adaptive management, monitoring, plan formulation and evaluation, quantification of water needed for the natural system or protection of existing uses, methods of determining levels of flood protection, and similar guidance memoranda or methods; and
(9) Deviations from Operating Manuals for emergencies and unplanned minor deviations when, considered individually and cumulatively, they do not have significant effects on the quality of the human environment, as described in applicable Corps of Engineers regulations, including §222.5(f)(4) and §222.5(i)(5) of this chapter, and Engineer Regulation ER 1110–2–8156 "Preparation of Water Control Manuals."

§ 385.15 Consistency with requirements of the State of Florida.

The State of Florida has established procedures, requirements, and approvals that are needed before the State or the South Florida Water Management District can participate as the non-Federal sponsor for projects of the Plan. Project Implementation Reports shall include such information and analyses, consistent with this part, as are necessary to facilitate review and approval of projects by the South Florida Water Management District and the State pursuant to the requirements of Florida law.

§ 385.16 Design agreements.

(a) The Corps of Engineers shall execute a design agreement with each non-Federal sponsor for the projects of the Plan prior to initiation of design activities with that non-Federal sponsor. (b) Any procedures, guidance, or documents developed by the Corps of Engineers and the non-Federal sponsor pursuant to a design agreement shall be consistent with this part.

§ 385.17 Project Delivery Team.

(a) In accordance with the procedures of the Corps of Engineers business process described in Engineer Regulation ER 5–1–11 "US Army Corps of Engineers Business process," the Corps of Engineers and the non-Federal sponsor shall form a Project Delivery Team to develop the products necessary to implement each project. (b) The Corps of Engineers shall assign, and the non-Federal sponsor may assign, a project manager to lead the Project Delivery Team. (c) The Corps of Engineers and the South Florida Water Management District shall encourage the participation of other Federal, State, and local agencies and the Miccosukee Tribe of Indians of Florida and the Seminole Tribe of Florida on Project Delivery Teams, and use their expertise to ensure that information developed by the Project Delivery Team is shared with agencies, tribes, and the public at the earliest possible time in the implementation process. In forming the Project Delivery Team, the Corps of Engineers and the non-Federal sponsor shall request that the Department of the Interior, the Environmental Protection Agency, the Department of Commerce, the Miccosukee Tribe of Indians of Florida, the Seminole Tribe of Florida, the Florida Department of Environmental Protection, and other Federal, State, and local agencies participate on the Project Delivery Team. (1) In general, participation on the Project Delivery Team shall be the financial responsibility of the participating agency or tribe. However, the Corps of Engineers shall provide funding for the U.S. Fish and Wildlife Service and the National Marine Fisheries Service to prepare Fish and Wildlife Coordination Act Reports, as required by applicable law, regulation, or agency procedures. (2) Participation by an agency or tribe on the Project Delivery Team shall not be considered or construed to be a substitute for consultation, coordination, or other activities required by applicable law or this part. (d) Documents and work products prepared or developed by the Project Delivery Team shall not be self-executing, but shall be provided as information for consideration by the Corps of Engineers and the non-Federal sponsor, in consultation with the Department of the Interior, the Environmental Protection Agency, the Department of Commerce, the Seminole Tribe of Florida, the Miccosukee Tribe of Indians of Florida, the Florida Department of Environmental Protection, and
§ 385.18 Public outreach.

(a) Goals. (1) The goal of public outreach is to open and maintain channels of communication with the public throughout the implementation process for the Plan in order to:
   (i) Provide information about proposed activities;
   (ii) Make the public’s desires, needs, and concerns known to decision-makers before decisions are reached; and
   (iii) Consider and respond to the public’s views in reaching decisions.

(2) In carrying out implementation activities for the Plan, the Corps of Engineers and non-Federal sponsors shall undertake outreach activities to:
   (i) Increase general public awareness for the Plan;
   (ii) Involve interested groups and interested communities in the decision-making process and incorporate public values into decisions;
   (iii) Better serve and involve minority communities and traditionally under served communities, persons with limited English proficiency, and socially and economically disadvantaged individuals;
   (iv) Improve the substantive quality of decisions as a result of public participation; and
   (v) Reduce conflict among interested and affected parties by building agreement or consensus on solutions to emerging issues.

(b) General requirements. (1) The Corps of Engineers and non-Federal sponsors shall provide a transparent, publicly accessible process through which scientific and technical information is used in the development of policy decisions throughout the implementation process for the Plan.

(2) The Corps of Engineers and non-Federal sponsors shall develop and conduct outreach activities for project or program-level activities in order to:
   (i) Increase general public awareness for the Plan;
   (ii) Involve interested groups and interested communities in the decision-making process and incorporate public values into decisions;
   (iii) Better serve and involve minority communities and traditionally under served communities, persons with limited English proficiency, and socially and economically disadvantaged individuals;
   (iv) Improve the substantive quality of decisions as a result of public participation; and
   (v) Reduce conflict among interested and affected parties by building agreement or consensus on solutions to emerging issues.

(c) Outreach to socially and economically disadvantaged individuals and communities. (1) The Corps of Engineers and non-Federal sponsors shall develop and conduct public outreach activities to ensure that socially and economically disadvantaged individuals, including individuals with limited English proficiency, and communities are provided opportunities to review and comment during implementation of the Plan.

(2) The Corps of Engineers and non-Federal sponsors shall monitor the effectiveness of outreach activities conducted to ensure that socially and economically disadvantaged individuals and communities, including individuals with limited English proficiency, are provided opportunities to review and comment during implementation of the Plan.

(3) Project Management Plans and Program Management Plans shall include information concerning any outreach activities to be undertaken during the implementation of the project or activity.

(4) The Corps of Engineers and non-Federal sponsors shall make project and program information available in languages other than English where a significant number of individuals in
