

§ 96.136

health planning organizations, local governmental entities and public and private-sector service providers that may be impacted by the waiver request;

(ix) Evidence that a State is committed to using the proposed new or rehabilitated substance abuse facility for the purposes stated in the request for at least 20 years for new construction and at least 10 years for rehabilitated facilities;

(x) An assurance that, if the facility ceases to be used for such services, or if the facility is sold or transferred for a purpose inconsistent with the State's waiver request, monies will be returned to the Federal Government in an amount proportionate to the Federal assistance provided, as it relates to the value of the facility at the time services cease or the facility sold or transferred;

(xi) A description of the methods used to minimize the costs of the construction or rehabilitation, including documentation of the costs of the residential facilities in the local area or other appropriate equivalent sites in the State;

(xii) An assurance that the State shall comply with the matching requirements of paragraph (d)(3) of this section; and

(xiii) Any other information the Secretary may determine to be appropriate.

§ 96.136 Independent peer review.

(a) The State shall for the fiscal year for which the grant is provided, provide for independent peer review to assess the quality, appropriateness, and efficacy of treatment services provided in the State to individuals under the program involved, and ensure that at least 5 percent of the entities providing services in the State under such program are reviewed. The programs reviewed shall be representative of the total population of such entities.

(b) The purpose of independent peer review is to review the quality and appropriateness of treatment services. The review will focus on treatment programs and the substance abuse service system rather than on the individual practitioners. The intent of the independent peer review process is to

45 CFR Subtitle A (10–1–12 Edition)

continuously improve the treatment services to alcohol and drug abusers within the State system. "Quality," for purposes of this section, is the provision of treatment services which, within the constraints of technology, resources, and patient/client circumstances, will meet accepted standards and practices which will improve patient/client health and safety status in the context of recovery. "Appropriateness," for purposes of this section, means the provision of treatment services consistent with the individual's identified clinical needs and level of functioning.

(c) The independent peer reviewers shall be individuals with expertise in the field of alcohol and drug abuse treatment. Because treatment services may be provided by multiple disciplines, States will make every effort to ensure that individual peer reviewers are representative of the various disciplines utilized by the program under review. Individual peer reviewers must also be knowledgeable about the modality being reviewed and its underlying theoretical approach to addictions treatment, and must be sensitive to the cultural and environmental issues that may influence the quality of the services provided.

(d) As part of the independent peer review, the reviewers shall review a representative sample of patient/client records to determine quality and appropriateness of treatment services, while adhering to all Federal and State confidentiality requirements, including 42 CFR Part 2. The reviewers shall examine the following:

- (1) Admission criteria/intake process;
- (2) Assessments;
- (3) Treatment planning, including appropriate referral, e.g., prenatal care and tuberculosis and HIV services;
- (4) Documentation of implementation of treatment services;
- (5) Discharge and continuing care planning; and
- (6) Indications of treatment outcomes.

(e) The State shall ensure that the independent peer review will not involve practitioners/providers reviewing their own programs, or programs in which they have administrative oversight, and that there be a separation of

peer review personnel from funding decisionmakers. In addition, the State shall ensure that independent peer review is not conducted as part of the licensing/certification process.

(f) The States shall develop procedures for the implementation of this section and such procedures shall be developed in consultation with the State Medical Director for Substance Abuse Services.

§ 96.137 Payment schedule.

(a) The Block Grant money that may be spent for §§96.124(c) and (e), 96.127 and 96.128 is governed by this section which ensures that the grant will be the “payment of last resort.” The entities that receive funding under the Block Grant and provides services required by the above-referenced sections shall make every reasonable effort, including the establishment of systems for eligibility determination, billing, and collection, to:

- (1) Collect reimbursement for the costs of providing such services to persons who are entitled to insurance benefits under the Social Security Act, including programs under title XVIII and title XIX, any State compensation program, any other public assistance program for medical expenses, any grant program, any private health insurance, or any other benefit program; and
- (2) Secure from patients or clients payments for services in accordance with their ability to pay.

APPENDIX A TO PART 96—UNIFORM DEFINITIONS OF SERVICES

- 1. Adoption Services
- 2. Case Management Services
- 3. Congregate Meals
- 4. Counseling Services
- 5. Day Care Services—Adults
- 6. Day Care Services—Children
- 7. Education and Training Services
- 8. Employment Services
- 9. Family Planning Services
- 10. Foster Care Services for Adults
- 11. Foster Care Services for Children

UNIFORM DEFINITIONS OF SERVICES

1. Adoption Services

Adoption services are those services or activities provided to assist in bringing about the adoption of a child. Component services and activities may include, but are not limited to, counseling the biological parent(s), recruitment of adoptive homes, and pre- and post-placement training and/or counseling.

2. Case Management Services

Case management services are services or activities for the arrangement, coordination, and monitoring of services to meet the needs of individuals and families. Component services and activities may include individual service plan development; counseling; monitoring, developing, securing, and coordinating services; monitoring and evaluating client progress; and assuring that clients' rights are protected.

3. Congregate Meals

Congregate meals are those services or activities designed to prepare and serve one or more meals a day to individuals in central dining areas in order to prevent institutionalization, malnutrition, and feelings of isolation. Component services or activities may include the cost of personnel, equipment, and food; assessment of nutritional and dietary needs; nutritional education and counseling; socialization; and other services such as transportation and information and referral.

4. Counseling Services

Counseling services are those services or activities that apply therapeutic processes to personal, family, situational, or occupational problems in order to bring about a positive resolution of the problem or improved individual or family functioning or circumstances. Problem areas may include family and marital relationships, parent-child problems, or drug abuse.
