§ 648.63 General category Sectors and harvesting cooperatives.

(a) Procedure for implementing Sector allocation proposals. (1) Any person may submit a Sector allocation proposal for a group of LAGC scallop vessels to the Council, at least 1 year in advance of the start of the proposed sector, and request that the Sector be implemented through a framework procedure specified at § 648.55, in accordance with the conditions and restrictions of this section.

(2) Upon receipt of a Sector allocation proposal, the Council must decide whether to initiate such framework. Should a framework adjustment to authorize a Sector allocation be initiated, the Council shall follow the framework adjustment provisions of § 648.55. Any framework adjustment developed to implement a Sector allocation proposal must be in compliance with the general requirements specified in paragraphs (b) and (c) of this section.

(b) General requirements applicable to all Sector allocations. All Sectors approved under the provisions of paragraph (a) of this section must submit the documents specified under paragraphs (a)(1) and (c) of this section, and comply with the conditions and restrictions of this paragraph (b).

(1) Participation. (i) Only LAGC scallop vessels are eligible to form Sectors, and Sectors may choose which eligible permit holders to include or exclude in the sector, consistent with all applicable law. A Sector may establish additional criteria for determining its membership, provided such criteria are specified in the Sector’s operations plan and are consistent with all applicable law. Any interested group that meets the eligibility criteria may submit a proposal for a Sector. To initiate the process of Sector creation, a group (two or more) of permit holders must agree to cooperate and submit a binding plan for management of that Sector’s allocation of total allowable catch. Vessels that do not choose to participate in a sector will fish under the IFQ program and remain in the non-sector scallop fishery.

(ii) Participation by incidental catch or NGOM scallop vessels in the Sector is subject to approval by the Council as part of the action that implements the Sector allocation, provided the details of such participation are specified in the Sector’s operations plan. A Sector allocation may be harvested by non-Sector members, provided the Sector operations plan specifies that the Sector may authorize non-Sector vessels to harvest the Sector allocation. In this case, if the Sector is approved, the landings history of the participating non-Sector vessels may not be used in the calculation of future Sector shares and may not be used as scallop catch history for such vessels. The operations plan must specify how such participating non-Sector vessels shall be subject to the rules of the Sector.

(iii) Once a vessel operator and/or vessel owner signs a binding contract to have his/her vessel participate in a Sector, that vessel must remain in the Sector for the remainder of the fishing year.

(iv) Vessels that fish in the LAGC scallop fishery outside the Sector allocation in a given fishing year may not participate in a Sector during that same fishing year, unless the Operations Plan provides an acceptable method for accounting for IFQ used, or catch by the vessel, prior to implementation of the Sector.

(v) Once a vessel operator and/or vessel owner has agreed to participate in a Sector as specified in paragraph (b)(1)(iii) of this section, that vessel...
must remain in the Sector for the entire fishing year. If a permit is transferred by a Sector participant during the fishing year, the new owner must also comply with the Sector regulations for the remainder of the fishing year.

(vi) Vessels and vessel operators and/or vessel owners removed from a Sector for violation of the Sector rules will not be eligible to fish under the scallop regulations for non-Sector vessels specified under this part either for any period specified in the final decision of penalty or sanction.

(vii) If a pre-existing Sector accepts a new member, the percentage share brought to the Sector is based on that vessel’s average qualification landings at the time it joins the Sector (i.e., the vessel is treated as a “Sector of one” and a share based on the appropriate adjusted TACs is calculated). This new single-vessel-Sector share is added to the existing Sector. If a vessel leaves a Sector, that Sector’s share is reduced by the individual vessel share the exiting vessel had when it joined the Sector.

(viii) A vessel may not be a member of more than one Sector. Once a vessel enters into a Sector, it cannot fish during that fishing year under the regulations that apply to the common pool. Additionally, vessels cannot shift from one Sector to another during a single fishing year. Therefore, if a vessel leaves a Sector for any reason, it cannot participate in the general category scallop fishery during the remainder of that fishing year.

(2) Allocation of TAC to Sectors. (i) The sector allocation shall be equal to a percentage share of the ACL allocation for IFQ scallop vessels specified in §648.53(a), similar to an IFQ scallop vessel’s IFQ as specified in §648.53(h). The sector’s percentage share of the IFQ scallop fishery ACL catch shall not change, but the amount of allocation based on the percentage share will change based on the ACL specified in §648.53(a).

(ii) Sector share determination. When a Sector proposal is submitted, NMFS shall verify the contribution percentage as specified in §648.53(h)(2)(iii) for each vessel listed as a Sector member. The Sector’s share shall be the sum of the participating vessels’ contribution percentages.

(iii) A sector shall not be allocated more than 20 percent of the ACL for IFQ vessels specified in §648.53(a)(4)(i) or (ii).

(3) Once a Sector’s allocation is projected to be harvested, Sector operations will be terminated for the remainder of the fishing year.

(4) If a Sector’s allocation is exceeded in a given fishing year, the Sector, each vessel, and vessel operator and/or vessel owner participating in the Sector may be charged jointly and severally for civil penalties and permit sanction pursuant to 15 CFR part 904. If a Sector exceeds its allocation in more than one fishing year, the Sector’s authorization to operate may be withdrawn.

