§ 923.55 Full participation by State and local governments, interested parties, and the general public.

The management program must be developed and adopted with the opportunity of full participation by state governments, local governments, regional commissions and organizations, port authorities, and other interested public and private entities. To meet this requirement, a State must:

(a) Develop and make available general information regarding the program design, its content and its status throughout the program development;

(b) Provide a listing, as comprehensive as possible, of all governmental agencies, regional organizations, port authorities and public and private organizations likely to be affected by or to have a direct interest in the development and implementation of the management program;

(c) Indicate the nature of major comments received from interested or affected parties, identified in paragraph (b)(2) of this section, and the nature of the State’s response to these comments; and

(d) Hold public meetings, workshops, etc., during the course of program development at accessible locations and convenient times, with reasonable notice and availability of materials.

§ 923.56 Plan coordination.

(a) The management program must be coordinated with local, areawide, and interstate plans applicable to areas within the coastal zone—

(1) Existing on January 1 of the year in which the state’s management program is submitted to the Secretary; and

(2) Which have been developed by a local government, an areawide agency, a regional agency, or an interstate agency.

(b) A State must ensure that the contents of its management program has been coordinated with local, areawide and interstate plans applicable to areas within the coastal zone existing on January 1 of the year in which the State’s management program is submitted to the Assistant Administrator for approval. To document this coordination, the management program must:

(1) Identify local governments, areawide agencies and regional or interstate agencies which have plans affecting the coastal zone in effect on January 1 of the year in which the management program is submitted;
(2) List or provide a summary of contacts with these entities for the purpose of coordinating the management program with plans adopted by a governmental entity as of January 1 of the year in which the management program is submitted. At a minimum, the following plans, affecting a State coastal zone, shall be reviewed: Land use plans prepared pursuant to section 701 of the Housing and Urban Development Act of 1968, as amended; State and areawide waste treatment facility or management plans prepared pursuant to sections 201 and 208 of the Clean Water Act, as amended; plans and designations made pursuant to the National Flood Insurance Act of 1968, as amended, and the Flood Disaster Protection Act of 1973, as amended; hazard mitigation plans prepared pursuant to section 409 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act; any applicable interstate energy plans or programs developed pursuant to section 309 of the Act; regional and interstate highway plans; plans developed by Regional Action Planning Commission; and fishery management plans developed pursuant to the Fisheries Conservation and Management Act.

(3) Identify conflicts with those plans of a regulatory nature that are unresolved at the time of program submission and the means that can be used to resolve these conflicts.

§ 923.57 Continuing consultation.

(a) As required by subsection 306(d)(3)(B) of the Act, a State must establish an effective mechanism for continuing consultation and coordination between the management agency designated pursuant to paragraph (6) of section 306(d) of the Act and with local governments, interstate agencies, regional agencies, and areawide agencies within the coastal zone to assure the full participation of those local governments and agencies in carrying out the purposes of this Act.

(b) The management program must establish a procedure whereby local governments with zoning authority are notified of State management program decisions which would conflict with any local zoning ordinance decision.

(1) “Management program decision” refers to any major, discretionary policy decisions on the part of a management agency, such as the determination of permissible land and water uses, the designation of areas or particular concern or areas for preservation or restoration, or the decision to acquire property for public uses. Regulatory actions which are taken pursuant to these major decisions are not subject to the State-local consultation mechanisms. A State management program decision is in conflict with a local zoning ordinance if the decision is contradictory to that ordinance. A State management program decision that consists of additional but not contradictory requirements is not in conflict with a local zoning ordinance, decision or other action;

(2) “Local government” refers to these defined in section 304(11) of the Act which have some form of zoning authority.

(3) “Local zoning ordinance, decision or other action” refers to any local government land or water use action which regulates or restricts the construction, alteration of use of land, water or structures thereon or thereunder. These actions include zoning ordinances, master plans and official maps. A local government has the right to comment on a State management program decision when such decision conflicts with the above specified actions;

(4) Notification must be in writing and must inform the local government of its right to submit comments to the State management agency in the event the proposed State management program decision conflicts with a local zoning ordinance, decision or other action. The effect of providing such notice is to stay State action to implement its management decision for at least a 30-day period unless the local government waives its right to comment.

(5) “Waiver” of the right of local government to comment (thereby permitting a State agency to proceed immediately with implementation of the management program decision) shall result:
