necessary for improvement to sound working condition;

(m) *Remanufactured good.* “Remanufactured good” means an industrial good that is assembled in the territory of a Party and that:

(1) Is entirely or partially comprised of recovered goods;

(2) Has a similar life expectancy to, and meets the similar performance standards as, a like good that is new; and

(3) Enjoys the factory warranty similar to that of a like good that is new;

(n) *Simple combining or packaging operations.* “Simple combining or packaging operations” means operations such as adding batteries to electronic devices, fitting together a small number of components by bolting, gluing, or soldering, or packing or repacking components together;

§ 10.770 Originating goods.

(a) General. A good will be considered an originating good under the MFTA when imported directly from the territory of a Party into the territory of the other Party only if:

(1) The good is wholly the growth, product, or manufacture of one or both of the Parties;

(2) The good is a new or different article of commerce, as defined in § 10.769(i) of this subpart, that has been grown, produced, or manufactured in the territory of one or both of the Parties, is provided for in a heading or subheading of the HTSUS that is not covered by the product-specific rules set forth in General Note 27(h), HTSUS, and meets the value-content requirement specified in paragraph (b) of this section; or

(3) The good is provided for in a heading or subheading of the HTSUS covered by the product-specific rules set forth in General Note 27(h), HTSUS, and:

(i) Each of the non-originating materials used in the production of the good undergoes an applicable change in tariff classification specified in General Note 27(h), HTSUS, as a result of production occurring entirely in the territory of one or both of the Parties; or

(ii) The good otherwise satisfies the requirements specified in General Note 27, HTSUS.

(b) Value-content requirement. A good described in paragraph (a)(2) of this section will be considered an originating good under the MFTA only if the sum of the value of materials produced in one or both of the Parties, plus the direct costs of processing operations (see §10.774 of this subpart) performed in one or both of the Parties, is not less than 35 percent of the appraised value of the good at the time the good is entered into the territory of the United States.

(c) Combining, packaging, and diluting operations. For purposes of this subpart, a good will not be considered a new or different article of commerce by virtue of having undergone simple combining or packaging operations, or mere dilution with water or another substance that does not materially alter the characteristics of the good. The principles and examples set forth in §10.195(a)(2) of this part will apply equally for purposes of this paragraph.

§ 10.771 Textile or apparel goods.

(a) *De minimis.* Except as provided in paragraph (a)(1) of this section, a textile or apparel good that is not an originating good under the MFTA because certain fibers or yarns used in the production of the component of the good determines the tariff classification of the good do not undergo an applicable change in tariff classification set out in General Note 27(h), HTSUS, will be considered to be an originating good if the total weight of all such fibers is not more than seven percent of the total weight of that component.

(1) Exception. A textile or apparel good containing elastomeric yarns in the component of the good that determines the tariff classification of the good will be considered to be an originating good only if such yarns are
