STANDARDS FOR THE TYPE OF REFERRAL AND FOR REPORT CONTENT

§ 404.1519f Type of purchased examinations.

We will purchase only the specific examinations and tests we need to make a determination in your claim. For example, we will not authorize a comprehensive medical examination when the only evidence we need is a special test, such as an X-ray, blood studies, or an electrocardiogram.

[56 FR 36956, Aug. 1, 1991]

§ 404.1519g Who we will select to perform a consultative examination.

(a) We will purchase a consultative examination only from a qualified medical source. The medical source may be your own physician or psychologist, or another source. If you are a child, the medical source we choose may be a pediatrician. For a more complete list of medical sources, see § 404.1513.

(b) By "qualified," we mean that the medical source must be currently licensed in the State and have the training and experience to perform the type of examination or test we will request; the medical source must not be barred from participation in our programs under the provisions of § 404.1503a. The medical source must also have the equipment required to provide an adequate assessment and record of the existence and level of severity of your alleged impairments.

(c) The medical source we choose may use support staff to help perform the consultative examination. Any such support staff (e.g., X-ray technician, nurse) must meet appropriate licensing or certification requirements of the State. See § 404.1503a.
