Fishery Conservation and Management

(unless modified pursuant to paragraph (a) of this section.

(2) The sum of the TAL and estimated discards shall be less than or equal to the ACT.

(c) \textit{TAL allocation}. For each fishing year, up to 3 percent of the TAL may be set aside for the purpose of funding research. Once a research amount, if any, is set aside, the TAL will first be reduced by 5 percent to adjust for the incidental catch. The remaining TAL will be allocated to the individual IFQ permit holder as described in §648.294(a).

(d) \textit{Adjustments to the quota}. If the incidental harvest exceeds 5 percent of the TAL for a given fishing year, the incidental trip limit of 500 lb (226.8 kg) may be reduced in the following fishing year. If an adjustment is required, a notification of adjustment of the quota will be published in the \textit{Federal Register}.

(e) \textit{Research quota}. See §648.21(g).

§648.293 \textbf{Tilefish accountability measures.}

(a) If the ACL is exceeded, the amount of the ACL overage that cannot be directly attributed to IFQ allocation holders having exceeded their IFQ allocation will be deducted from the ACL in the following fishing year. All overages directly attributable to IFQ allocation holders will be deducted from the appropriate IFQ allocation(s) in the subsequent fishing year, as required by §648.294(f).

(b) [Reserved]

§648.294 \textbf{Individual fishing quota (IFQ) program.}

(a) \textit{IFQ allocation permits}. After adjustments for incidental catch, research set asides, and overages, as appropriate, pursuant to §648.292(c), the Regional Administrator shall divide the remaining TAL among the IFQ allocation permit holders who held an IFQ permit as of September 1 of a given fishing year. Allocations shall be made by applying the allocation percentages that exist on September 1 of a given fishing year to the IFQ TAL pursuant to §648.292(c), subject to any deductions for overages pursuant to paragraph (f) of this section. Amounts of IFQ of 0.5 lb (0.23 kg) or smaller created by this allocation shall be rounded downward to the nearest whole number, and amounts of IFQ greater than 0.5 lb (0.23 kg) created by this division shall be rounded upward to the nearest whole number, so that IFQ allocations are specified in whole pounds. These allocations shall be issued in the form of an annual IFQ allocation permit.

(b) \textit{Application}.—(1) General. Applicants for a permit under this section must submit a completed application on an appropriate form obtained from NMFS. The application must be filled out completely and signed by the applicant. Each application must include a declaration of all interests in IFQ allocations, as defined in §648.2, listed by IFQ allocation permit number, and must list all Federal vessel permit numbers for all vessels that an applicant owns or leases that would be authorized to possess tilefish pursuant to the IFQ allocation permit. The Regional Administrator will notify the applicant of any deficiency in the application.

(i) [Reserved]

(ii) Renewal applications. Applications to renew an IFQ allocation permit must be received by September 15 to be processed in time for the November 1 start of the fishing year. Renewal applications received after this date may not be approved, and a new permit may not be issued before the start of the next fishing year. An IFQ allocation permit holder must renew his/her IFQ allocation permit on an annual basis by submitting an application for such permit prior to the end of the fishing year for which the permit is required.

(2) \textit{Issuance}. Except as provided in subpart D of 15 CFR part 904, and provided an application for such permit is submitted by September 15, as specified in paragraph (b)(1)(ii) of this section, NMFS shall issue annual IFQ allocation permits on or before October 31 to those who hold permanent allocation as of September 1 of the current fishing year. During the period between September 1 and October 31, transfer of IFQ is not permitted, as described in paragraph (e)(4) of this section. The IFQ allocation permit shall specify the

817
allocation percentage of the IFQ TAL which the IFQ permit holder is authorized to harvest.

