

Agricultural Marketing Service, USDA

§ 981.49

or be in the public interest. In such crop year, no handler shall handle or process almonds into manufactured items or products unless they meet the applicable requirements as evidenced by certification acceptable to the Board. The Board may, with the approval of the Secretary, establish different outgoing quality requirements for different markets. The Board, with the approval of the Secretary, may establish rules and regulations necessary and incidental to the administration of this provision.

[41 FR 26853, June 30, 1976, as amended at 41 FR 53651, Dec. 8, 1976; 73 FR 45156, Aug. 4, 2008]

§ 981.43 Marking or labeling of containers.

The Board may, with the approval of the Secretary, establish regulations to require handlers to mark or label their containers that are used in packaging or handling of bulk almonds. For purposes of this section, *container* means a box, bin, bag, carton, or any other type of receptacle used in the packaging or handling of bulk almonds.

[73 FR 45156, Aug. 4, 2008]

VOLUME REGULATION

§ 981.45 General.

In order to effectuate the declared policy of the act, no handler shall handle almonds except in accordance with the terms and conditions of this part.

§ 981.46 Withholding reserve.

When a reserve percentage has been fixed for any crop year, as hereinafter provided, no handler shall handle almonds except on condition that he comply with the requirements in respect to withholding reserve almonds and the prescribed disposition thereof.

§ 981.47 Method of establishing salable and reserve percentages.

Whenever the Secretary finds, from the recommendations and supporting information supplied by the Board or from any other available information, that to designate the percentages of almonds during any crop year which shall be salable almonds and reserve almonds would tend to effectuate the declared policy of the act, he shall des-

ignate such percentages. Except as provided in § 981.50 the salable and reserve percentages shall each be applied to the kernel weight of almonds received by a handler for his own account during the crop year. In establishing such salable and reserve percentages, the Secretary shall give consideration to the ratio of estimated trade demand (domestic plus export, less the handler carryover available to satisfy trade demand plus the desirable handler carryover at the end of the crop year) to the estimated production of marketable almonds (all expressed in terms of kernel weight) or the allocation quantity (marketable production plus almonds diverted to oil or feed when eligible for reserve satisfaction) whichever is applicable; the recommendation submitted to him by the Board; and such other information as he deems appropriate. The total of the salable and reserve percentages established each crop year shall equal 100 percent.

[41 FR 26853, June 30, 1976, as amended at 61 FR 32921, June 26, 1996]

§ 981.48 Increase of salable percentage.

Upon request filed prior to May 15 by the Board or, if the Board should fail to request, by two or more handlers who have handled at least 15 percent of all almonds handled in the preceding crop year, and after findings of fact (based upon a revision of the estimates required under § 981.49 and other pertinent information) that the quantity of salable almonds is not sufficient to satisfy trade demand and desirable carryover requirements for the crop year, the Secretary may increase the salable percentage. Such findings shall be made in the manner specified in § 981.47.

§ 981.49 Board estimates and recommendations.

To aid the Secretary in fixing the salable and reserve percentages, the Board shall furnish to the Secretary, not later than August 1, the following estimates (kernel weight basis) and recommendations for the crop year, each of which, or any later revisions thereof, shall be adopted by the affirmative vote of at least six members:

(a) The quantity of marketable almonds to be produced;

§ 981.50

(b) The estimated handler carryover and the estimated reserve inventory as of July 31;

(c) The desirable handler carryover and the probable reserve inventory at the end of the crop year;

(d) The trade demand, taking into consideration anticipated imports, economic conditions and the anticipated market price (within the limitations of the act); and

(e) The recommended salable and reserve percentages to be established.

The Board shall also furnish to the Secretary a complete report of the proceedings of the Board meeting at which the recommended salable and reserve percentages were considered. If, for any reason, the Board fails to make these estimates or to recommend to the Secretary salable and reserve percentages as required hereby, reports representing the views of members with respect to such matters may be submitted to the Secretary who may act on the basis of such reports or other information available to him.

[35 FR 11372, July 16, 1970, as amended at 41 FR 26853, June 30, 1976; 61 FR 32921, June 26, 1996]

§ 981.50 Reserve obligation.

Whenever salable and reserve percentages are in effect for a crop year, each handler shall withhold from handling a quantity of almonds having a kernel weight equal to the reserve percentage of the kernel weight of all almonds such handler receives for his own account during the crop year: *Provided*, That, any quantity of almonds delivered to outlets such as poultry or animal feed or crushing into oil, in a manner permitting accountability to the Board, shall not be included in such receipts. The quantity of almonds hereby required to be withheld from handling shall constitute, and may be referred to as the "reserve" or "reserve obligation" of a handler. The almonds handled as salable almonds by any handler, in accordance with the provisions of this part, shall be deemed to be that handler's quota fixed by the Secretary within the meaning of section 8a(5) of the act.

[41 FR 26853, June 30, 1976]

7 CFR Ch. IX (1-1-11 Edition)

§ 981.51 Requirements for reserve.

Each handler may satisfy his reserve obligation with such almonds specified in the terms of the agency agreement authorized in § 981.67, including all applicable inspection and certification requirements. Any handler who does not become an agent may receive credit by similarly delivering almonds to the Board or its designees. These requirements may be established by the Board, with the approval of the Secretary, and from time to time so modified, and may include grade requirements for reserve almonds delivered to human consumption outlets.

[41 FR 26853, June 30, 1976]

§ 981.52 Holding requirement and delivery.

Each handler shall, at all times, hold in his possession or under his control, in proper storage for the account of the Board, the quantity of almonds necessary to meet his reserve obligation less: (a) Any quantity which was disposed of by him pursuant to § 981.67; and (b) any quantity for which he is otherwise relieved by the Board of responsibility to so hold almonds. Upon demand of the Board reserve almonds shall be delivered to the Board f.o.b. handler's warehouse or point of storage, except that the Board shall not make such demand upon a handler with respect to reserve almonds for which he has agreed to undertake disposition pursuant to § 981.67. Any handler who does not act as agent for the Board in the disposition of reserve almonds shall be subject to the applicable inspection and certification requirements prescribed by the Board pursuant to § 981.67.

[41 FR 26853, June 30, 1976]

§ 981.54 Payment to handlers for services rendered.

The Board may pay handlers for necessary services rendered by them in connection with almonds eventually disposed of directly by the Board as reserve including but not limited to storing, shelling, sorting, bleaching, grading, packaging, fumigating, and other