(5) A vessel operator and/or vessel owner participating in a Sector is not subject to the limit on the vessel’s catch based on the vessel’s own IFQ or contribution percentage as defined in §648.53(h)(2)(iii), provided the vessel is participating in the Sector and carries on board a Letter of Authorization to participate in the Sector and exempts the vessel from its IFQ limit and any other related measures. The Sector shall determine how the Sector’s allocation will be divided between its participating vessels, regardless of whether the catch by a participating vessel exceeds that vessel’s own IFQ.

(6) Each vessel operator and/or vessel owner fishing under an approved Sector must comply with all scallop management measures of this part and other applicable law, unless exempted under a Letter of Authorization, as specified in paragraph (b)(11) of this section. Each vessel and vessel operator and/or vessel owner participating in a Sector must also comply with all applicable requirements and conditions of the Operations Plan specified in paragraph (c) of this section and the Letter of Authorization issued pursuant to paragraph (b)(11) of this section. It shall be unlawful to violate any such conditions and requirements and each Sector, vessel, and vessel operator and/or vessel owner participating in the Sector may be charged jointly and severally for civil penalties and permit sanctions pursuant to 15 CFR part 904.
§ 648.63 50 CFR Ch. VI (10–1–12 Edition)

(7) Approved Sectors must submit an annual year-end report to NMFS and the Council, within 60 days of the end of the fishing year, that summarizes the fishing activities of its members, including harvest levels of all federally managed species by Sector vessels, enforcement actions, and other relevant information required to evaluate the performance of the Sector.

(8) It shall be the responsibility of each Sector to track its activity and internally enforce any provisions adopted through procedures established in the operations plan and agreed to through the Sector contract. Sector contracts should describe graduated sanctions, including grounds for expulsion of Sector member vessels. The Sector and participating Sector vessels shall be subject to NMFS enforcement action for violations of the regulations pertaining to Sectors and other regulations under 50 CFR part 648. Vessels operating within a Sector are responsible for judgments against the Sector. Sector operations plans shall specify how a Sector will monitor its landings to assure that Sector landings do not exceed the Sector allocation. At the end of the fishing year, NMFS shall evaluate landings using VMS and any other available information to determine whether a Sector has exceeded any of its allocations based on the list of participating vessels submitted in the operations plan. If a Sector exceeds its TAC, the Sector may have its authorization as a Sector withdrawn by the Regional Administrator, after consultation with the Council, and may be subject to enforcement action.

(9) Permanent or temporary transfers of allocation between Sectors or between Sector and non-Sector participants is prohibited. For purposes of harvesting a Sector allocation only, vessels under contract to a Sector are assumed to be part of that Sector for the duration of that contract.

(10) The Sector allocation proposal must contain an appropriate analysis that assesses the impact of the proposed Sector, in compliance with the National Environmental Policy Act.

(11) If a Sector is approved as specified in paragraph (d)(3) of this section, the Regional Administrator shall issue a Letter of Authorization to each vessel operator and/or owner for the participating Sector vessel. The Letter of Authorization shall authorize participation in the Sector operations and may exempt the participating vessel from the requirement that the vessel cannot exceed its own IFQ and related measures. The Letter of Authorization may include requirements and conditions deemed necessary to ensure effective administration of and compliance with the Sector’s operations plan and the Sector’s allocation.

(c) Operations plans. (1) A group that wants to form a Sector and receive an allocation must submit a legally binding operations plan to the Council and the Regional Administrator. The operations plan must be agreed upon and signed by all members of the Sector and, if approved, shall constitute a contract.

(2) The operations plan among all of the Sector members must have, at a minimum, the following components:

(i) A list of all participants;

(ii) A contract signed by all participants indicating their agreement to abide by the operations plan;

(iii) An entity name, address, phone number, and the name and contact information for a Sector representative (a manager or director) that NMFS can contact regarding Sector management issues;

(iv) A plan explaining how the Sector will harvest its allocation, including methods to inform NMFS of changes in those arrangements over the year;

(v) The original distribution of catch history of vessels in the Sector (maintaining vessel data confidentiality);

(vi) A plan detailing how the Sector will avoid exceeding its allocated TACs, including provisions for monitoring and enforcement of the Sector regulations, and documenting all landings and discards;

(vii) Rules for entry to and exit from the Sector, including sanctions and procedures for removing members who do not comply with the operations plan;

(viii) Procedure for notifying NMFS if a member is no longer part of the Sector and the reason for leaving;

(ix) The process through which the operations plan can be amended by Sector members;
§ 648.64 Yellowtail flounder sub-ACLs and AMs for the scallop fishery.

(a) As specified in §648.55(d), and pursuant to the biennial framework adjustment process specified in §648.90, the scallop fishery shall be allocated a sub-ACL for the Georges Bank and Southern New England/Mid-Atlantic stocks of yellowtail flounder. Unless otherwise specified in §648.90(a)(4)(iii)(C) of the NE multispecies regulations, the sub-ACLs for the 2011 through 2013 fishing years are as follows:

(1) 2011. 82 mt for the Southern New England/Mid-Atlantic stock of yellowtail flounder and 200.8 mt for the Georges Bank stock of yellowtail flounder.

(3) 2013. To be determined.

(b) Georges Bank accountability measure. (1) Unless otherwise specified in §648.90(a)(5)(iv) of the NE multispecies regulations, if the Georges Bank yellowtail flounder sub-ACL for the scallop fishery is exceeded, the area defined by the following coordinates shall be closed to scallop fishing by vessels issued a limited access scallop permit for the period of time specified in paragraph (b)(2) of this section:
