

Subpart A—General Provisions

§ 648.1 Purpose and scope.

(a) This part implements the fishery management plans (FMPs) for the Atlantic mackerel, squid, and butterfish fisheries (Atlantic Mackerel, Squid, and Butterfish FMP); Atlantic salmon (Atlantic Salmon FMP); the Atlantic sea scallop fishery (Scallop FMP); the Atlantic surfclam and ocean quahog fisheries (Atlantic Surfclam and Ocean Quahog FMP); the NE multispecies and monkfish fisheries ((NE Multispecies FMP) and (Monkfish FMP)); the summer flounder, scup, and black sea bass fisheries (Summer Flounder, Scup, and Black Sea Bass FMP); the Atlantic bluefish fishery (Atlantic Bluefish FMP); the Atlantic herring fishery (Atlantic Herring FMP); the spiny dogfish fishery (Spiny Dogfish FMP); the Atlantic deep-sea red crab fishery (Deep-Sea Red Crab FMP); the tilefish fishery (Tilefish FMP); and the NE skate complex fisheries (Skate FMP). These FMPs and the regulations in this part govern the conservation and management of the above named fisheries of the Northeastern United States.

(b) This part governs domestic fishing only. Foreign fishing is governed under subpart F of part 600 of this chapter.

[61 FR 34968, July 3, 1996, as amended at 61 FR 43424, Aug. 23, 1996; 62 FR 13299, Mar. 20, 1997; 65 FR 1568, Jan. 11, 2000; 65 FR 77464, Dec. 11, 2000; 66 FR 49192, Sept. 26, 2001; 67 FR 63229, Oct. 10, 2002; 68 FR 49699, Aug. 19, 2003; 76 FR 60649, Sept. 29, 2011]

§ 648.2 Definitions.

In addition to the definitions in the Magnuson Act and in § 600.10 of this chapter, the terms used in this part have the following meanings:

Alewife means *Alosa pseudoharengus*.

American lobster or *lobster* means *Homarus americanus*.

American shad means *Alosa sapidissima*.

Annual catch entitlement (ACE), with respect to the NE multispecies fishery, means the share of the annual catch limit (ACL) for each NE multispecies stock that is allocated to an individual sector or state-operated permit bank based upon the cumulative fishing history attached to each permit partici-

pating in that sector or held by a state-operated permit bank in a given year. This share may be adjusted due to penalties for exceeding the sector's ACE for a particular stock in earlier years, or due to other violations of the FMP, including the yearly sector operations plan. When a sector's or state-operated permit bank's share of a NE multispecies stock, as determined by the fishing histories of vessels participating in that sector or permits held by a state-operated permit bank, is multiplied by the available catch, the result is the amount of ACE (live weight in pounds) that can be harvested (landings and discards) by participants in that sector or transferred by a state-operated permit bank, during a particular fishing year.

At-sea monitor, with respect to the NE multispecies fishery, means any person responsible for observing, verifying, and reporting area fished, catch, and discards of all species by gear type for sector trips as part of an approved sector at-sea monitoring program.

Atlantic butterfish or *butterfish* means *Peprilus triacanthus*.

Atlantic croaker means *Micropogonias undulatus*.

Atlantic deep-sea red crab (red crab) means *Chaceon quinquegens*.

Atlantic hagfish means *Myxine glutinosa*.

Atlantic herring means *Clupea harengus*.

Atlantic herring carrier means a fishing vessel that may receive and transport herring caught by another fishing vessel, provided the vessel has been issued a herring permit, does not have any gear on board capable of catching or processing herring, and has on board a letter of authorization from the Regional Administrator to transport herring caught by another fishing vessel.

Atlantic herring dealer means:

(1) Any person who purchases or receives for a commercial purpose other than solely for transport or pumping operations any herring from a vessel issued a Federal Atlantic herring permit, whether offloaded directly from the vessel or from a shore-based pump, for any purpose other than for the purchaser's own use as bait; or
