

## § 855.15

(ii) Landed for a purpose not approved on the DD Form 2401.

(iii) Operated an aircraft not of a model or registration number on the approved DD Form 2401.

(iv) Did not request or obtain the required final approval from the installation commander or a designated representative at least 24 hours before aircraft arrival.

(v) Did not obtain landing clearance from the air traffic control tower.

(vi) Landed with an expired DD Form 2401.

(vii) Obtained landing authorization through fraudulent methods, or

(viii) Landed after having been denied a request to land from any Air Force authority, including the control tower.

(2) Normal landing fees and an unauthorized landing fee must be charged. Intentional unauthorized landings increase reporting, processing, and staffing costs; therefore, the unauthorized landing fee for paragraph (d)(1)(i) through (d)(1)(vi) of this section will be increased by 100 percent. The unauthorized landing fee will be increased 200 percent for paragraph (d)(1)(vii) and (d)(1)(viii) of this section.

(3) Intentional unauthorized landings may be prosecuted as a criminal trespass, especially if a debarment letter has been issued. Repeated intentional unauthorized landings prejudice the user's FAA operating authority and jeopardize future use of Air Force airfields.

### § 855.15 Detaining an aircraft.

(a) An installation commander in the United States, its territories, or its possessions may choose to detain an aircraft for an intentional unauthorized landing until:

(1) The unauthorized landing has been reported to the FAA, HQ USAF/XOOBC, and the appropriate US Attorney.

(2) All applicable charges have been paid.

(b) If the installation commander wishes to release the aircraft before the investigation is completed, he or she must obtain bond, promissory note, or other security for payment of the highest charge that may be assessed.

## 32 CFR Ch. VII (7-1-12 Edition)

(c) The pilot and passengers will not be detained longer than is necessary for identification, although they may be permitted to remain in a lounge or other waiting area on the base at their request for such period as the installation commander may determine (normally not to exceed close of business hours at the home office of the entity owning the aircraft, if the operator does not own the aircraft). No person, solely due to an intentional unauthorized landing, will be detained involuntarily after identification is complete without coordination from the appropriate US Attorney, the MAJCOM, FOA, or DRU, and HQ USAF/XOOBC.

### § 855.16 Parking and storage.

The time that an aircraft spends on an installation is at the discretion of the installation commander or a designated representative but should be linked to the purpose of use authorized. Parking and storage may be permitted on a nonexclusive, temporary, or intermittent basis, when compatible with military requirements. At those locations where there are Air Force aero clubs, parking and storage privileges may be permitted in the area designated for aero club use without regard for the purpose of use authorized, if consistent with aero club policies. Any such permission may be revoked upon notice, based on military needs and the installation commander's discretion.

### § 855.17 Fees for landing, parking, and storage.

(a) Landing, parking, and storage fees (Tables 3 and 4 to this part) are determined by aircraft maximum gross takeoff weight (MGTOW). All fees are normally due and collectible at the time of use of the Air Force airfield. DD Form 1131, Cash Collection Voucher, is used to deposit the fees with the base accounting and finance officer. In some instances, it may be necessary to bill the user for charges incurred.

(b) Landing fees are not charged when the aircraft is operating in support of official Government business or for any purpose, the cost of which is subject to reimbursement by the US Government. Parking and Storage Fees (Table 4 to this part) are charged if an

aircraft must remain beyond the period necessary to conduct official Government business and for all non-official Government business operations.

**§ 855.18 Aviation fuel and oil purchases.**

When a user qualifies under the provisions of AFM 67-1, vol. 1, part three, chapter 1, Air Force Stock Fund and DPSC Assigned Item Procedures,<sup>5</sup> purchase of Air Force fuel and oil may be made on a cash or credit basis. An application for credit authority can be filed by submitting an Authorized Credit Letter to SA-ALC/SFRL, 1014 Andrews Road, Building 1621, Kelly AFB TX 78241-5603.

**§ 855.19 Supply and service charges.**

Supplies and services furnished to a user will be charged for as prescribed in AFM 67-1, volume 1, part one, chapter 10, section N, Basic Air Force Supply Procedures, and AFR 177-102, paragraph 28.24, Commercial Transactions at Base Level.<sup>6</sup> A personal check with appropriate identification, cashier's check, money order, or cash are acceptable means of payment. Charges for handling foreign military sales cargo are prescribed in AFR 170-3, Financial Management and Accounting for Security Assistance and International Programs.<sup>7</sup>

**Subpart C—Agreements for Civil Aircraft Use of Air Force Airfields**

**§ 855.20 Joint-use agreements.**

An agreement between the Air Force and a local Government agency is required before a community can establish a public airport on an Air Force airfield.

(a) Joint use of an Air Force airfield will be considered only if there will be no cost to the Air Force and no compromise of mission capability, security, readiness, safety, or quality of life. Further, only proposals submitted by authorized representatives of local Government agencies eligible to sponsor a public airport will be given the comprehensive evaluation required to

conclude a joint use agreement. All reviewing levels will consider and evaluate such requests on an individual basis.

(b) Generally, the Air Force is willing to consider joint use at an airfield if it does not have pilot training, nuclear storage, or a primary mission that requires a high level of security. Civil operations must begin within 5 years of the effective date of an agreement. Operational considerations will be based on the premise that military aircraft will receive priority handling (except in emergencies), if traffic must be adjusted or resequenced. The Air Force normally will not consider personnel increases solely to support civil operations but, if accommodated, all costs must be fully reimbursed by the joint-use sponsor. The Air Force will not provide personnel to install, operate, maintain, alter, or relocate navigation equipment or aircraft arresting systems for the sole use of civil aviation. Changes in equipment or systems to support the civil operations must be funded by the joint-use sponsor. The Air Force must approve siting, design, and construction of the civil facilities.

**§ 855.21 Procedures for sponsor.**

To initiate consideration for joint use of an Air Force airfield, a formal proposal must be submitted to the installation commander by a local Government agency eligible to sponsor a public airport. The proposal must include:

- (a) Type of operation.
- (b) Type and number of aircraft to be located on or operating at the airfield.
- (c) An estimate of the number of annual operations for the first 5 years.

**§ 855.22 Air Force procedures.**

(a) Upon receipt of a joint-use proposal, the installation commander, without precommitment or comment, will send the documents to the Air Force Representative (AFREP) at the Federal Aviation Administration (FAA) Regional Office within the geographical area where the installation is located. AFI 13-201, Air Force Airspace Management,<sup>8</sup> lists the AFREPs and
