribution agreement, cooperative agreement, or other appropriate instrument entered into under this section will be for a minimum of one year, will not exceed 3 years in duration, and may be renewed upon mutual agreement of the parties.

(f) A TSP may not receive payment twice for the same technical service, such as once from a participant through a program contract or written agreement and then again through a separate contract or agreement made directly with the Department.

(g) The Department will, to the extent practicable, ensure that the amounts paid for technical service under this part are consistent across conservation program areas, unless specific conservation program requirements include additional tasks.

§ 652.7 Quality assurance.

(a) NRCS will review, in consultation with the Farm Service Agency, as appropriate, the quality of the technical services provided by TSPs. As a requirement of certification, TSPs must develop and maintain documentation in accordance with Departmental manuals, handbooks, and technical guidance for the technical services provided, and provide this documentation to NRCS and the participant when the particular technical service is completed. NRCS may utilize information obtained through its quality assurance process, documentation submitted by the TSP, and other relevant information in determining how to improve the quality of technical service, as well as determining whether to decertify a TSP under subpart C of this part.

(b) Upon discovery of a deficiency in the provision of technical service through its quality assurance process or other means, NRCS will, to the greatest extent practicable, send a notice to the TSP detailing the deficiency and requesting remedial action by the TSP. Failure by the TSP to

promptly remedy the deficiency, or the occurrence of repeated deficiencies in providing technical services, may trigger the decertification process set forth in subpart C of this part. A failure by NRCS to identify a deficiency does not affect any action under the decertification process. TSPs are solely responsible for providing technical services that meet all NRCS standards and specifications.

Subpart B—Certification

§ 652.21 Certification criteria and requirements.

(a) To qualify for certification an individual must:

(1) Have the required technical training, education, and experience to perform the level of technical assistance for which certification is sought;

(2) Meet any applicable professional or business licensing or similar qualification standards established by State or Tribal law;

(3) Demonstrate, through documentation of training or experience, familiarity with NRCS guidelines, criteria, standards, and specifications as set forth in the applicable NRCS manuals, handbooks, field office technical guides, and supplements thereto for the planning and applying of specific conservation practices and management systems for which certification is sought; and

(4) Not be decertified in any State under subpart C of this part at the time of application for certification.

(b) To qualify for certification an entity or public agency must be authorized to provide such services in the jurisdiction and have a certified individual providing, in accordance with this part, technical services on its behalf.

(c) A technical service provider, as part of the certification by NRCS, must enter into a Certification Agreement with NRCS specifying the terms and conditions of the certification, including adherence to the requirements of this part, and acknowledging that failure to meet these requirements may result in ineligibility to receive payments from the Department, either directly or through the participant, for
