Final reports will be made only after the property has been determined excess to the needs of the Department of Defense, in accordance with §§ 644.333 through 644.339, and has been cleared with congressional committees, if required, in accordance with §§ 644.340 through 644.347.

Minerals in the lands will be specifically excluded from the report of excess unless BLM advises otherwise. The Report of Excess, SF 118, will include as a part of the report on the Government's legal title, a true copy of the notice by BLM to report the property excess, and information of record in BLM on claims, if any, by other agencies, and any claims or encumbrances under the public land laws.

The types of property described in paragraphs (a), (b), and (c) of this section must be reported to GSA for screening purposes notwithstanding the fact that the military departments have been delegated authority to dispose of such property. SF 118 will be utilized for reporting these types of property without attaching the usual Schedules A, B, and C and supporting documents. A notice should be included on the face sheet that "This report is made for screening purposes only. Disposal will be accomplished by the Corps of Engineers."
