(ii) Made referral forms widely available throughout the State;

(iii) Conducted outreach efforts to identify and serve individuals with disabilities who have been unserved or underserved by the vocational rehabilitation system; and

(iv) Not delayed, through waiting lists or other means, determinations of eligibility, the development of individualized plans for employment for individuals determined eligible for vocational rehabilitation services, or the provision of services for eligible individuals for whom individualized plans for employment have been developed.

(2) For a designated State unit that was unable to provide the full range of services to all eligible individuals during the current or preceding fiscal year or that has not met the requirements in paragraph (b)(1) of this section, the determination that the designated State unit is able to provide the full range of vocational rehabilitation services to all eligible individuals in the next fiscal year must be based on—

(i) Circumstances that have changed that will allow the designated State unit to meet the requirements of paragraph (a)(2) of this section in the next fiscal year, including—

(A) An estimate of the number of and projected costs of serving, in the next fiscal year, individuals with existing individualized plans for employment;

(B) The projected number of individuals with disabilities who will apply for services and will be determined eligible in the next fiscal year and the projected costs of serving those individuals;

(C) The projected costs of administering the program in the next fiscal year, including, but not limited to, costs of staff salaries and benefits, outreach activities, and required statewide studies; and

(D) The projected revenues and projected number of qualified personnel for the program in the next fiscal year;

(ii) Comparable data, as relevant, for the current or preceding fiscal year, or for both years, of the costs listed in paragraphs (b)(2)(i)(A) through (C) of this section and the resources identified in paragraph (b)(2)(i)(D) of this section and an explanation of any projected increases or decreases in these costs and resources; and

(iii) A determination that the projected revenues and the projected number of qualified personnel for the program in the next fiscal year are adequate to cover the costs identified in paragraphs (b)(2)(i)(A) through (C) of this section to ensure the provision of the full range of services, as appropriate, to all eligible individuals.

(c) Determining need for establishing and implementing an order of selection. (1) The designated State unit must determine, prior to the beginning of each fiscal year, whether to establish and implement an order of selection.

(2) If the designated State unit determines that it does not need to establish an order of selection, it must reevaluate this determination whenever changed circumstances during the course of a fiscal year, such as a decrease in its fiscal or personnel resources or an increase in its program costs, indicate that it may no longer be
§361.37 Information and referral programs.

(a) General provisions. The State plan must assure that—

(1) The designated State agency will implement an information and referral system adequate to ensure that individuals with disabilities, including eligible individuals who do not meet the agency’s order of selection criteria for receiving vocational rehabilitation services if the agency is operating on an order of selection, are provided accurate vocational rehabilitation information and guidance (which may include counseling and referral for job placement) using appropriate modes of communication to assist them in preparing for, securing, retaining, or regaining employment; and

(2) The designated State agency will refer individuals with disabilities to other appropriate Federal and State programs, including other components
of the statewide workforce investment system.

(b) The State unit must refer to local extended employment providers an individual with a disability who makes an informed choice to pursue extended employment as the individual’s employment goal. Before making the referral required by this paragraph, the State unit must—

(1) Consistent with §361.42(a)(4)(i) of this part, explain to the individual that the purpose of the vocational rehabilitation program is to assist individuals to achieve an employment outcome as defined in §361.5(b)(16) (i.e., employment in an integrated setting);

(2) Consistent with §361.52 of this part, provide the individual with information concerning the availability of employment options, and of vocational rehabilitation services, in integrated settings;

(3) Inform the individual that services under the vocational rehabilitation program can be provided to eligible individuals in an extended employment setting if necessary for purposes of training or otherwise preparing for employment in an integrated setting;

(4) Inform the individual that, if he or she initially chooses not to pursue employment in an integrated setting, he or she can seek services from the designated State unit at a later date if, at that time, he or she chooses to pursue employment in an integrated setting; and

(5) Refer the individual, as appropriate, to the Social Security Administration in order to obtain information concerning the availability of individuals with disabilities to work while receiving benefits from the Social Security Administration.

(c) Criteria for appropriate referrals. In making the referrals identified in paragraph (a)(2) of this section, the designated State unit must—

(1) Refer the individual to Federal or State programs, including programs carried out by other components of the statewide workforce investment system, best suited to address the specific employment needs of an individual with a disability; and

(2) Provide the individual who is being referred—

(i) A notice of the referral by the designated State agency to the agency carrying out the program;

(ii) Information identifying a specific point of contact within the agency to which the individual is being referred; and

(iii) Information and advice regarding the most suitable services to assist the individual to prepare for, secure, retain, or regain employment.

(d) Order of selection. In providing the information and referral services under this section to eligible individuals who are not in the priority category or categories to receive vocational rehabilitation services under the State’s order of selection, the State unit must identify, as part of its reporting under section 101(a)(10) of the Act and §361.40, the number of eligible individuals who did not meet the agency’s order of selection criteria for receiving vocational rehabilitation services and did receive information and referral services under this section.

§ 361.38 Protection, use, and release of personal information.

(a) General provisions. (1) The State agency and the State unit must adopt and implement written policies and procedures to safeguard the confidentiality of all personal information, including photographs and lists of names. These policies and procedures must ensure that—

(i) Specific safeguards are established to protect current and stored personal information;

(ii) All applicants and eligible individuals, and, as appropriate, those individuals’ representatives, service providers, cooperating agencies, and interested persons are informed through appropriate modes of communication of the confidentiality of personal information and the conditions for accessing and releasing this information;

(iii) All applicants or their representatives are informed about the State
unit’s need to collect personal information and the policies governing its use, including—

(A) Identification of the authority under which information is collected;

(B) Explanation of the principal purposes for which the State unit intends to use or release the information;

(C) Explanation of whether providing requested information to the State unit is mandatory or voluntary and the effects of not providing requested information;

(D) Identification of those situations in which the State unit requires or does not require informed written consent of the individual before information may be released; and

(E) Identification of other agencies to which information is routinely released;

(iv) An explanation of State policies and procedures affecting personal information will be provided to each individual in that individual’s native language or through the appropriate mode of communication; and

(v) These policies and procedures provide no fewer protections for individuals than State laws and regulations.

(2) The State unit may establish reasonable fees to cover extraordinary costs of duplicating records or making extensive searches and must establish policies and procedures governing access to records.

(b) State program use. All personal information in the possession of the State agency or the designated State unit must be used only for the purposes directly connected with the administration of the vocational rehabilitation program. Information containing identifiable personal information may not be shared with advisory or other bodies that do not have official responsibility for administration of the program. In the administration of the program, the State unit may obtain personal information from service providers and cooperating agencies under assurances that the information may not be further divulged, except as provided under paragraphs (c)(2) and (c)(3) of this section, if requested in writing by an applicant or eligible individual, the State unit must make all requested information in that individual’s record of services accessible to and must release the information to the individual or the individual’s representative in a timely manner.

(2) Medical, psychological, or other information that the State unit determines may be harmful to the individual may not be released directly to the individual, but must be provided to the individual through a third party chosen by the individual, which may include, among others, an advocate, a family member, or a qualified medical or mental health professional, unless a representative has been appointed by a court to represent the individual, in which case the information must be released to the court-appointed representative.

(3) If personal information has been obtained from another agency or organization, it may be released only by, or under the conditions established by, the other agency or organization.

(4) An applicant or eligible individual who believes that information in the individual’s record of services is inaccurate or misleading may request that the designated State unit amend the information. If the information is not amended, the request for an amendment must be documented in the record of services, consistent with §361.47(a)(12).

(d) Release for audit, evaluation, and research. Personal information may be released to an organization, agency, or individual engaged in audit, evaluation, or research only for purposes directly connected with the administration of the vocational rehabilitation program or for purposes that would significantly improve the quality of life for applicants and eligible individuals and only if the organization, agency, or individual assures that—

(1) The information will be used only for the purposes for which it is being provided;

(2) The information will be released only to persons officially connected with the audit, evaluation, or research;

(3) The information will not be released to the involved individual;
(4) The information will be managed in a manner to safeguard confidentiality; and

(5) The final product will not reveal any personal identifying information without the informed written consent of the involved individual or the individual’s representative.

(e) Release to other programs or authorities. (1) Upon receiving the informed written consent of the individual or, if appropriate, the individual’s representative, the State unit may release personal information to another agency or organization for its program purposes only to the extent that the information may be released to the involved individual or the individual’s representative and only to the extent that the other agency or organization demonstrates that the information requested is necessary for its program.

(2) Medical or psychological information that the State unit determines may be harmful to the individual may be released if the other agency or organization assures the State unit that the information will be used only for the purpose for which it is being provided and will not be further released to the individual.

(3) The State unit must release personal information if required by Federal law or regulations.

(4) The State unit must release personal information in response to investigations in connection with law enforcement, fraud, or abuse, unless expressly prohibited by Federal or State laws or regulations, and in response to an order issued by a judge, magistrate, or other authorized judicial officer.

(5) The State unit also may release personal information in order to protect the individual or others if the individual poses a threat to his or her safety or to the safety of others.

§ 361.40 Reports.

