

§ 984.49

(7) Its recommendation of the percentage of reserve walnuts that may be exported pursuant to §984.56, when it determines that the quantity of reserve walnuts that may be exported should be limited;

(8) Its opinion as to whether grower prices are likely to exceed parity; and

(9) Its recommendation for change, if any, in grade and size regulations.

(b) [Reserved]

[39 FR 35330, Oct. 1, 1974; 39 FR 35999, Oct. 7, 1974, as amended at 41 FR 31543, July 29, 1976; 73 FR 11339, Mar. 3, 2008]

§ 984.49 Volume regulation.

(a) *Free, reserve, and export percentages.* Whenever the Secretary finds, on the basis of the Board's recommendation or other information, that limiting the quantity of walnuts that may be handled in domestic markets for merchantable free walnuts during a marketing year will tend to effectuate the declared policy of the act, he shall establish a free percentage to prescribe the portion of such walnuts which may be handled as free walnuts, and a reserve percentage to prescribe the portion that must be withheld as reserve walnuts. Whenever the Board recommends an export percentage pursuant to §984.48(a)(7), the Secretary shall establish a percentage if he finds it would tend to effectuate the declared policy of the act.

(b) *Revision of percentages.* (1) On or before February 15 of the marketing year, the Board may recommend that the free percentage be increased and the reserve percentage be decreased. On the basis of the Board's recommendation or other information the Secretary may establish such revisions. If the reserve percentage is reduced when an export percentage is in effect, an increase shall be made in the export percentage so that the quantity previously authorized for export will not be reduced. If the revised reserve quantity is less than the quantity previously authorized for export the export percentage shall be 100 percent. Upon revision, all reserve obligations that are theretofore accrued on merchantable walnuts certified during such year on the basis of the previously effective percentages shall be adjusted accordingly.

7 CFR Ch. IX (1-1-11 Edition)

(2) Any time prior to July 1, the Board may recommend an increase in the export percentage, if it finds that there is an insufficient volume of reserve walnuts available for export and additional demand exists, which would not adversely affect the disposition of the oncoming crop. On the basis of the Board's recommendation or other information, the Secretary may establish such revision.

[41 FR 31543, July 29, 1976]

EFFECTIVE DATE NOTE: At 60 FR 40064, Aug. 7, 1995, in §989.49, in paragraph (b)(1), the words "On or before February 15 of the marketing year," were suspended.

QUALITY CONTROL

§ 984.50 Grade, quality and size regulations.

(a) *Minimum standard for inshell walnuts.* Except as provided in §984.64, no handler shall handle inshell walnuts unless such walnuts are equal to or better than the requirements of U.S. No. 2 grade and baby size as defined in the then effective United States Standards for Walnuts (*Juglans regia*) in the Shell. This minimum standard may be modified by the Secretary on the basis of a Board recommendation or other information.

(b) *Minimum standard for shelled walnuts.* Except as provided in §984.64, no handler shall handle shelled walnuts unless such walnuts are equal to or better than the requirements of the U.S. Commercial grade as defined in the then effective United States Standards for Shelled Walnuts (*Juglans regia*) and the minimum size shall be pieces not more than 5 percent of which will pass through a round opening $\frac{5}{64}$ inch in diameter. This minimum standard may be modified by the Secretary on the basis of a Board recommendation or other information.

(c) *Effective period.* The minimum standards established pursuant to paragraphs (a) and (b) of this section and the provisions of this part relating to the administration thereof, shall continue in effect irrespective of whether the season average price for walnuts is above the parity level specified in section 2(1) of the Act.

Agricultural Marketing Service, USDA

§ 984.52

(d) *Additional grade, size or other quality regulation.* The Board may recommend to the Secretary additional grade, size or other quality regulations, and may also recommend different regulations for different market destinations. If the Secretary finds on the basis of such recommendation or other information that such additional regulations would tend to effectuate the declared policy of the Act, he or she shall establish such regulations.

(e) *Minimum requirements for reserve.* The Board, with the approval of the Secretary, may specify the minimum kernel content and related requirements for any lot of walnuts acceptable for disposition for credit against a reserve obligation: *Provided*, That reserve walnuts exported must meet the requirements of paragraph (a) of this section if inshell, or paragraph (b) of this section if shelled.

[27 FR 9094, Sept. 13, 1962, as amended at 39 FR 35330, Oct. 1, 1974; 41 FR 31543, July 29, 1976; 73 FR 11339, Mar. 3, 2008]

§ 984.51 Inspection and certification of inshell and shelled walnuts.

(a) Before or upon handling of any walnuts for use as free or reserve walnuts, each handler at his or her own expense shall cause such walnuts to be inspected to determine whether they meet the then applicable grade and size regulations. Such inspection shall be performed by the inspection service or services designated by the Board with the approval of the Secretary; *Provided*, That if more than one inspection service is designated, the functions performed by each service shall be separate, and shall not duplicate each other. Handlers shall obtain a certificate for each inspection and cause a copy of each certificate issued by the inspection service to be furnished to the Board. Each certificate shall show the identity of the handler, quantity of walnuts, the date of inspection, and for inshell walnuts the grade and size of such walnuts as set forth in the United States Standards for Walnuts (*Juglans regia*) in the Shell. Certificates covering reserve shelled walnuts for export shall also show the grade, size, and color of such walnuts as set forth in the United States Standards for Shelled Walnuts (*Juglans regia*). The

Board, with the approval of the Secretary, may prescribe procedures for the administration of this provision.

(b) Inshell merchantable walnuts certified shall be converted to the kernelweight equivalent at 45 percent of their inshell weight. This conversion percentage may be changed by the Board with the approval of the Secretary.

(c) Upon inspection, all walnuts for use as free or reserve walnuts shall be identified by tags, stamps, or other means of identification prescribed by the Board and affixed to the container by the handler under the supervision of the Board or of a designated inspector and such identification shall not be altered or removed except as directed by the Board. The assessment requirements in §984.69 shall be incurred at the time of certification.

(d) Whenever the Board determines that the length of time in storage or conditions of storage of any lot of merchantable walnuts which has been previously inspected have been or are such as normally to cause deterioration, such lot of walnuts shall be reinspected at the handler's expense and recertified as merchantable prior to shipment.

[39 FR 35330, Oct. 1, 1974, as amended at 41 FR 31543, July 29, 1976; 73 FR 11339, Mar. 3, 2008]

§ 984.52 Processing of shelled walnuts.

(a) No handler shall slice, chop, grind, or in any manner change the form of shelled walnuts unless such walnuts have been certified as merchantable or unless such walnuts meet quality regulations established under §984.50(d) if such regulations are in effect.

(b) Any lot of shelled walnuts which, upon inspection, fails to meet the minimum standard effective pursuant to §984.50 solely due to excess shriveling may be certified for processing provided that the total amount of shrivel does not exceed 20 percent, by weight, of the lot. All such walnuts must be reinspected after processing and shall be certified as merchantable if the processed material meets the effective minimum standard. The provisions of this paragraph may be modified by the Secretary, upon recommendation of the Board or other information.
