§ 52.1339 Visibility protection.

(a) Reasonably Attributable Visibility Impairment. The requirements of section 169A of the Clean Air Act are not met because the plan does not include approvable measures for meeting the requirements of 40 CFR 51.306 for protection of visibility in mandatory Class I Federal areas.

(c) Regional Haze. The requirements of section 169A of the Clean Air Act are not met because the regional haze plan submitted by Missouri on August 5, 2009, and supplemented on January 30, 2012, does not include fully approvable measures for meeting the requirements of 40 CFR 51.306(d)(3) and 51.306(e) with respect to emissions of NO\textsubscript{X} and SO\textsubscript{2} from electric generating units. EPA has given limited approval and limited disapproval to the plan provisions addressing these requirements.