(a) The State plan must assure that the designated State agency will submit reports, including reports required under sections 13, 14, and 101(a)(10) of the Act—

(1) In the form and level of detail and at the time required by the Secretary regarding applicants for and eligible individuals receiving services under this part; and

(2) In a manner that provides a complete count (other than the information obtained through sampling consistent with section 101(a)(10)(E) of the Act) of the applicants and eligible individuals to—

(i) Permit the greatest possible cross-classification of data; and

(ii) Protect the confidentiality of the identity of each individual.

(b) The designated State agency must comply with any requirements necessary to ensure the accuracy and verification of those reports.

to inform these individuals of application requirements and to gather information necessary to initiate an assessment for determining eligibility and priority for services.

(b) Applications. (1) Once an individual has submitted an application for vocational rehabilitation services, including applications made through common intake procedures in One-Stop centers established under section 121 of the Workforce Investment Act of 1998, an eligibility determination must be made within 60 days, unless—

(i) Exceptional and unforeseen circumstances beyond the control of the designated State unit preclude making an eligibility determination within 60 days and the individual agree to a specific extension of time; or

(ii) An exploration of the individual’s abilities, capabilities, and capacity to perform in work situations is carried out in accordance with §361.42(e) or, if appropriate, an extended evaluation is carried out in accordance with §361.42(f).

(2) An individual is considered to have submitted an application when the individual or the individual’s representative, as appropriate—

(i)(A) Has completed and signed an agency application form;

(B) Has completed a common intake application form in a One-Stop center requesting vocational rehabilitation services; or

(C) Has otherwise requested services from the designated State unit;

(ii) Has provided to the designated State unit information necessary to initiate an assessment to determine eligibility and priority for services; and

(iii) Is available to complete the assessment process.

(3) The designated State unit must ensure that its application forms are widely available throughout the State, particularly in the One-Stop centers established under section 121 of the Workforce Investment Act of 1998.

(Approved by the Office of Management and Budget under control number 1820–0500)

(Authority: Sections 101(a)(6)(A) and 102(a)(6) of the Act; 29 U.S.C. 721(a)(6)(A) and 722(a)(6))

(3) Presumption of eligibility for Social Security recipients and beneficiaries. (i) Any applicant who has been determined eligible for Social Security benefits under Title II or Title XVI of the Social Security Act is—

(A) Presumed eligible for vocational rehabilitation services under paragraphs (a)(1) and (2) of this section; and

(B) Considered an individual with a significant disability as defined in §361.5(b)(31).

(ii) If an applicant for vocational rehabilitation services asserts that he or she is eligible for Social Security benefits under Title II or Title XVI of the Social Security Act (and, therefore, is presumed eligible for vocational rehabilitation services under paragraph (a)(3)(i)(A) of this section), but is unable to provide appropriate evidence, such as an award letter, to support that assertion, the State unit must verify the applicant's eligibility under Title II or Title XVI of the Social Security Act by contacting the Social Security Administration. This verification must be made within a reasonable period of time that enables the State unit to determine the applicant's eligibility for vocational rehabilitation services within 60 days of the individual submitting an application for services in accordance with §361.41(b)(2).

(4) Achievement of an employment outcome. Any eligible individual, including an individual whose eligibility for vocational rehabilitation services is based on the individual being eligible for Social Security benefits under Title II or Title XVI of the Social Security Act, must intend to achieve an employment outcome that is consistent with the applicant's unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

(i) The State unit is responsible for informing individuals, through its application process for vocational rehabilitation services, that individuals who receive services under the program must intend to achieve an employment outcome.

(ii) The applicant's completion of the application process for vocational rehabilitation services is sufficient evidence of the individual's intent to achieve an employment outcome, and no additional demonstration on the part of the applicant is required for purposes of satisfying paragraph (a)(4) of this section.

(5) Interpretation. Nothing in this section, including paragraph (a)(3)(i), is to be construed to create an entitlement to any vocational rehabilitation service.

(b) Interim determination of eligibility. (1) The designated State unit may initiate the provision of vocational rehabilitation services for an applicant on the basis of an interim determination of eligibility prior to the 60-day period described in §361.41(b)(2).

(2) If a State chooses to make interim determinations of eligibility, the designated State unit must—

(i) Establish criteria and conditions for making those determinations;

(ii) Develop and implement procedures for making the determinations; and

(iii) Determine the scope of services that may be provided pending the final determination of eligibility.

(3) If a State elects to use an interim eligibility determination, the designated State unit must—

(i) Ensure that the State plan assures that the State unit will not impose, as part of determining eligibility under this section, a duration of residence requirement that excludes from services any applicant who is present in the State.

(ii) Ensure that—

(A) No applicant or group of applicants is excluded or found ineligible solely on the basis of the type of disability; and

(B) The eligibility requirements are applied without regard to the—

(A) Age, gender, race, color, or national origin of the applicant;

(B) Type of expected employment outcome;

(C) Source of referral for vocational rehabilitation services; and
(D) Particular service needs or anticipated cost of services required by an applicant or the income level of an applicant or applicant’s family.

(d) Review and assessment of data for eligibility determination. Except as provided in paragraph (e) of this section, the designated State unit—

(1) Must base its determination of each of the basic eligibility requirements in paragraph (a) of this section on—

(i) A review and assessment of existing data, including counselor observations, education records, information provided by the individual or the individual’s family, particularly information used by education officials, and determinations made by officials of other agencies; and

(ii) To the extent existing data do not describe the current functioning of the individual or are unavailable, insufficient, or inappropriate to make an eligibility determination, an assessment of additional data resulting from the provision of vocational rehabilitation services, including trial work experiences, assistive technology devices and services, personal assistance services, and any other support services that are necessary to determine whether an individual is eligible; and

(2) Must base its presumption under paragraph (a)(3)(i) of this section that an applicant who has been determined eligible for Social Security benefits under Title II or Title XVI of the Social Security Act satisfies each of the basic eligibility requirements in paragraph (a) of this section on determinations made by the Social Security Administration.

(e) Trial work experiences for individuals with significant disabilities. (1) Prior to any determination that an individual with a disability is incapable of benefiting from vocational rehabilitation services in terms of an employment outcome because of the severity of that individual’s disability, the designated State unit must conduct an extended evaluation to make these determinations.

(2)(i) The designated State unit must develop a written plan to assess periodically the individual’s abilities, capabilities, and capacity to perform in work situations through the use of trial work experiences, which must be provided in the most integrated setting possible, consistent with the informed choice and rehabilitation needs of the individual.

(ii) Trial work experiences include supported employment, on-the-job training, and other experiences using realistic work settings.

(iii) Trial work experiences must be of sufficient variety and over a sufficient period of time for the designated State unit to determine that—

(A) There is sufficient evidence to conclude that the individual can benefit from the provision of vocational rehabilitation services in terms of an employment outcome; or

(B) There is clear and convincing evidence that the individual is incapable of benefiting from vocational rehabilitation services in terms of an employment outcome due to the severity of the individual’s disability.

(iv) The designated State unit must provide appropriate supports, including assistive technology devices and services and personal assistance services, to accommodate the rehabilitation needs of the individual during the trial work experiences.

(f) Extended evaluation for certain individuals with significant disabilities. (1) Under limited circumstances if an individual cannot take advantage of trial work experiences or if options for trial work experiences have been exhausted before the State unit is able to make the determinations described in paragraph (e)(2)(iii) of this section, the designated State unit must conduct an extended evaluation to make these determinations.

(2) During the extended evaluation period, vocational rehabilitation services must be provided in the most integrated setting possible, consistent with the informed choice and rehabilitation needs of the individual.

(3) During the extended evaluation period, the designated State unit must develop a written plan for providing
services necessary to make a determination under paragraph (e)(2)(iii) of this section.

(4) During the extended evaluation period, the designated State unit provides only those services that are necessary to make the determinations described in paragraph (e)(2)(iii) of this section and terminates extended evaluation services when the State unit is able to make the determinations.

(g) Data for determination of priority for services under an order of selection. If the designated State unit is operating under an order of selection for services, as provided in §361.36, the State unit must base its priority assignments on—

(1) A review of the data that was developed under paragraphs (d) and (e) of this section to make the eligibility determination; and

(2) An assessment of additional data, to the extent necessary.

NOTE TO §361.42: Clear and convincing evidence means that the designated State unit shall have a high degree of certainty before it can conclude that an individual is incapable of benefiting from services in terms of an employment outcome. The “clear and convincing” standard constitutes the highest standard used in our civil system of law and is to be individually applied on a case-by-case basis. The term clear means unequivocal. For example, the use of an intelligence test result alone would not constitute clear and convincing evidence. Clear and convincing evidence might include a description of assessments, including situational assessments and supported employment assessments, from service providers who have concluded that they would be unable to meet the individual’s needs due to the severity of the individual’s disability. The demonstration of “clear and convincing evidence” must include, if appropriate, a functional assessment of skill development activities, with any necessary supports (including assistive technology), in real life settings. (S. Rep. No. 357, 102d Cong., 2d Sess. 37–38 (1992))
§ 361.44 Closure without eligibility determination.

