

Agricultural Marketing Service, USDA

§ 983.53

MARKETING POLICY

§ 983.47 Marketing policy.

Prior to August 1st each year, the committee shall prepare and submit to the Secretary a report setting forth its recommended marketing policy covering quality regulations for the pending crop. In the event it becomes advisable to modify such policy, because of changed crop conditions, the committee shall formulate a new policy and shall submit a report thereon to the Secretary. In developing the marketing policy, the committee shall give consideration to the production, harvesting, processing and storage conditions of that crop. The committee may also give consideration to current prices being received and the probable general level of prices to be received for pistachios by producers and handlers. Notice of the committee's marketing policy, and of any modifications thereof, shall be given promptly by reasonable publicity, to producers and handlers.

[69 FR 17850, Apr. 4, 2004. Redesignated at 74 FR 56541, Nov. 2, 2009]

REGULATIONS

§ 983.50 Aflatoxin regulations.

The committee shall establish, with the approval of the Secretary, such aflatoxin sampling, analysis, and inspection requirements applicable to pistachios to be shipped for domestic human consumption as will contribute to orderly marketing or be in the public interest. No handler shall ship, for human consumption, pistachios that exceed an aflatoxin level established by the committee with approval of the Secretary. All domestic shipments must be covered by an aflatoxin inspection certificate.

[74 FR 56541, Nov. 2, 2009]

§ 983.51 Quality regulations.

For any production year, the committee may establish, with the approval of the Secretary, such quality and inspection requirements applicable to pistachios to be shipped for domestic human consumption as will contribute to orderly marketing or be in the public interest. In such production year,

no handler shall ship pistachios for domestic human consumption unless they meet the applicable requirements as evidenced by certification acceptable to the committee.

[74 FR 56541, Nov. 2, 2009]

§ 983.52 Failed lots/rework procedure.

(a) *Substandard pistachios.* Each lot of substandard pistachios may be reworked to meet aflatoxin or quality requirements. The committee may establish, with the Secretary's approval, appropriate rework procedures.

(b) *Failed lot reporting.* If a lot fails to meet the aflatoxin and/or the quality requirements of this part, a failed lot notification report shall be completed and sent to the committee within 10 working days of the test failure. This form must be completed and submitted to the committee each time a lot fails either aflatoxin or quality testing. The accredited laboratories shall send the failed lot notification reports for aflatoxin tests to the committee, and the handler, under the supervision of an inspector, shall send the failed lot notification reports for the lots that do not meet the quality requirements to the committee.

[74 FR 56542, Nov. 2, 2009]

§ 983.53 Testing of minimal quantities.

(a) *Aflatoxin.* Handlers who handle less than 1 million pounds of assessed weight per year have the option of utilizing both of the following methods for testing for aflatoxin:

(1) The handler may have an inspector sample and test his or her entire inventory of hulled and dried pistachios for the aflatoxin certification before further processing.

(2) The handler may segregate receipts into various lots at the handler's discretion and have an inspector sample and test each specific lot. Any lots that are found to have less aflatoxin than the level established by the committee and approved by the Secretary can be certified by an inspector to be negative as to aflatoxin. Any lots that are found to have aflatoxin exceeding the level established by the committee and approved by the Secretary may be tested after reworking in the same manner as specified in § 983.50.
