subject to charges as required by § 17.101.

§ 17.44 Hospital care for certain retirees with chronic disability (Executive Orders 10122, 10400 and 11733).

Hospital care may be furnished when beds are available to members or former members of the uniformed services (Army, Navy, Air Force, Marine Corps, Coast Guard, Coast and Geodetic Survey, now National Oceanic and Atmospheric Administration hereinafter referred to as NOAA, and Public Health Service) temporarily or permanently retired for physical disability or receiving disability retirement pay who require hospital care for chronic diseases and who have no eligibility for hospital care under laws governing the Department of Veterans Affairs, or who having eligibility do not elect hospital care for chronic diseases.

(a) Persons defined in this section who are members or former members of the active military, naval, or air service must agree to pay the subsistence rate set by the Secretary of Veterans Affairs, except that no subsistence charge will be made for those persons who are members or former members of the Public Health Service, Coast Guard, Coast and Geodetic Survey now NOAA, and enlisted personnel of the Army, Navy, Marine Corps, and Air Force.

(b) Under this section, the term chronic diseases shall include chronic arthritis, malignancy, psychiatric disorders, poliomyelitis with residuals, neurological disabilities, diseases of the nervous system, severe injuries to the nervous system, including quadriplegia, hemiplegia and paraplegia, tuberculosis, blindness and deafness requiring definitive rehabilitation, disability from major amputation, and other diseases as may be agreed upon from time to time by the Under Secretary for Health and designated officials of the Department of Defense and Department of Health and Human Services. For the purpose of this section, blindness is defined as corrected visual acuity of 20/200 or less in the better eye, or corrected central visual acuity of more than 20/200 if there is a field defect in which the peripheral field has contracted to such an extent that its widest diameter subtends the widest diameter of the field of the better eye at an angle no greater than 20°.

(c) In the case of persons who are former members of the Coast and Geodetic Survey, care may be furnished under this section even though their retirement for disability was from the Environmental Science Services Administration or NOAA.

§ 17.45 Hospital care for research purposes.

Subject to the provisions of § 17.62(g), any person who is a bona fide volunteer may be admitted to a Department of Veterans Affairs hospital when the treatment to be rendered is part of an approved Department of Veterans Affairs research project and there are insufficient veteran-patients suitable for the project.

§ 17.46 Eligibility for hospital, domiciliary or nursing home care of persons discharged or released from active military, naval, or air service.

(a) In furnishing hospital care under 38 U.S.C. 1710(a)(1), VA officials shall:

(1) If the veteran is in immediate need of hospitalization, furnish care at VA facility where the veteran applies or, if that facility is incapable of furnishing care, arrange to admit the veteran to the nearest VA medical center, or Department of Defense hospital with which VA has a sharing agreement under 38 U.S.C. 8111, which is capable of providing the needed care, or if VA or DOD facilities are not available, arrange for care on a contract basis if authorized by 38 U.S.C. 1703 and 38 CFR 17.52; or
§ 17.47 Considerations applicable in determining eligibility for hospital, nursing home or domiciliary care.

(a)(1) For applicants discharged or released for disability incurred or aggravated in line of duty and who are not in receipt of compensation for service-connected or service-aggravated disability, the official records of the Armed Forces relative to findings of line of duty for its purposes will be accepted in determining eligibility for hospital care. Where the official records of the Armed Forces show a finding of disability not incurred or aggravated in line of duty and evidence is submitted to the Department of Veterans Affairs which permits of a different finding, the decision of the Armed Forces will not be binding upon the Department of Veterans Affairs, which will be free to make its own determination of line of duty incurrence or aggravation upon evidence so submitted. It will be incumbent upon the applicant to present controverting evidence and, until such evidence is presented and a determination favorable to the applicant is made by the Department of Veterans Affairs, the finding of the Armed Forces will control and hospital care will not be authorized. Such controverting evidence, when received from an applicant, will be referred to the adjudicating agency which would have jurisdiction if the applicant was filing claim for pension or disability compensation, and the determination of such agency as to line of duty, which is promptly to be communicated to the head of the field facility receiving the application for hospital care, will govern the facility Director's disapproval or approval of admission, other eligibility requirements having been met. Where the official records of the Armed Forces show that the disability for which a veteran was discharged or released from the Armed Forces under other than dishonorable conditions was incurred or aggravated in the line of duty, such showing will be accepted for the purpose of determining his or her eligibility for hospitalization, notwithstanding the fact that the Department of Veterans Affairs has made a determination in connection with a claim.
