The Privacy Act requires these systems to have a Privacy Act system notice published in the Federal Register that covers the information collection before collection begins. In addition, all information systems subject to the Privacy Act will have warning banners displayed on the first screen (at a minimum) to assist in safeguarding the information. Use the following language for the banner: “PRIVACY ACT INFORMATION—The information accessed through this system is FOR OFFICIAL USE ONLY and must be protected in accordance with the Privacy Act and Air Force Instruction 33–332.”

(a) The Privacy Impact Assessment addresses what information is to be collected; why the information is being collected; the intended use of the information; with whom the information will be shared; what notice or opportunities for the individual to decline or consent to providing the information collected, and how that information is shared; secured; and whether a system of records is being created, or an existing system is being amended. The E-Government Act of 2002 requires Privacy Impact Assessments to be conducted before:

(1) Developing or procuring information technology systems or projects that collect, maintain, or disseminate information in identifiable form from or about members of the public.

(2) Initiating a new electronic collection of information in identifiable form for 10 or more persons excluding agencies, instrumentalities, or employees of the Federal Government.

(b) In general, Privacy Impact Assessments are required to be performed and updated as necessary where a system change creates new privacy risks.

(c) No Privacy Impact Assessment is required where information relates to internal government operations, has been previously assessed under an evaluation similar to a Privacy Impact Assessment, or where privacy issues are unchanged.

(d) The depth and content of the Privacy Impact Assessment should be appropriate for the nature of the information to be collected and the size and complexity of the information technology system.

(e) The system owner will conduct a Privacy Impact Assessment as outlined in appendix E to this part and send it to their Major Command Privacy Act office for review and final approval by the Major Command or Headquarters Air Force Functional Chief Information Officer.
