§ 1.487 Disclosure of information related to infection with the human immunodeficiency virus to public health authorities.

(a) In the case of any record which is maintained in connection with the performance of any program or activity relating to infection with the HIV, information may be disclosed to a Federal, State, or local public health authority, charged under Federal or State law with the protection of the public health, and to which Federal or State law requires disclosure of such record, if a qualified representative of such authority has made a written request that such record be provided as required pursuant to such law for a purpose authorized by such law. In the case of a State law, such law must, in order for VA to be able to release patient name and address information in accordance with 38 U.S.C. 5701(f)(2), provide for a penalty or fine or other sanction to be assessed against those individuals who are subject to the jurisdiction of the public health authority but fail to comply with the reporting requirements.

(b) A disclosure under this section may be made only if the physician or counselor, after making reasonable efforts to counsel and encourage the patient to provide the information to the spouse or sexual partner, reasonably believes that the patient will not provide the information to the spouse or sexual partner and that the disclosure is necessary to protect the health of the spouse or sexual partner.

(c) A disclosure under this section may be made by a physician or counselor other than the physician or counselor referred to in paragraph (b) of § 1.487.
§ 1.488 Research activities.

Subject to the provisions of 38 U.S.C. 5701, 38 CFR 1.500–1.527, the Privacy Act (5 U.S.C. 552a), 38 CFR 1.575–1.584 and the following paragraphs, patient medical record information covered by §§1.460 through 1.499 of this part may be disclosed for the purpose of conducting scientific research.

(a) Information in individually identifiable form may be disclosed from records covered by §§1.460 through 1.499 of this part for the purpose of conducting scientific research if the Under Secretary for Health or designee makes a determination that the recipient of the patient identifying information:

(1) Is qualified to conduct the research.

(2) Has a research protocol under which the information:

(i) Will be maintained in accordance with the security requirements provided in §1.466 of this part (or more stringent requirements); and

(ii) Will not be redisclosed except as permitted under paragraph (b) of this section.

(3) Has furnished a written statement that the research protocol has been reviewed by an independent group of three or more individuals who found that the rights of patients would be adequately protected and that the potential benefits of the research outweigh any potential risks to patient confidentiality posed by the disclosure of records.

(b) A person conducting research may disclose information obtained under paragraph (a) of this section only back to VA and may not identify any individual patient in any report of that research or otherwise disclose patient identities.

(Authority: 38 U.S.C. 7332(b)(2)(B))

§ 1.489 Audit and evaluation activities.

Subject to the provisions of 38 U.S.C. 5701, 38 CFR 1.500–1.527, the Privacy Act (5 U.S.C. 552a), 38 CFR 1.575–1.584 and the following paragraphs, patient medical records covered by §§1.460 through 1.499 of this part may be disclosed outside VA for the purposes of conducting audit and evaluation activities.

(a) Records not copies. If patient records covered by §§1.460 through 1.499 of this part are not copied, patient identifying information may be disclosed in the course of a review of records on VA facility premises to any person who agrees in writing to comply with the limitations on disclosure and use in paragraph (d) of this section and:

(1) Where audit or evaluation functions are performed by a State or Federal governmental agency on behalf of VA; or

(2) Who is determined by the VA facility director to be qualified to conduct the audit or evaluation activities.

(b) Copying of records. Records containing patient identifying information may be copied by any person who:

(1) Agrees in writing to:

(i) Maintain the patient identifying information in accordance with the security requirements provided in §1.466 of this part (or more stringent requirements);

(ii) Destroy all the patient identifying information upon completion of the audit or evaluation; and

(iii) Comply with the limitations on disclosure and use in paragraph (d) of this section.

(2) The VA medical facility director determines to be qualified to conduct the audit or evaluation activities.

(c) Congressional oversight. Records subject to §§1.460 through 1.499 of this part upon written request may be released to congressional committees or subcommittees for program oversight and evaluation if such records pertain to any matter within the jurisdiction of such committee or subcommittee.

(d) Limitation on disclosure and use. Records containing patient identifying information disclosed under this section may be disclosed only back to VA and used only to carry out an audit or evaluation purpose, or, to investigate or prosecute criminal or other activities as authorized by a court order entered under §1.494 of this part.