The designated State unit may not close an applicant’s record of services prior to making an eligibility determination unless the applicant declines to participate in, or is unavailable to complete, an assessment for determining eligibility and priority for services, and the State unit has made a reasonable number of attempts to contact the applicant or, if appropriate, the applicant’s representative to encourage the applicant’s participation.

§ 361.45 Development of the individualized plan for employment.

(a) General requirements. The State plan must assure that—

(1) An individualized plan for employment (IPE) meeting the requirements of this section and §361.46 is developed and implemented in a timely manner for each individual determined to be eligible for vocational rehabilitation services or, if the designated State unit is operating under an order of selection in accordance with §361.36, for each eligible individual to whom the State unit is able to provide services; and

(2) Services will be provided in accordance with the provisions of the IPE.

(b) Purpose. (1) The designated State unit must conduct an assessment for determining vocational rehabilitation needs, if appropriate, for each eligible individual or, if the State is operating under an order of selection, for each eligible individual to whom the State is able to provide services. The purpose of this assessment is to determine the employment outcome, and the nature and scope of vocational rehabilitation services to be included in the IPE.

(2) The IPE must be designed to achieve a specific employment outcome, as defined in §361.5(b)(16), that is selected by the individual consistent with the individual’s unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

(1) Options for developing an IPE. Information on the available options for developing the IPE, including the option that an eligible individual or, as appropriate, the individual’s representative may develop all or part of the IPE—

(i) Without assistance from the State unit or other entity; or

(ii) With assistance from—

(A) A qualified vocational rehabilitation counselor employed by the State unit;

(B) A qualified vocational rehabilitation counselor who is not employed by the State unit; or

(C) Resources other than those in paragraph (A) or (B) of this section.

(2) Additional information. Additional information to assist the eligible individual or, as appropriate, the individual’s representative in developing the IPE, including—

(i) Information describing the full range of components that must be included in an IPE;

(ii) As appropriate to each eligible individual—

(A) An explanation of agency guidelines and criteria for determining an eligible individual’s financial commitments under an IPE;

(B) Information on the availability of assistance in completing State unit forms required as part of the IPE; and

(C) Additional information that the eligible individual requests or the State unit determines to be necessary to the development of the IPE;

(iii) A description of the rights and remedies available to the individual, including, if appropriate, recourse to the processes described in §361.57; and
(iv) A description of the availability of a client assistance program established under 34 CFR part 370 and information on how to contact the client assistance program.

(d) Mandatory procedures. The designated State unit must ensure that—

(1) The IPE is a written document prepared on forms provided by the State unit;

(2) The IPE is developed and implemented in a manner that gives eligible individuals the opportunity to exercise informed choice, consistent with §361.52, in selecting—

(i) The employment outcome, including the employment setting;

(ii) The specific vocational rehabilitation services needed to achieve the employment outcome, including the settings in which services will be provided;

(iii) The entity or entities that will provide the vocational rehabilitation services; and

(iv) The methods available for procuring the services;

(3) The IPE is—

(i) Agreed to and signed by the eligible individual or, as appropriate, the individual's representative; and

(ii) Approved and signed by a qualified vocational rehabilitation counselor employed by the designated State unit;

(4) A copy of the IPE and a copy of any amendments to the IPE are provided to the eligible individual or, as appropriate, to the individual's representative, in writing and, if appropriate, in the native language or mode of communication of the individual or, as appropriate, the individual's representative;

(5) The IPE is reviewed at least annually by a qualified vocational rehabilitation counselor and the eligible individual or, as appropriate, the individual's representative to assess the eligible individual's progress in achieving the identified employment outcome;

(6) The IPE is amended, as necessary, by the individual or, as appropriate, the individual's representative, in collaboration with a representative of the State unit or a qualified vocational rehabilitation counselor (to the extent determined to be appropriate by the individual), if there are substantive changes in the employment outcome, the vocational rehabilitation services to be provided, or the providers of the vocational rehabilitation services;

(7) Amendments to the IPE do not take effect until agreed to and signed by the eligible individual or, as appropriate, the individual's representative and by a qualified vocational rehabilitation counselor employed by the designated State unit; and

(8) An IPE for a student with a disability receiving special education services is developed—

(i) In consideration of the student's IEP; and

(ii) In accordance with the plans, policies, procedures, and terms of the interagency agreement required under §361.22.

(e) Standards for developing the IPE. The designated State unit must establish and implement standards for the prompt development of IPEs for the individuals identified under paragraph (a) of this section, including timelines that take into consideration the needs of the individuals.

(f) Data for preparing the IPE—(1) Preparation without comprehensive assessment. To the extent possible, the employment outcome and the nature and scope of rehabilitation services to be included in the individual's IPE must be determined based on the data used for the assessment of eligibility and priority for services under §361.42.

(2) Preparation based on comprehensive assessment.

(i) If additional data are necessary to determine the employment outcome and the nature and scope of services to be included in the IPE of an eligible individual, the State unit must conduct a comprehensive assessment of the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice, including the need for supported employment services, of the eligible individual, in the most integrated setting possible, consistent with the informed choice of the individual in accordance with the provisions of §361.5(b)(6)(ii).

(ii) In preparing the comprehensive assessment, the State unit must use, to
§ 361.46 Content of the individualized plan for employment.

(a) Mandatory components. Regardless of the approach in §361.45(c)(1) that an eligible individual selects for purposes of developing the IPE, each IPE must include—

(1) A description of the specific employment outcome, as defined in §361.5(b)(16), that is chosen by the eligible individual and is consistent with the individual’s unique strengths, resources, priorities, concerns, abilities, capabilities, career interests, and informed choice.

(2) A description of the specific rehabilitation services under §361.48 that are—

(i) Needed to achieve the employment outcome, including, as appropriate, the provision of assistive technology devices, assistive technology services, and personal assistance services, including training in the management of those services; and

(ii) Provided in the most integrated setting that is appropriate for the services involved and is consistent with the informed choice of the eligible individual;

(3) Timelines for the achievement of the employment outcome and for the initiation of services;

(4) A description of the entity or entities chosen by the eligible individual or, as appropriate, the individual’s representative that will provide the vocational rehabilitation services and the methods used to procure those services;

(5) A description of the criteria that will be used to evaluate progress toward achievement of the employment outcome; and

(6) The terms and conditions of the IPE, including, as appropriate, information describing—

(i) The responsibilities of the designated State unit;

(ii) The responsibilities of the eligible individual, including—

(A) The responsibilities the individual will assume in relation to achieving the employment outcome;

(B) If applicable, the extent of the individual’s participation in paying for the cost of services; and

(C) The responsibility of the individual with regard to applying for and securing comparable services and benefits as described in §361.53; and

(iii) The responsibilities of other entities as the result of arrangements made pursuant to the comparable services or benefits requirements in §361.53.

(b) Supported employment requirements. An IPE for an individual with a most significant disability for whom an employment outcome in a supported employment setting has been determined to be appropriate must—

(1) Specify the supported employment services to be provided by the designated State unit;

(2) Specify the expected extended services needed, which may include natural supports;

(3) Identify the source of extended services or, to the extent that it is not possible to identify the source of extended services at the time the IPE is developed, include a description of the basis for concluding that there is a reasonable expectation that those sources will become available;

(4) Provide for periodic monitoring to ensure that the individual is making satisfactory progress toward meeting the weekly work requirement established in the IPE by the time of transition to extended services;

(5) Provide for the coordination of services provided under an IPE with
services provided under other individualized plans established under other Federal or State programs;

(6) To the extent that job skills training is provided, identify that the training will be provided on site; and

(7) Include placement in an integrated setting for the maximum number of hours possible based on the unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice of individuals with the most significant disabilities.

(c) Post-employment services. The IPE for each individual must contain, as determined to be necessary, statements concerning—

(1) The expected need for post-employment services prior to closing the record of services of an individual who has achieved an employment outcome;

(2) A description of the terms and conditions for the provision of any post-employment services; and

(3) If appropriate, a statement of how post-employment services will be provided or arranged through other entities as the result of arrangements made pursuant to the comparable services or benefits requirements in §361.53.

(d) Coordination of services for students with disabilities who are receiving special education services. The IPE for a student with a disability who is receiving special education services must be coordinated with the IEP for that individual in terms of the goals, objectives, and services identified in the IEP.

§ 361.47 Record of services.

(a) The designated State unit must maintain for each applicant and eligible individual a record of services that includes, to the extent pertinent, the following documentation:

(1) If an applicant has been determined to be an eligible individual, documentation supporting that determination in accordance with the requirements under §361.42.

(2) If an applicant or eligible individual receiving services under an IPE has been determined to be ineligible, documentation supporting that determination in accordance with the requirements under §361.43.

(3) Documentation that describes the justification for closing an applicant’s or eligible individual’s record of services if that closure is based on reasons other than ineligibility, including, as appropriate, documentation indicating that the State unit has satisfied the requirements in §361.44.

(4) If an individual has been determined to be an individual with a significant disability or an individual with a most significant disability, documentation supporting that determination.

