§ 1406.1 Scope, purpose, and effective date.

(a) Scope. This part 1406 requires manufacturers, including importers, of

CAUTION

Potential Fire Hazard: Keep cellulose insulation at least three inches away from the sides of recessed light fixtures. Do not place insulation over such fixtures so as to entrap heat.

Also keep this insulation away from exhaust flues of furnaces, water heaters, space heaters, or other heat-producing devices.

To be sure that insulation is kept away from light fixtures and flues, use a barrier to permanently maintain clearance around these areas. Check with local building or fire officials for guidance on installation and barrier requirements.

Request to Installer: Remove this label and give it to the consumer at completion of job.

Manufacturers of cellulose insulation may substitute the phrase “TO HELP AVOID FIRE” for the phrase “POTENTIAL FIRE HAZARD” in the label described above. Manufacturers may also delete the word “cellulose from the first sentence of the label and may delete the word “this” from the third sentence of the label. The remainder of the label statement shall appear exactly as described above.

(b) The labeling statement required by §1404.4(a) shall appear prominently and conspicuously on the container. The word “CAUTION” shall appear in capital letters at least one-fourth inch in height. The words “POTENTIAL FIRE HAZARD” and “REQUEST TO INSTALLER” shall appear in capital letters at least three-sixteenths inch in height. The remainder of the statement shall appear in capital letters at least three-sixteenths inch in height, with lower case letters in corresponding proportion but at least one-eighth inch in height. The labeling statement shall be enclosed within a rectangle formed with lines at least one-sixteenth inch in width. The labeling statement shall be printed with legible type in a color which contrasts with the background on which the statement is printed.

(c) To meet this requirement, manufacturers may use any type of label, including one which is pressure sensitive or glued-on, provided the label is made in such a manner that it will remain attached to the container for the expected time interval between the manufacture of the product and its installation.

PART 1406—COAL AND WOOD BURNING APPLIANCES—NOTIFICATION OF PERFORMANCE AND TECHNICAL DATA

Sec.
1406.1 Scope, purpose, and effective date.
1406.2 Background.
1406.3 Definitions.
1406.4 Requirements to provide performance and technical notice to prospective purchasers and purchasers.
1406.5 Performance and technical data to be furnished to the Commission.
