Subpart O—Illinois

§ 52.719 Identification of plan—Conditional approval.

On April 7, 2010, Illinois submitted an amendment to its State Implementation Plan to add a new rule that limits

the amount of volatile organic compounds (VOCs) from consumer products and architectural and industrial maintenance coatings at Part 223 of Title 35 of the Illinois Administrative Code (35 IAC 223). Paragraphs (a)(6) and (a)(17), of 35 IAC 223.205 contain errors in the VOC limits listed for aerosol- and non aerosol-based antiperspirants and deodorants. 35 IAC 223.205(a)(6)(A) erroneously provides two high-volatility VOC limits for aerosol-based antiperspirants when there should be both a high- and medium-volatility limit for this category. 35 IAC 223.205(a)(6)(B) erroneously provides two medium-volatility VOC limits for non aerosol-based antiperspirants when there should be both a high- and medium-volatility limit for this category. 35 IAC 223.205(a)(17)(A) erroneously provides two high-volatility VOC limits for aerosol-based deodorants when there should be both a high- and medium-volatility limit for this category. 35 IAC 223.205(a)(17)(B) erroneously provides two medium-volatility VOC limits for non aerosol-based deodorants when there should be both a high- and medium-volatility limit for this category. The paragraphs are conditionally approved contingent on Illinois submitting to EPA revised provisions correcting these errors by July 8, 2013.
