

(2) Individuals with disabilities who are members of the public seeking information or services from the Commission to have access to and use of information and data that is comparable to the access to and use of the information and data by members of the public who are not individuals with disabilities.

(b) When the development, procurement, maintenance, or use of electronic and information technology that meets the standards published by the Architectural and Transportation Barriers Compliance Board pursuant to section 508(a)(2) of the Rehabilitation Act of 1973, as amended, would impose an undue burden on the Commission, the Commission shall provide individuals with disabilities covered by paragraph (a) of this section with the information and data involved by an alternative means of access that allows such individuals to use the information and data.

(c) This section shall not apply to any matter legally exempted by section 508, by the standards referenced in paragraph (b) of this section, or by other applicable law or regulation. Nothing in this section shall be construed to limit any right, remedy, or procedure otherwise available under any provision of federal law (including sections 501 through 505 of the Rehabilitation Act of 1973, as amended) that provides greater or equal protection for the rights of individuals with disabilities than section 508.

[66 FR 51863, Oct. 11, 2001]

§§ 6.153-6.159 [Reserved]

§ 6.160 Communications.

(a) The Commission shall take appropriate steps to ensure effective communication with applicants, participants, personnel of other Federal entities, and members of the public.

(1) The Commission shall furnish appropriate auxiliary aids where necessary to afford an individual with handicaps an equal opportunity to participate in, and enjoy the benefits of, a program or activity conducted by the Commission.

(i) In determining what type of auxiliary aid is necessary, the Commission shall give primary consideration to the

requests of the individual with handicaps.

(ii) The Commission need not provide individually prescribed devices, readers for personal use or study, or other devices of a personal nature.

(2) Where the Commission communicates with applicants and beneficiaries by telephone, telecommunication devices for deaf persons (TDD's), or equally effective telecommunication systems shall be used.

(b) The Commission shall ensure that interested persons, including persons with impaired vision or hearing, can obtain information as to the existence and location of accessible services, activities, and facilities.

(c) The Commission shall provide signs at a primary entrance to each of its inaccessible facilities, directing users to a location at which they can obtain information about accessible facilities. The international symbol for accessibility shall be used at each primary entrance of an accessible facility.

(d) This section does not require the Commission to take any action that it can demonstrate would result in a fundamental alteration in the nature of a program or activity, or in undue financial and administrative burdens. In those circumstances where Commission personnel believe that the proposed action would fundamentally alter the program or activity or would result in undue financial and administrative burdens, the Commission has the burden of proving that compliance with § 6.160 would result in such alteration or burdens. The decision that compliance would result in such alteration or burdens must be made by the Chairman or his or her designee after considering all Commission resources available for use in the funding and operation of the conducted program or activity, and must be accompanied by a written statement of the reasons for reaching that conclusion. If an action required to comply with this section would result in such an alteration or such burdens, the Commission shall take any other action that would not result in such an alteration or burdens but would nevertheless ensure that, to

the maximum extent possible, individuals with handicaps receive the benefits and services of the program or activity.
