Subpart Y—Hawaii

§ 1952.310 Description of the plan as initially approved.

(a) The plan designates the Department of Labor and Industrial Relations as the agency responsible for administering the plan throughout the State. It proposes to define the occupational safety and health issues covered by it as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1). The law as enacted gives the Department of Labor and Industrial Relations the authority to inspect workplaces and to issue citations for the abatement of violations and there is also included a prohibition against advance notice of such inspections. The law is also intended to insure employer and employee representatives an opportunity to accompany inspectors and to call attention to possible violations;

notification of employees or their representatives when no compliance action is taken as a result of alleged violations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets. There is provision made for the prompt restraint of imminent danger situations and a system of penalties for violation of the law.

(c) The plan also includes proposed amendments to be considered by the Hawaii Legislature during its 1974 session amending the Occupational Safety and Health Law, and related provisions, to bring them into conformity with the requirements of part 1902.
