The Committee shall store reserve oil for the account of the producer and maintain the identity of the reserve oil by producer's name, the year produced, the class of oil, and such other identification as may be used in normal commercial trade practices. The Committee shall designate a Committee employee as reserve pool manager.

The Committee shall approve the producer's request if the oil is still available at the time of the request.

(3) Under supervision of the Committee, a producer may exchange salable oil for the same class and quantity of reserve oil from own production so long as the oil is properly identified.