(3) **Duration.** An annual IFQ allocation permit is valid until October 31 of each fishing year unless it is suspended, modified, or revoked pursuant to 15 CFR part 904, or revised due to a transfer of all or part of the allocation percentage under paragraph (e) of this section. All Federal vessel permit numbers that are listed on the IFQ allocation permit are authorized to possess tilefish pursuant to the IFQ allocation permit until the end of the fishing year or until NMFS receives written notification from the IFQ allocation permit holder that the vessel is no longer authorized to possess tilefish pursuant to the IFQ allocation permit. An IFQ allocation permit holder that wishes to authorize an additional vessel(s) to possess tilefish pursuant to the IFQ allocation permit must send written notification to NMFS that includes the vessel permit number, and the dates on which the IFQ allocation permit holder desires the vessel to be authorized to land IFQ tilefish pursuant to the IFQ allocation permit to be effective.

(4) **Alteration.** An annual IFQ allocation permit that is altered, erased, or mutilated is invalid.

(5) **Replacement.** The Regional Administrator may issue a replacement permit upon written application of the annual IFQ allocation permit holder.

(6) **Transfer.** The annual IFQ allocation permit is valid only for the person to whom it is issued. All or part of the allocation specified in the IFQ allocation permit may be transferred in accordance with paragraph (e) of this section.

(7) **Abandonment or voluntary relinquishment.** Any IFQ Allocation permit that is voluntarily relinquished to the Regional Administrator, or deemed to have been voluntarily relinquished for failure to pay a recoverable cost fee, in accordance with the requirements specified in paragraph (b)(2) of this section, or for failure to renew in accordance with paragraph (b)(1)(ii) of this section, shall not be reissued or renewed in a subsequent year.

(c)-(d) [Reserved]

(e) **Transferring IFQ allocations—(1) Temporary transfers.** Unless otherwise restricted by the provisions in paragraph (e)(3) of this section, the owner of an IFQ allocation may transfer the entire IFQ allocation, or a portion of the IFQ allocation, to any person or entity eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a). Temporary IFQ allocation transfers shall be effective only for the fishing year in which the temporary transfer is requested and processed, unless the applicant specifically requests that the transfer be processed for the subsequent fishing year. The Regional Administrator has final approval authority for all temporary IFQ allocation transfer requests. The approval of a temporary transfer may be rescinded if the Regional Administrator finds that an emergency has rendered the lessee unable to fish for the transferred IFQ allocation, but only if none of the transferred allocation has been landed.

(2) **Permanent transfers.** Unless otherwise restricted by the provisions in paragraph (e)(3) of this section, an owner of an IFQ allocation may permanently transfer the entire IFQ allocation, or a portion of the IFQ allocation, to any person or entity eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a). The Regional Administrator has final approval authority for all permanent IFQ allocation transfer requests.

(3) **IFQ allocation transfer restrictions.**

(i) If IFQ allocation is temporarily transferred to any eligible entity, it may not be transferred by the transferee again within the same fishing year, unless the transfer is rescinded due to an emergency, as described in paragraph (e)(1) of this section.

(ii) A transfer of IFQ will not be approved by the Regional Administrator if it would result in an entity owning, or having an interest in, a percentage of IFQ allocation exceeding 49 percent of the total tilefish adjusted TAL.

(iii) If the owner of an IFQ allocation leases additional quota from another IFQ allocation permit holder, any landings associated with this transferred quota will be deducted from the total yearly landings of the lessee, before his/her base allocation, if any exists, for the purpose of calculating the appropriate cost-recovery fee. As described in paragraph (h) of this section,
Fishery Conservation and Management

§ 648.294

a tilefish IFQ allocation permit holder with a permanent allocation shall incur a cost-recovery fee, based on the value of landings of tilefish authorized under his/her tilefish IFQ allocation permit, including allocation that he/she leases to another IFQ allocation permit holder.