(5) If an individual with a significant disability requires an exploration of abilities, capabilities, and capacity to perform in realistic work situations through the use of trial work experiences or, as appropriate, an extended evaluation to determine whether the individual is an eligible individual, documentation supporting the need for, and the plan relating to, that exploration or, as appropriate, extended evaluation and documentation regarding the periodic assessments carried out during the trial work experiences or, as appropriate, the extended evaluation, in accordance with the requirements under §361.42(e) and (f).

(6) The IPE, and any amendments to the IPE, consistent with the requirements under §361.46.

(7) Documentation describing the extent to which the applicant or eligible individual exercised informed choice regarding the provision of assessment services and the extent to which the eligible individual exercised informed choice in the development of the IPE, with respect to the selection of the specific employment outcome, the specific vocational rehabilitation services needed to achieve the employment outcome, the entity to provide the services, the employment setting, the settings in which the services will be provided, and the methods to procure the services.

(8) In the event that an individual’s IPE provides for vocational rehabilitation services in a non-integrated setting, a justification to support the need for the non-integrated setting.
§361.48 Scope of vocational rehabilitation services for individuals with disabilities.

As appropriate to the vocational rehabilitation needs of each individual and consistent with each individual’s informed choice, the designated State unit must ensure that the following vocational rehabilitation services are available to assist the individual with a disability in preparing for, securing, retaining, or regaining an employment outcome that is consistent with the individual’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice:

(a) Assessment for determining eligibility and priority for services by qualified personnel, including, if appropriate, an assessment by personnel skilled in rehabilitation technology, in accordance with §361.42.

(b) Assessment for determining vocational rehabilitation needs by qualified personnel, including, if appropriate, an assessment by personnel skilled in rehabilitation technology, in accordance with §361.45.

(c) Vocational rehabilitation counseling and guidance, including information and support services to assist an individual in exercising informed choice in accordance with §361.52.

(d) Referral and other services necessary to assist applicants and eligible individuals to secure needed services from other agencies, including other components of the statewide workforce investment system, in accordance with
§ 361.49  Scope of vocational rehabilitation services for groups of individuals with disabilities.

(a) The designated State unit may also provide for the following vocational rehabilitation services for the benefit of groups of individuals with disabilities:

1. The establishment, development, or improvement of a public or other nonprofit community rehabilitation...
program that is used to provide vocational rehabilitation services that promote integration and competitive employment, including, under special circumstances, the construction of a facility for a public or nonprofit community rehabilitation program. Examples of “special circumstances” include the destruction by natural disaster of the only available center serving an area or a State determination that construction is necessary in a rural area because no other public agencies or private nonprofit organizations are currently able to provide vocational rehabilitation services to individuals.

(2) Telecommunications systems that have the potential for substantially improving vocational rehabilitation service delivery methods and developing appropriate programming to meet the particular needs of individuals with disabilities, including telephone, television, video description services, satellite, tactile-vibratory devices, and similar systems, as appropriate.

(3) Special services to provide nonvisual access to information for individuals who are blind, including the use of telecommunications, Braille, sound recordings, or other appropriate media; captioned television, films, or video cassettes for individuals who are deaf or hard of hearing; tactile materials for individuals who are deaf-blind; and other special services that provide information through tactile, vibratory, auditory, and visual media.

(4) Technical assistance and support services to businesses that are not subject to Title I of the Americans with Disabilities Act of 1990 and that are seeking to employ individuals with disabilities.

(5) In the case of any small business enterprise operated by individuals with significant disabilities under the supervision of the designated State unit, including enterprises established under the Randolph-Sheppard program, management services and supervision provided by the State unit along with the acquisition by the State unit of vending facilities or other equipment, initial stocks and supplies, and initial operating expenses, in accordance with the following requirements:

(i) “Management services and supervision” includes inspection, quality control, consultation, accounting, regulating, in-service training, and related services provided on a systematic basis to support and improve small business enterprises operated by individuals with significant disabilities. “Management services and supervision” may be provided throughout the operation of the small business enterprise.

(ii) “Initial stocks and supplies” includes those items necessary to the establishment of a new business enterprise during the initial establishment period, which may not exceed 6 months.

(iii) Costs of establishing a small business enterprise may include operational costs during the initial establishment period, which may not exceed 6 months.

(iv) If the designated State unit provides for these services, it must ensure that only individuals with significant disabilities will be selected to participate in this supervised program.

(v) If the designated State unit provides for these services and chooses to set aside funds from the proceeds of the operation of the small business enterprises, the State unit must maintain a description of the methods used in setting aside funds and the purposes for which funds are set aside. Funds may be used only for small business enterprises purposes, and benefits that are provided to operators from set-aside funds must be provided on an equitable basis.

(6) Other services that promise to contribute substantially to the rehabilitation of a group of individuals but that are not related directly to the individualized plan for employment of any one individual. Examples of those other services might include the purchase or lease of a bus to provide transportation to a group of applicants or eligible individuals or the purchase of equipment or instructional materials that would benefit a group of applicants or eligible individuals.

(7) Consultative and technical assistance services to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including employment.
(b) If the designated State unit provides for vocational rehabilitation services for groups of individuals, it must—

(b) Written policies and procedures. The designated State unit, in consultation with its State Rehabilitation Council, if it has a Council, must develop and implement written policies and procedures that enable an applicant or eligible individual to exercise informed choice throughout the vocational rehabilitation process. These policies and procedures must provide for—

1. Informing each applicant and eligible individual (including students with disabilities who are making the transition from programs under the responsibility of an educational agency to programs under the responsibility of the designated State unit), through appropriate modes of communication, about the availability of and opportunities to exercise informed choice, including the availability of support services for individuals with cognitive or other disabilities who require assistance in exercising informed choice throughout the vocational rehabilitation process;

   iii. Entity that will provide the services;
   iv. Employment setting and the settings in which the services will be provided; and
   v. Methods available for procuring the services; and
5. Ensuring that the availability and scope of informed choice is consistent with the obligations of the designated State agency under this part.

(c) Information and assistance in the selection of vocational rehabilitation services and service providers. In assisting an applicant and eligible individual in exercising informed choice during the assessment for determining eligibility and vocational rehabilitation needs and during development of the IPE, the designated State unit must provide the
individual or the individual's representative, or assist the individual or the individual's representative in acquiring, information necessary to make an informed choice about the specific vocational rehabilitation services, including the providers of those services, that are needed to achieve the individual's employment outcome. This information must include, at a minimum, information relating to the—

§ 361.53 Comparable services and benefits.

(a) Determination of availability. The State plan must assure that prior to providing any vocational rehabilitation services, except those services listed in paragraph (b) of this section, to an eligible individual, or to members of the individual's family, the State unit must determine whether comparable services and benefits, as defined in §361.5(b)(10), exist under any other program and whether those services and benefits are available to the individual unless such a determination would interrupt or delay—

(1) The progress of the individual toward achieving the employment outcome identified in the individualized plan for employment;
(2) An immediate job placement; or
(3) The provision of vocational rehabilitation services to any individual who is determined to be at extreme medical risk, based on medical evidence provided by an appropriate qualified medical professional.

(1) Assessment for determining eligibility and vocational rehabilitation needs.

(c) Provision of services. (1) If comparable services or benefits exist under
any other program and are available to the individual at the time needed to ensure the progress of the individual toward achieving the employment outcome in the individual’s IPE, the designated State unit must use those comparable services or benefits to meet, in whole or part, the costs of the vocational rehabilitation services.

(2) If comparable services or benefits exist under any other program, but are not available to the individual at the time needed to ensure the progress of the individual toward achieving the employment outcome in the individual’s IPE, the designated State unit must provide vocational rehabilitation services until those comparable services and benefits become available.

(d) Interagency coordination. (1) The State plan must assure that the Governor, in consultation with the entity in the State responsible for the vocational rehabilitation program and other appropriate agencies, will ensure that an interagency agreement or other mechanism for interagency coordination takes effect between the designated State vocational rehabilitation unit and any appropriate public entity, including the State entity responsible for administering the State medicaid program, a public institution of higher education, and a component of the statewide workforce investment system, to ensure the provision of vocational rehabilitation services other than those listed in paragraph (b) of this section and a provision stating the financial responsibility of the public entity for providing those services.

(ii) Conditions, terms, and procedures of reimbursement. Information specifying the conditions, terms, and procedures under which the designated State unit must be reimbursed by the other public entities for providing vocational rehabilitation services based on the terms of the interagency agreement or other mechanism for interagency coordination.

(1) If a public entity (other than the designated State unit) is obligated under Federal law (such as the Americans with Disabilities Act, section 504 of the Act, or section 188 of the Workforce Investment Act) or State law, or assigned responsibility under State policy or an interagency agreement established under this section, to provide or pay for any services considered to be vocational rehabilitation services (e.g., interpreter services under §361.48(j)), other than those services listed in paragraph (b) of this section, the public
entity must fulfill that obligation or responsibility through—

(i) The terms of the interagency agreement or other requirements of this section;

(ii) Providing or paying for the service directly or by contract; or

(iii) Other arrangement.

