

§ 641.19

the FEDERAL REGISTER. All such parties shall have a period of not less than ninety (90) days within which to review and comment upon the draft CEE.

(d) *Final CEE.* A final CEE shall address, and shall include or summarize, comments received on the draft CEE. The final CEE, notice of any decisions related thereto, and any evaluation of the significance of the predicted impacts in relation to the advantages of the proposed action shall be provided to the Department of State for circulation to all Parties to the Protocol, and shall be available to the public upon request, at least sixty (60) days prior to the commencement of the proposed activity in Antarctica. Notice of such public availability shall be published in the FEDERAL REGISTER.

(e) *Implementation of proposed action.* No final decision shall be taken to proceed in Antarctica with an action for which a final CEE is required until after the earlier of:

(1) The first Antarctic Treaty Consultative Meeting taking place at least one hundred and twenty days after circulation of the draft CEE, or

(2) Fifteen months following the circulation of the draft CEE.

§ 641.19 Modification of environmental documents.

The responsible official should revise or supplement an environmental document if there is a change in a proposed action that may have more than a minor or transitory effect on the antarctic environment, or if there are new circumstances or information that indicate the action may have impacts not anticipated in the original environmental document.

§ 641.20 Notification of the availability of environmental documents and other information.

The Environmental Officer, Office of Polar Programs, shall make Environmental Action Memoranda, environmental documents and final data obtained under § 641.21, available to the public upon request. However, notice of such availability need not be given, except as specifically provided in this part.

[57 FR 40339, Sept. 3, 1992, as amended at 59 FR 37438, July 22, 1994]

45 CFR Ch. VI (10–1–12 Edition)

§ 641.21 Monitoring.

Scientific, analytic and/or reporting procedures shall be put in place, including appropriate monitoring of key environmental indicators, to assess and verify the potential environmental impacts of actions which are the subject of a CEE. All proposed actions for which an environmental document has been prepared shall include procedures designed to provide a regular and verifiable record of the actual impacts of those actions, in order, *inter alia*, to

(a) Enable assessments to be made of the extent to which such impacts are consistent with the Protocol; and

(b) Provide information useful for minimizing or mitigating those impacts, and, where appropriate, information on the need for suspension, cancellation or modification of the action.

§ 641.22 Cases of emergency.

This part shall not apply to actions taken in cases of emergency relating to the safety of human life or of ships, aircraft or equipment and facilities of high value, or the protection of the environment which require an action to be taken without completion of the environmental review required by this part. Notice of any such actions which would otherwise have required the preparation of a CEE shall be provided immediately to the Department of State for circulation to all Parties to the Protocol and to committees and organizations established pursuant to the Treaty or Protocol, as required. A description of the emergency action undertaken shall also be provided to the Department of State for appropriate circulation within ninety days of the action.

PART 650—PATENTS

Sec.

650.1 Scope of part.

650.2 National Science Foundation patent policy.

650.3 Source of authority.

650.4 Standard patent rights clause.

650.5 Special patent provisions.

650.6 Awards not primarily for research.

650.7 Awards affected by international agreements.

650.8 Retention of rights by inventor.

650.9 Unwanted inventions.