(4) Application for an IFQ allocation transfer. Any IFQ allocation permit holder applying for either permanent or temporary transfer of IFQ allocation must submit a completed IFQ Allocation Transfer Form, available from NMFS. The IFQ Allocation Transfer Form must be submitted to the NMFS Northeast Regional Office at least 30 days before the date on which the applicant desires to have the IFQ allocation transfer effective. The Regional Administrator shall notify the applicants of any deficiency in the application pursuant to this section. Applications for IFQ allocation transfers must be received by September 1 to be processed for the current fishing year.

(i) Application information requirements. An application to transfer IFQ allocation must include the following information: The type of transfer (either temporary or permanent); the signature of both parties involved; the price paid for the transfer; indicate eligibility to receive IFQ allocation; the amount of allocation to be transferred; and a declaration; by IFQ Allocation permit number, of all the IFQ allocations that the person or entity receiving the IFQ allocation has an interest. The person or entity receiving the IFQ allocation must indicate the permit numbers of all federally permitted vessels that will possess or land their IFQ allocation. Information obtained from the IFQ Allocation Transfer Form is confidential pursuant to 16 U.S.C. 1881a.

(ii) Approval of IFQ transfer applications. Unless an application to transfer IFQ is denied according to paragraph (e)(4)(iii) of this section, the Regional Administrator shall issue confirmation of application approval in the form of a new or updated IFQ allocation permit to the parties involved in the transfer within 30 days of receipt of a completed application.

(iii) Denial of transfer application. The Regional Administrator may reject an application to transfer IFQ allocation for the following reasons: The application is incomplete; the transferor does not possess a valid tilefish IFQ allocation permit; the transferor’s or transferee’s vessel or tilefish IFQ allocation permit has been sanctioned, pursuant to an enforcement proceeding under 15 CFR part 904; the transfer will result in the transferee having a tilefish IFQ allocation that exceeds 49 percent of the adjusted TAL allocated to IFQ allocation permit holders; the transfer is to a person or entity that is not eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a); or any other failure to meet the requirements of this subpart. Upon denial of an application to transfer IFQ allocation, the Regional Administrator shall send a letter to the applicant describing the reason(s) for the denial. The decision by the Regional Administrator is the final decision of the Department of Commerce; there is no opportunity for an administrative appeal.

(f) IFQ allocation overages. Any IFQ allocation that is exceeded, including amounts of tilefish landed by a lessee in excess of a temporary transfer of IFQ allocation, will be reduced by the amount of the overage in the subsequent fishing year(s). If an IFQ allocation overage is not deducted from the appropriate allocation before the IFQ allocation permit is issued for the subsequent fishing year, a revised IFQ allocation permit reflecting the deduction of the overage shall be issued by NMFS. If the allocation cannot be reduced in the subsequent fishing year because the full allocation has already been landed or transferred, the IFQ allocation permit will indicate a reduced allocation for the amount of the overage in the next fishing year.

(g) IFQ allocation acquisition restriction. No person or entity may acquire more than 49 percent of the annual adjusted tilefish TAL, specified pursuant to §648.294, at any point during a fishing year. For purposes of this paragraph, acquisition includes any permanent or temporary transfer of IFQ. The calculation of IFQ allocation for purposes of the restriction on acquisition includes IFQ allocation interests held by: A company in which the IFQ holder is a shareholder, officer, or partner; an
§ 648.294  
50 CFR Ch. VI (10–1–12 Edition)  
immediate family member; or a company in which the IFQ holder is a part owner or partner.