(2) If a public entity other than the designated State unit fails to provide or pay for vocational rehabilitation services for an eligible individual as established under this section, the designated State unit must provide or pay for those services to the individual and may claim reimbursement for the services from the public entity that failed to provide or pay for those services. The public entity must reimburse the designated State unit pursuant to the terms of the interagency agreement or other mechanism described in paragraph (d) of this section in accordance with the procedures established in the agreement or mechanism pursuant to paragraph (d)(3)(ii) of this section.

(i) It must maintain written policies—

(B) Specifying the types of vocational rehabilitation services for which the unit has established a financial needs test;

(ii) The policies must be applied uniformly to all individuals in similar circumstances;

(iii) The policies may require different levels of need for different geographic regions in the State, but must be applied uniformly to all individuals within each geographic region; and

(iv) The policies must ensure that the level of an individual’s participation in the cost of vocational rehabilitation services is—

(A) Reasonable;

(B) Based on the individual’s financial need, including consideration of any disability-related expenses paid by the individual; and

(C) Not so high as to effectively deny the individual a necessary service.

(3) The designated State unit may not apply a financial needs test, or require the financial participation of the individual—

(i) As a condition for furnishing the following vocational rehabilitation services:

(A) Assessment for determining eligibility and priority for services under §361.48(a), except those non-assessment services that are provided to an individual with a significant disability during either an exploration of the individual’s abilities, capabilities, and capacity to perform in work situations through the use of trial work experiences under §361.42(e) or an extended evaluation under §361.42(f).

(a) The State plan must assure that the designated State unit conducts an annual review and reevaluation in accordance with the requirements in paragraph (b) of this section for an individual with a disability served under this part—

(1) Who has achieved an employment outcome in which the individual is compensated in accordance with section 14(c) of the Fair Labor Standards Act; or

(2) Whose record of services is closed while the individual is in extended employment on the basis that the individual is unable to achieve an employment outcome consistent with § 361.5(b)(16) or that the individual made an informed choice to remain in extended employment.

(b) For each individual with a disability who meets the criteria in paragraph (a) of this section, the designated State unit must—

(1) Annually review and reevaluate the status of each individual for 2 years after the individual’s record of services is closed (and thereafter if requested by the individual or, if appropriate, the individual’s representative) to determine the interests, priorities, and needs of the individual with respect to competitive employment or training for competitive employment;

(2) Enable the individual or, if appropriate, the individual’s representative to provide input into the review and reevaluation and must document that input in the record of services, consistent with §361.47(a)(10), with the individual’s or, as appropriate, the individual’s representative’s signed acknowledgment that the review and reevaluation have been conducted; and

§ 361.56 Requirements for closing the record of services of an individual who has achieved an employment outcome.

The record of services of an individual who has achieved an employment outcome may be closed only if all of the following requirements are met:

(a) Employment outcome achieved. The individual has achieved the employment outcome that is described in the individual’s IPE in accordance with §361.46(a)(1) and is consistent with the individual’s strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

(b) Employment outcome maintained. The individual has maintained the employment outcome for an appropriate period of time, but not less than 90 days, necessary to ensure the stability of the employment outcome, and the individual no longer needs vocational rehabilitation services.

(c) Satisfactory outcome. At the end of the appropriate period under paragraph (b) of this section, the individual and the qualified rehabilitation counselor employed by the designated State unit consider the employment outcome to be satisfactory and agree that the individual is performing well in the employment.

modes of communication of the availability of post-employment services.

(Authority: Sections 12(c), 101(a)(6), and 106(a)(2) of the Act; 29 U.S.C. 711(c), 721(a)(6), and 726(a)(2))

§ 361.57 Review of determinations made by designated State unit personnel.

(a) Procedures. The designated State unit must develop and implement procedures to ensure that an applicant or eligible individual who is dissatisfied with any determination made by personnel of the designated State unit that affects the provision of vocational rehabilitation services may request, or, if appropriate, may request through the individual’s representative, a timely review of that determination. The procedures must be in accordance with paragraphs (b) through (k) of this section:

(b) General requirements—(1) Notification. Procedures established by the State unit under this section must provide an applicant or eligible individual or, as appropriate, the individual’s representative notice of—

(i) The right to obtain review of State unit determinations that affect the provision of vocational rehabilitation services through an impartial due process hearing under paragraph (e) of this section;

(ii) The right to pursue mediation under paragraph (d) of this section with respect to determinations made by designated State unit personnel that affect the provision of vocational rehabilitation services to an applicant or eligible individual;

(iii) The names and addresses of individuals with whom requests for mediation or due process hearings may be filed;

(iv) The manner in which a mediator or impartial hearing officer may be selected consistent with the requirements of paragraphs (d) and (f) of this section; and

(v) The availability of the client assistance program, established under 34 CFR part 370, to assist the applicant or eligible individual during mediation sessions or impartial due process hearings.

(2) Timing. Notice described in paragraph (b)(1) of this section must be provided in writing—

(i) At the time the individual applies for vocational rehabilitation services under this part;

(ii) At the time the individual is assigned to a category in the State’s order of selection, if the State has established an order of selection under §361.36;

(iii) At the time the IPE is developed; and

(iv) Whenever vocational rehabilitation services for an individual are reduced, suspended, or terminated.

(3) Evidence and representation. Procedures established under this section must—

(i) Provide an applicant or eligible individual or, as appropriate, the individual’s representative with an opportunity to submit during mediation sessions or due process hearings evidence and other information that supports the applicant’s or eligible individual’s position; and

(ii) Allow an applicant or eligible individual to be represented during mediation sessions or due process hearings by counsel or other advocate selected by the applicant or eligible individual.

(4) Impact on provision of services. The State unit may not institute a suspension, reduction, or termination of vocational rehabilitation services being provided to an applicant or eligible individual, including evaluation and assessment services and IPE development, pending a resolution through mediation, pending a decision by a hearing officer or reviewing official, or pending informal resolution under this section unless—

(i) The individual or, in appropriate cases, the individual’s representative requests a suspension, reduction, or termination of services; or

(ii) The State agency has evidence that the services have been obtained through misrepresentation, fraud, collusion, or criminal conduct on the part of the individual or the individual’s representative.

(5) Ineligibility. Applicants who are found ineligible for vocational rehabilitation services and previously eligible individuals who are determined to be
§ 361.57

no longer eligible for vocational rehabilitation services pursuant to §361.43 are permitted to challenge the determinations of ineligibility under the procedures described in this section.

(c) Informal dispute resolution. The State unit may develop an informal process for resolving a request for review without conducting mediation or a formal hearing. A State’s informal process must not be used to deny the right of an applicant or eligible individual to a hearing under paragraph (e) of this section or any other right provided under this part, including the right to pursue mediation under paragraph (d) of this section. If informal resolution under this paragraph or mediation under paragraph (d) of this section is not successful in resolving the dispute within the time period established under paragraph (e)(1) of this section, a formal hearing must be conducted within that same time period, unless the parties agree to a specific extension of time.

(d) Mediation. (1) The State must establish and implement procedures, as required under paragraph (b)(1)(ii) of this section, to allow an applicant or eligible individual and the State unit to resolve disputes involving State unit determinations that affect the provision of vocational rehabilitation services through a mediation process that must be made available, at a minimum, whenever an applicant or eligible individual or, as appropriate, the individual’s representative requests a mediation. If informal resolution under this paragraph or mediation under paragraph (d) of this section is not successful in resolving the dispute within the time period established under paragraph (e)(1) of this section, a formal hearing must be conducted within that same time period, unless the parties agree to a specific extension of time.

(2) Mediation procedures established by the State unit under paragraph (d) must ensure that—

(i) Participation in the mediation process is voluntary on the part of the applicant or eligible individual, as appropriate, and on the part of the State unit;

(ii) Use of the mediation process is not used to deny or delay the applicant’s or eligible individual’s right to pursue resolution of the dispute through an impartial hearing held within the time period specified in paragraph (e)(1) of this section or any other rights provided under this part. At any point during the mediation process, either party or the mediator may elect to terminate the mediation. In the event mediation is terminated, either party may pursue resolution through an impartial hearing;

(iii) The mediation process is conducted by a qualified and impartial mediator, as defined in §361.5(b)(43), who must be selected from a list of qualified and impartial mediators maintained by the State—

(A) On a random basis;

(B) By agreement between the director of the designated State unit and the applicant or eligible individual or, as appropriate, the individual’s representative; or

(C) In accordance with a procedure established in the State for assigning mediators, provided this procedure ensures the neutrality of the mediator assigned; and

(iv) Mediation sessions are scheduled and conducted in a timely manner and are held in a location and manner that is convenient to the parties to the dispute.

(3) Discussions that occur during the mediation process must be kept confidential and may not be used as evidence in any subsequent due process hearings or civil proceedings, and the parties to the mediation process may be required to sign a confidentiality pledge prior to the commencement of the process.

(4) An agreement reached by the parties to the dispute in the mediation process must be described in a written mediation agreement that is developed by the parties with the assistance of a qualified and impartial mediator and signed by both parties. Copies of the agreement must be sent to both parties.

