

**§ 154.200**

**Subpart B—Disclosure and Review Provisions**

**§ 154.200 Rate increases subject to review.**

(a) A rate increase filed in a State on or after September 1, 2011, or effective on or after September 1, 2011, in a State that does not require a rate increase to be filed, is subject to review if:

(1) The rate increase is 10 percent or more, applicable to a 12-month period that begins on September 1, as calculated under paragraph (c) of this section; or

(2) The rate increase meets or exceeds a State-specific threshold applicable to a 12-month period that begins on September 1, as calculated under paragraph (c) of this section, determined by the Secretary. In establishing a State-specific threshold, the Secretary shall consult with the State and may consider relevant information provided by other interested parties. A State-specific threshold shall be based on factors impacting rate increases in a State to the extent that data relating to such State-specific factors is available.

(b) The Secretary will publish a notice no later than June 1 of each year concerning whether a threshold under paragraph (a)(1) or (2) of this section applies to a State; except that, with respect to the 12-month period that begins on September 1, 2011, the threshold under paragraph (a)(1) of this section applies.

(c) A rate increase meets or exceeds the applicable threshold set forth in paragraph (a) of this section if the average increase for all enrollees weighted by premium volume meets or exceeds the applicable threshold.

(d) If a rate increase that does not otherwise meet or exceed the threshold under paragraph (c) of this section meets or exceeds the threshold when combined with a previous increase or increases during the 12-month period preceding the date on which the rate increase would become effective, then the rate increase must be considered to meet or exceed the threshold and is subject to review under § 154.210, and such review shall include a review of

**45 CFR Subtitle A (10–1–12 Edition)**

the aggregate rate increases during the applicable 12-month period.

**§ 154.205 Unreasonable rate increases.**

(a) When CMS reviews a rate increase subject to review under § 154.210(a), CMS will determine that the rate increase is an unreasonable rate increase if the increase is an excessive rate increase, an unjustified rate increase, or an unfairly discriminatory rate increase.

(b) The rate increase is an excessive rate increase if the increase causes the premium charged for the health insurance coverage to be unreasonably high in relation to the benefits provided under the coverage. In determining whether the rate increase causes the premium charged to be unreasonably high in relationship to the benefits provided, CMS will consider:

(1) Whether the rate increase results in a projected medical loss ratio below the Federal medical loss ratio standard in the applicable market to which the rate increase applies, after accounting for any adjustments allowable under Federal law;

(2) Whether one or more of the assumptions on which the rate increase is based is not supported by substantial evidence; and

(3) Whether the choice of assumptions or combination of assumptions on which the rate increase is based is unreasonable.

(c) The rate increase is an unjustified rate increase if the health insurance issuer provides data or documentation to CMS in connection with the increase that is incomplete, inadequate or otherwise does not provide a basis upon which the reasonableness of an increase may be determined.

(d) The rate increase is an unfairly discriminatory rate increase if the increase results in premium differences between insureds within similar risk categories that:

(1) Are not permissible under applicable State law; or

(2) In the absence of an applicable State law, do not reasonably correspond to differences in expected costs.