(h) **IFQ cost recovery.** A fee shall be determined as described in paragraph (h)(1) of this section, and collected to recover the government costs associated with management, data collection and analysis, and enforcement of the IFQ program. A tilefish IFQ allocation permit holder shall be responsible for paying the fee assessed by NMFS. A tilefish IFQ allocation permit holder with a permanent allocation shall incur a cost-recovery fee, based on the value of landings of tilefish authorized under his/her tilefish IFQ allocation permit, including allocation that he/she leases to another IFQ allocation permit holder. A tilefish IFQ allocation permit holder, with a permanent allocation, shall be responsible for submitting this payment to NMFS once per year, as specified in paragraph (h)(2) of this section. For the purpose of this section, the cost-recovery billing period is defined as the full calendar year, beginning with January 1, 2010. NMFS will create an annual IFQ allocation bill for each cost-recovery billing period and provide it to each IFQ allocation permit holder. The bill will include annual information regarding the amount and value of IFQ allocation landed during the prior cost-recovery billing period, and the associated cost-recovery fees. NMFS will also create a report that will detail the costs incurred by NMFS, for the management, enforcement, and data collection and analysis associated with the IFQ allocation program during the prior cost-recovery billing period.

(1) **NMFS determination of the total annual recoverable costs of the tilefish IFQ program.** The Regional Administrator shall determine the costs associated with the management, data collection and analysis, and enforcement of the IFQ allocation program. The recoverable costs will be divided by the amount of the total ex-vessel value of all tilefish IFQ landings during the cost-recovery billing period to derive a percentage. IFQ allocation permit holders will be assessed a fee based on this percentage multiplied by the total ex-vessel value of all landings under their permanent IFQ allocation permit, including landings of allocation that is leased. This fee shall not exceed 3 percent of the total value of tilefish landings of the IFQ allocation permit holder. If NMFS determines that the costs associated with the management, data collection and analysis, and enforcement of the IFQ allocation program exceed 3 percent of the total value of tilefish landings, only 3 percent are recoverable.

(ii) **Valuation of IFQ allocation.** The 3-percent limitation on cost-recovery fees shall be based on the ex-vessel value of landed allocation. The ex-vessel value for each pound of tilefish landed by an IFQ allocation holder shall be determined from Northeast Federal dealer reports submitted to NMFS, which include the price per pound paid to the vessel at the time of dealer purchase.

(ii) [Reserved]

(2) **Fee payment procedure.** An IFQ allocation permit holder who has incurred a cost-recovery fee must pay the fee to NMFS within 45 days of the date of the bill. Cost-recovery payments shall be made electronically via the Federal Web portal, http://www.pay.gov or other Internet sites designated by the Regional Administrator. Instructions for electronic payment shall be available on both the payment Web site and the cost-recovery fee bill. Electronic payment options shall include payment via a credit card, as specified in the cost-recovery bill, or via direct automated clearing house (ACH) withdrawal from a designated checking account. Alternatively, payment by check may be authorized by Regional Administrator if he/she determines that electronic payment is not possible.

(3) **Payment compliance.** If the cost-recovery payment, as determined by NMFS, is not made within the time specified in paragraph (h)(2) of this section, the Regional Administrator will deny the renewal of the appropriate IFQ allocation permit until full payment is received. If, upon preliminary review of a fee payment, the Regional Administrator determines that the IFQ allocation permit holder has not paid the full amount due, he/she shall notify the IFQ allocation permit holder in writing of the deficiency. NMFS shall
§ 648.295 Tilefish incidental trip limits.

(a) Incidental trip limit for vessels not fishing under an IFQ allocation. Any vessel of the United States fishing under a tilefish permit, as described at § 648.4(a)(12), is prohibited from possessing more than 500 lb (226.8 kg) of tilefish at any time, unless the vessel is fishing under a tilefish IFQ allocation permit, as specified at § 648.294(a).

Any tilefish landed by a vessel fishing under an IFQ allocation permit, on a given fishing trip, count as landings under the IFQ allocation permit.

(b) In-season closure of the incidental fishery. The Regional Administrator will monitor the harvest of the tilefish incidental TAL based on dealer reports and other available information, and shall determine the date when the incidental tilefish TAL has been landed.

The Regional Administrator shall publish a notice in the FEDERAL REGISTER notifying vessel and dealer permit holders that, effective upon a specific date, the incidental tilefish fishery is closed for the remainder of the fishing year.