(5) The costs of the mediation process must be paid by the State. The State is not required to pay for any costs related to the representation of an applicant or eligible individual authorized under paragraph (b)(3)(ii) of this section.

(e) Impartial due process hearings. The State unit must establish and implement formal review procedures, as required under paragraph (b)(1)(i) of this section, that provide that—

(1) A hearing conducted by an impartial hearing officer, selected in accordance with paragraph (f) of this section,
must be held within 60 days of an applicant’s or eligible individual’s request for review of a determination made by personnel of the State unit that affects the provision of vocational rehabilitation services to the individual, unless informal resolution or a mediation agreement is achieved prior to the 60th day or the parties agree to a specific extension of time;

(2) In addition to the rights described in paragraph (b)(3) of this section, the applicant or eligible individual or, if appropriate, the individual’s representative must be given the opportunity to present witnesses during the hearing and to examine all witnesses and other relevant sources of information and evidence;

(3) The impartial hearing officer must—

(i) Make a decision based on the provisions of the approved State plan, the Act, Federal vocational rehabilitation regulations, and State regulations and policies that are consistent with Federal requirements; and

(ii) Provide to the individual or, if appropriate, the individual’s representative and to the State unit a full written report of the findings and grounds for the decision within 30 days of the completion of the hearing; and

(4) The hearing officer’s decision is final, except that a party may request an impartial review under paragraph (g)(1) of this section if the State has established both a designated State agency and a designated State unit under §361.13(b); or

(g) Administrative review of hearing officer’s decision. The State may establish procedures to enable a party who is dissatisfied with the decision of the impartial hearing officer to seek an impartial administrative review of the decision under paragraph (e)(3) of this section in accordance with the following requirements:

(1) A request for administrative review under paragraph (g) of this section must be made within 20 days of the mailing of the impartial hearing officer’s decision.

(2) Administrative review of the hearing officer’s decision must be conducted by—

(i) The chief official of the designated State agency if the State has established both a designated State agency and a designated State unit under §361.13(b); or

(ii) An official from the office of the Governor.

(3) The reviewing official described in paragraph (g)(2)(i) of this section—

(i) Provides both parties with an opportunity to submit additional evidence and information relevant to a final decision concerning the matter under review;

(ii) May not overturn or modify the hearing officer’s decision, or any part of that decision, that supports the position of the applicant or eligible individual unless the reviewing official concludes, based on clear and convincing evidence, that the decision of the impartial hearing officer is clearly erroneous on the basis of being contrary to the approved State plan, the Act, Federal vocational rehabilitation regulations, or State regulations and policies that are consistent with Federal requirements;

(iii) Makes an independent, final decision following a review of the entire hearing record and provides the decision in writing, including a full report of the findings and the statutory, regulatory, or policy grounds for the decision, to the applicant or eligible individual or, as appropriate, the individual’s representative and to the State unit within 30 days of the request for administrative review under paragraph (g)(1) of this section; and
(iv) May not delegate the responsibility for making the final decision under paragraph (g) of this section to any officer or employee of the designated State unit.

(4) The reviewing official’s decision under paragraph (g) of this section is final unless either party brings a civil action under paragraph (i) of this section.

(h) Implementation of final decisions. If a party brings a civil action under paragraph (h) of this section to challenge the final decision of an impartial hearing officer under paragraph (e) of this section or to challenge the final decision of a State reviewing official under paragraph (g) of this section, the final decision of the hearing officer or State reviewing official must be implemented pending review by the court.

(i) Civil action. (1) Any party who disagrees with the findings and decision of an impartial hearing officer under paragraph (e) of this section in a State that has not established administrative review procedures under paragraph (g) of this section and any party who disagrees with the findings and decision under paragraph (g)(3)(iii) of this section have a right to bring a civil action with respect to the matter in dispute. The action may be brought in any State court of competent jurisdiction or in a district court of the United States of competent jurisdiction without regard to the amount in controversy.

(2) In any action brought under paragraph (i) of this section, the court—

(i) Receives the records related to the impartial due process hearing and the records related to the administrative review process, if applicable;

(ii) Hears additional evidence at the request of a party; and

(iii) Basing its decision on the preponderance of the evidence, grants the relief that the court determines to be appropriate.

(j) State fair hearing board. A fair hearing board as defined in §361.5(b)(22) is authorized to carry out the responsibilities of the impartial hearing officer under paragraph (e) of this section in accordance with the following criteria:

(1) The fair hearing board may conduct due process hearings either collectively or by assigning responsibility for conducting the hearing to one or more members of the fair hearing board.

(2) The final decision issued by the fair hearing board following a hearing under paragraph (j)(1) of this section must be made collectively by, or by a majority vote of, the fair hearing board.

(k) Data collection. (1) The director of the designated State unit must collect and submit, at a minimum, the following data to the Commissioner of the Rehabilitation Services Administration (RSA) for inclusion each year in the annual report to Congress under section 13 of the Act:

(i) A copy of the standards used by State reviewing officials for reviewing decisions made by impartial hearing officers under this section.

(ii) The number of mediations held, including the number of mediation agreements reached.

(iii) The number of hearings and reviews sought from impartial hearing officers and State reviewing officials, including the type of complaints and the issues involved.

(iv) The number of hearing officer decisions that were not reviewed by administrative reviewing officials.

(v) The number of hearing decisions that were reviewed by State reviewing officials and, based on these reviews, the number of hearing decisions that were—

(A) Sustained in favor of an applicant or eligible individual;

(B) Sustained in favor of the designated State unit;

(C) Reversed in whole or in part in favor of the applicant or eligible individual; and

(D) Reversed in whole or in part in favor of the State unit.

(2) The State unit director also must collect and submit to the Commissioner of RSA copies of all final decisions issued by impartial hearing officers under paragraph (e) of this section and by State review officials under paragraph (g) of this section.
(3) The confidentiality of records of applicants and eligible individuals maintained by the State unit may not preclude the access of the RSA Commissioner to those records for the purposes described in this section.

Subpart C—Financing of State Vocational Rehabilitation Programs

§ 361.60 Matching requirements.

(a) Federal share—(1) General. Except as provided in paragraph (a)(2) of this section, the Federal share for expenditures made by the State under the State plan, including expenditures for the provision of vocational rehabilitation services and the administration of the State plan, is 78.7 percent.

(2) Construction projects. The Federal share for expenditures made for the construction of a facility for community rehabilitation program purposes may not be more than 50 percent of the total cost of the project.

(b) Non-Federal share—(1) General. Except as provided in paragraph (b)(2) and (3) of this section, expenditures made under the State plan to meet the non-Federal share under this section must be consistent with the provisions of 34 CFR 80.24.

(2) Third party in-kind contributions. Third party in-kind contributions specified in 34 CFR 80.24(a)(2) may not be used to meet the non-Federal share under this section.

(3) Contributions by private entities. Expenditures made from contributions by private organizations, agencies, or individuals that are deposited in the account of the State agency or sole local agency in accordance with State law and that are earmarked, under a condition imposed by the contributor, may be used as part of the non-Federal share under this section if the funds are earmarked for—

(i) Meeting in whole or in part the State’s share for establishing a community rehabilitation program or constructing a particular facility for community rehabilitation program purposes;

(ii) Particular geographic areas within the State for any purpose under the State plan, other than those described in paragraph (b)(3)(i) of this section, in accordance with the following criteria:

(A) Before funds that are earmarked for a particular geographic area may be used as part of the non-Federal share, the State must notify the Secretary that the State cannot provide the full non-Federal share without using these funds.

(B) Funds that are earmarked for a particular geographic area may be used as part of the non-Federal share without requesting a waiver of statewideness under §361.26.

(C) Except as provided in paragraph (b)(3)(i) of this section, all Federal funds must be used on a statewide basis consistent with §361.25, unless a waiver of statewideness is obtained under §361.26; and

(iii) Any other purpose under the State plan, provided the expenditures do not benefit in any way the donor, an individual to whom the donor is related by blood or marriage or with whom the donor has a close personal relationship, or an individual, entity, or organization with whom the donor shares a financial interest. The Secretary does not consider a donor’s receipt from the State unit of a grant, subgrant, or contract with funds allotted under this part to be a benefit for the purposes of this paragraph if the grant, subgrant, or contract is awarded under the State’s regular competitive procedures.

(Authority: Sections 7(14), 101(a)(3), 101(a)(4) and 104 of the Act; 29 U.S.C. 706(14), 721(a)(3), 721(a)(4) and 724)

Example for paragraph (b)(3): Contributions may be earmarked in accordance with §361.60(b)(3)(iii) for providing particular services (e.g., rehabilitation technology services); serving individuals with certain types of disabilities (e.g., individuals who are blind), consistent with the State’s order of selection, if applicable; providing services to special groups that State or Federal law permits to be targeted for services (e.g., students with disabilities who are receiving special education services), consistent with the State’s order of selection, if applicable; or carrying out particular types of administrative activities permissible under State law.
Contributions also may be restricted to particular geographic areas to increase services or expand the scope of services that are available statewide under the State plan in accordance with the requirements in §361.60(b)(3)(ii).

