Nothing in this section requires the refuge manager to issue a special use permit if not otherwise mandated by statute to do so. Supplemental procedures for granting historical use, Native Corporation, and local preferences in the selection of commercial operators to hold permits to provide visitor services, other than hunting and fishing guiding on refuges in Alaska, are addressed in §36.37, Revenue producing visitor services.

(b) *Definitions.* As used in this section, the term or terms:

Entire business means all assets including, but not limited to, equipment, facilities, and other holdings directly associated with the permittee's type of commercial visitor service authorized by permit. This term also includes assets held under the name of separate business entities, which provide the same specific type of commercial visitor services authorized by permit, that the permittee has a financial interest in. The term does not include related enterprises owned by the permittee such as taxidermy and travel services;

Immediate family means the spouse and children, either by birth or adoption, of the permittee.

Operations plan means a narrative description of the commercial operations which contains all required information identified in the prospectus;

Subcontracting means any activity in which the permittee provides financial or other remuneration to anyone other than employees to conduct the specific commercial services authorized by the Service. The permittee's primary authorized activities must be conducted in a genuine employer/employee relationship where the source of all remuneration for services provided to clients is from the permittee. Subcontracting does not apply to booking services or authorized secondary services provided to clients in support of