(Approved by the Office of Management and Budget under control number 1820-0500)

§ 361.61 Limitation on use of funds for construction expenditures.

No more than 10 percent of a State’s allotment for any fiscal year under section 110 of the Act may be spent on the construction of facilities for community rehabilitation program purposes.

§ 361.62 Maintenance of effort requirements.

(a) General requirements. (1) The Secretary reduces the amount otherwise payable to a State for a fiscal year by the amount by which the total expenditures from non-Federal sources under the State plan for the previous fiscal year were less than the total of those expenditures for the fiscal year 2 years prior to the previous fiscal year.

Example: For fiscal year 2001, a State’s maintenance of effort level is based on the amount of its expenditures from non-Federal sources for fiscal year 1999. Thus, if the State’s non-Federal expenditures in 2001 are less than they were in 1999, the State has a maintenance of effort deficit, and the Secretary reduces the State’s allotment in 2002 by the amount of that deficit.

(2) If, at the time the Secretary makes a determination that a State has failed to meet its maintenance of effort requirements, it is too late for the Secretary to make a reduction in accordance with paragraph (a)(1) of this section, then the Secretary recovers the amount of the maintenance of effort deficit through audit disallowance.

(b) Specific requirements for construction of facilities. If the State provides for the construction of a facility for community rehabilitation program purposes, the amount of the State’s share of expenditures for vocational rehabilitation services under the plan, other than for the construction of a facility for community rehabilitation program purposes or the establishment of a facility for community rehabilitation purposes, must be at least equal to the expenditures for those services for the second prior fiscal year. If a State fails to meet the requirements of this paragraph, the Secretary recovers the amount of the maintenance of effort deficit through audit disallowance.

(c) Separate State agency for vocational rehabilitation services for individuals who are blind. If there is a separate part of the State plan administered by a separate State agency to provide vocational rehabilitation services for individuals who are blind—

(1) Satisfaction of the maintenance of effort requirements under paragraphs (a) and (b) of this section are determined based on the total amount of a State’s non-Federal expenditures under both parts of the State plan; and

(2) If a State fails to meet any maintenance of effort requirement, the Secretary reduces the amount otherwise payable to the State for that fiscal year under each part of the plan in direct relation to the amount by which expenditures from non-Federal sources under each part of the plan in the previous fiscal year were less than they were for that part of the plan for the fiscal year 2 years prior to the previous fiscal year.

(d) Waiver or modification. (1) The Secretary may waive or modify the maintenance of effort requirement in paragraph (a)(1) of this section if the Secretary determines that a waiver or modification is necessary to permit the State to respond to exceptional or uncontrollable circumstances, such as a major natural disaster or a serious economic downturn, that—

(i) Cause significant unanticipated expenditures or reductions in revenue that result in a general reduction of programs within the State; or

(ii) Require the State to make substantial expenditures in the vocational rehabilitation program for long-term purposes due to the one-time costs associated with the construction of a facility for community rehabilitation program purposes, the establishment of a facility for community rehabilitation program purposes, or the acquisition of equipment.
(2) The Secretary may waive or modify the maintenance of effort requirement in paragraph (b) of this section or the 10 percent allotment limitation in §361.61 if the Secretary determines that a waiver or modification is necessary to permit the State to respond to exceptional or uncontrollable circumstances, such as a major natural disaster, that result in significant destruction of existing facilities and require the State to make substantial expenditures for the construction of a facility for community rehabilitation program purposes or the establishment of a facility for community rehabilitation program purposes in order to provide vocational rehabilitation services.

(3) A written request for waiver or modification, including supporting justification, must be submitted to the Secretary as soon as the State determines that an exceptional or uncontrollable circumstance will prevent it from making its required expenditures from non-Federal sources.

§361.63 Program income.

(a) Definition. For purposes of this section, program income means gross income received by the State that is directly generated by an activity supported under this part.

(b) Sources. Sources of program income include, but are not limited to, payments from the Social Security Administration for assisting Social Security beneficiaries and recipients to achieve employment outcomes, payments received from workers’ compensation funds, fees for services to defray part or all of the costs of services provided to particular individuals, and income generated by a State-operated community rehabilitation program.

(c) Use of program income. (1) Except as provided in paragraph (c)(2) of this section, program income, whenever earned, must be used for the provision of vocational rehabilitation services and the administration of the State plan. Program income is considered earned when it is received.

(2) Payments provided to a State from the Social Security Administration for assisting Social Security beneficiaries and recipients to achieve employment outcomes may also be used to carry out programs under part B of Title I of the Act (client assistance), part B of Title VI of the Act (supported employment), and Title VII of the Act (independent living).

(3) The State is authorized to treat program income as—

(i) An addition to the grant funds to be used for additional allowable program expenditures, in accordance with 34 CFR 80.25(g)(2); or

(ii) A deduction from total allowable costs, in accordance with 34 CFR 80.25(g)(1).

(4) Program income cannot be used to meet the non-Federal share requirement under §361.60.

(Authority: Section 108 of the Act; 29 U.S.C. 728; 34 CFR 80.25)

§361.64 Obligation of Federal funds and program income.

(a) Except as provided in paragraph (b) of this section, any Federal funds, including reallocated funds, that are appropriated for a fiscal year to carry out a program under this part that are not obligated by the State by the beginning of the succeeding fiscal year and any program income received during a fiscal year that is not obligated by the State by the beginning of the succeeding fiscal year remain available for obligation by the State during that succeeding fiscal year.

(b) Federal funds appropriated for a fiscal year remain available for obligation in the succeeding fiscal year only to the extent that the State met the matching requirement for those Federal funds by obligating, in accordance with 34 CFR 76.707, the non-Federal share in the fiscal year for which the funds were appropriated.

(Authority: Section 19 of the Act; 29 U.S.C. 716)
§ 361.65 Allotment and payment of Federal funds for vocational rehabilitation services.

(a) Allotment. (1) The allotment of Federal funds for vocational rehabilitation services for each State is computed in accordance with the requirements of section 110 of the Act, and payments are made to the State on a quarterly basis, unless some other period is established by the Secretary.

(2) If the State plan designates one State agency to administer, or supervise the administration of, the part of the plan under which vocational rehabilitation services are provided for individuals who are blind and another State agency to administer the rest of the plan, the division of the State’s allotment is a matter for State determination.

(b) Reallotment. (1) The Secretary determines not later than 45 days before the end of a fiscal year which States, if any, will not use their full allotment.

(2) As soon as possible, but not later than the end of the fiscal year, the Secretary reallocates these funds to other States that can use those additional funds during the current or subsequent fiscal year, provided the State can meet the matching requirement by obligating the non-Federal share of any reallotted funds in the fiscal year for which the funds were appropriated.

(3) Funds reallocated to another State are considered to be an increase in the recipient State’s allotment for the fiscal year for which the funds were appropriated.

Subpart D [Reserved]

Subpart E—Evaluation Standards and Performance Indicators

§ 361.80 Purpose.

The purpose of this subpart is to establish evaluation standards and performance indicators for the Program.

(Authority: 29 U.S.C. 726(a))
year 1999. However, DSUs that exclusively serve individuals with visual impairments or blindness must report each year the aggregated data for the 2 previous years for Performance Indicators 1.1 through 1.6; the second year must coincide with the performance period for general or combined DSUs.

**Primary indicators** means Performance Indicators 1.3, 1.4, and 1.5, which are specifically designed to measure—

1. The achievement of competitive, self-, or BEP employment with earnings equivalent to the minimum wage or higher, particularly by individuals with significant disabilities; and
2. The ratio between the average hourly earnings of individuals who exit the VR program in competitive, self-, or BEP employment with earnings equivalent to the minimum wage or higher and the State’s average hourly earnings for all employed individuals.

**RSA–911** means the Case Service Report that is submitted annually by a DSU as approved by the Office of Management and Budget (OMB).

**Self-employment** means an employment outcome in which the individual works for profit or fee in his or her own business, farm, shop, or office, including sharecroppers.

**Service rate** means the result obtained by dividing the number of individuals who exit the VR program after receiving one or more services under an IPE during any reporting period by the total number of individuals who exit the VR program (as defined in this section) during that reporting period.

**State’s average hourly earnings** means the average hourly earnings of all persons in the State in which the DSU is located.

(Authority: 29 U.S.C. 726(a))

### § 361.82 Evaluation standards.

(a) The Secretary establishes two evaluation standards to evaluate the performance of each DSU that receives funds under this part. The evaluation standards assist the Secretary and each DSU to evaluate a DSU’s performance in serving individuals with disabilities under the VR program.

(b) A DSU must achieve successful performance on both evaluation standards during each performance period.

(c) The evaluation standards for the VR program are—

1. **Evaluation Standard 1—Employment outcomes.** A DSU must assist any eligible individual, including an individual with a significant disability, to obtain, maintain, or regain high-quality employment.

2. **Evaluation Standard 2—Equal access to services.** A DSU must ensure that individuals from minority backgrounds have equal access to VR services.

Approved by the Office of Management and Budget under control number 1820–0508

(Authority: 29 U.S.C. 726(a))

### § 361.84 Performance indicators.

(a) The performance indicators establish what constitutes minimum compliance with the evaluation standards.

(b) The performance indicators require a DSU to provide information on a variety of factors to enable the Secretary to measure compliance with the evaluation standards.

(c) The performance indicators are as follows:

1. **Employment outcomes.**

   (i) **Performance Indicator 1.1.** The number of individuals exiting the VR program who achieved an employment outcome during the current performance period compared to the number of individuals who exit the VR program after achieving an employment outcome during the previous performance period.

   (ii) **Performance Indicator 1.2.** Of all individuals who exit the VR program after receiving services, the percentage who are determined to have achieved an employment outcome.

   (iii) **Performance Indicator 1.3.** Of all individuals determined to have achieved an employment outcome, the percentage who exit the VR program in competitive, self-, or BEP employment with earnings equivalent to at least the minimum wage.

   (iv) **Performance Indicator 1.4.** Of all individuals who exit the VR program in competitive, self-, or BEP employment with earnings equivalent to at least the minimum wage, the percentage who are individuals with significant disabilities.

   (v) **Performance Indicator 1.5.** The average hourly earnings of all individuals
who exit the VR program in competitive, self-, or BEP employment with earnings levels equivalent to at least the minimum wage as a ratio to the State’s average hourly earnings for all individuals in the State who are employed (as derived from the Bureau of Labor Statistics report “State Average Annual Pay” for the most recent available year).

(vi) Performance Indicator 1.6. Of all individuals who exit the VR program in competitive, self-, or BEP employment with earnings equivalent to at least the minimum wage, the difference between the percentage who report their own income as the largest single source of economic support at the time they exit the VR program and the percentage who report their own income as the largest single source of support at the time they apply for VR services.

(2) Equal access to services—(1) Performance Indicator 2.1. The service rate for all individuals with disabilities from minority backgrounds as a ratio to the service rate for all non-minority individuals with disabilities.

(Approved by the Office of Management and Budget under control number 1820–0508)

(Authority: 29 U.S.C. 726(a))

§ 361.86 Performance levels.

(a) General. (1) Paragraph (b) of this section establishes performance levels for—

(i) General or combined DSUs; and

(ii) DSUs serving exclusively individuals who are visually impaired or blind.

(2) The Secretary may establish, by regulations, new performance levels.

(b) Performance levels for each performance indicator. (1)(i) The performance levels for Performance Indicators 1.1 through 1.6 are—

(ii) To achieve successful performance on Evaluation Standard 2 (Equal access), DSUs must meet or exceed the performance level established for Performance Indicator 2.1 or meet the performance requirement in paragraph (2)(ii) of this section.

(iii) If a DSU’s performance does not meet or exceed the performance level required for Performance Indicator 2.1, or if fewer than 100 individuals from a minority population have exited the VR program during the reporting period, the DSU must describe the policies it has adopted or will adopt and the steps it has taken or will take to ensure that individuals with disabilities from minority backgrounds have equal access to VR services.

(Authority: 29 U.S.C. 726(a))

§ 361.88 Reporting requirements.

(a) The Secretary requires that each DSU report within 60 days after the end of each fiscal year the extent to which the State is in compliance with the evaluation standards and performance indicators and include in this report the following RSA–911 data:

(1) The number of individuals who exited the VR program in each closure category as specified in the definition of “Exit the VR program” under §361.81.

(2) The number of individuals who exited the VR program in competitive, self-, or BEP employment with earnings at or above the minimum wage.

(3) The number of individuals with significant disabilities who exited the VR program in competitive, self-, or BEP employment with earnings at or above the minimum wage.

(4) The weekly earnings and hours worked of individuals who exited the VR program in competitive, self-, or
BEP employment with earnings at or above the minimum wage.

(5) The number of individuals who exited the VR program in competitive, self-, or BEP employment with earnings at or above the minimum wage whose primary source of support at the time they applied for VR services was "personal income."

(6) The number of individuals who exited the VR program in competitive, self-, or BEP employment with earnings at or above the minimum wage whose primary source of support at closure was "personal income."

(7) The number of individuals exiting the VR program who are individuals from a minority background.

(8) The number of non-minority individuals exiting the VR program.

(9) The number of individuals from a minority background exiting the VR program after receiving services under an IPE.

(10) The number of non-minority individuals exiting the VR program after receiving services under an IPE.

(b) In lieu of the report required in paragraph (a) of this section, a DSU may submit its RSA–911 data on tape, diskette, or any alternative electronic format that is compatible with RSA’s capability to process such an alternative, as long as the tape, diskette, or alternative electronic format includes the data that—

(1) Are required by paragraph (a)(1) through (10) of this section; and

(2) Meet the requirements of paragraph (c) of this section.

(c) Data reported by a DSU must be valid, accurate, and in a consistent format. If a DSU fails to submit data that are valid, accurate, and in a consistent format within the 60-day period, the DSU must develop a program improvement plan pursuant to §361.89(a).

§361.89 Enforcement procedures.

(a) If a DSU fails to meet the established performance levels on both evaluation standards as required by §361.82(b), the Secretary and the DSU must jointly develop a program improvement plan that outlines the specific actions to be taken by the DSU to improve program performance.

(b) In developing the program improvement plan, the Secretary considers all available data and information related to the DSU’s performance.

(c) When a program improvement plan is in effect, review of the plan is conducted on a biannual basis. If necessary, the Secretary may request that a DSU make further revisions to the plan to improve performance. If the Secretary establishes new performance levels under §361.86(a)(2), the Secretary and the DSU must jointly modify the program improvement plan based on the new performance levels. The Secretary continues reviews and requests revisions until the DSU sustains satisfactory performance based on the current performance levels over a period of more than 1 year.

(d) If the Secretary determines that a DSU with less than satisfactory performance has failed to enter into a program improvement plan or comply substantially with the terms and conditions of the program improvement plan, the Secretary, consistent with the procedures specified in §361.11, reduces or makes no further payments to the DSU under this program until the DSU has met one of these two requirements or raised its subsequent performance to meet the current overall minimum satisfactory level on the compliance indicators.

APPENDIX A TO PART 361—QUESTIONS AND ANSWERS

The following questions and answers provide a summary of some of the most common and critical questions that we received regarding this part 361 and the applicable responses. As is evident from the responses, we maintain that redefining the term “employment outcome” for purposes of the VR program to mean outcomes that occur in integrated settings will promote the provision of opportunities for all VR-eligible individuals to pursue the types of jobs that generally are available to the public.
Is Extended Employment Still a Legitimate Employment Option?

Yes. Employment in a sheltered setting is a legitimate and valuable employment option for individuals with disabilities. Implementation of these regulations will not change that fact. Individuals still may choose to pursue long-term extended employment outside of the VR program, and these regulations ensure that those individuals' needs are met by requiring the VR agency to make the necessary referral to local extended employment providers.

Do the Regulations Restrict Individual Choice?

No. We interpret the concept of individual choice in the Act as a choice among the employment outcomes under the VR program specified in the statute or by the Secretary in regulations.

Extended employment (i.e., sheltered or non-integrated employment) remains both an initial step toward achieving integrated employment under the VR program and a long-term employment option through sources of support other than the VR program. In recognizing that some individuals with disabilities may wish to work in an extended employment setting, these regulations require the VR agency to ensure that these individuals are afforded the opportunity to do so by referring them to local extended employment providers. Those providers currently support the vast majority of sheltered workers through non-VR program resources. Moreover, persons wishing to prepare for integrated employment by initially working in an extended employment setting also may do so. In these cases, the VR agency cannot discontinue VR services until the individual transitions to integrated work in the community.

Can State Agencies Refuse To Serve Those With the Most Significant Disabilities?

No. Both the Act and regulations guard against that result. Persons with disabilities may not be excluded from the VR program based on an assumption or belief that the individual is incapable of working in an integrated setting. Rather, State units are required to establish clear and convincing evidence that an individual is incapable of achieving an employment outcome, for purposes of the VR program, and must conduct a trial work assessment of the individual's abilities before it can refuse services to any individual who it initially believes is incapable of working in an integrated job setting.

Are Homemaker and Unpaid Family Worker Considered Employment Outcomes for Purposes of the VR Program?

Yes. The chief purpose of the regulations is to ensure that individuals with disabilities participating in the VR program are able to pursue the same type of employment opportunities that are available to the general public. Extended employment jobs, unlike homemakers and unpaid family workers, are primarily reserved for those with disabilities.

Will the Regulations Serve To Close Down Sheltered Workshops?

No. Sheltered workshops are primarily supported by other State, local, and private resources and rely very little on VR program funds. Persons who prefer to work in extended employment on a long-term basis are assured access to local extended employment programs through the referral requirements in the regulations. Also, those participants in the VR program who can best prepare for integrated employment by working in an extended employment setting as part of a training and assessment program are able to follow that path as well. Thus, extended employment programs and sheltered workshops continue to serve essentially the same role that they currently serve.
