

Commodity Credit Corporation, USDA

§ 1415.2

lands through rental contracts, easements, and restoration agreements.

(b) GRP emphasizes:

- (1) Supporting grazing operations;
- (2) Maintaining and improving plant and animal biodiversity; and
- (3) Protecting grasslands and shrublands from the threat of conversion to uses other than grazing.

§ 1415.2 Administration.

(a) The regulations in this part set forth policies, procedures, and requirements for program implementation of GRP, as administered by the Natural Resources Conservation Service (NRCS) and the Farm Service Agency (FSA). The regulations in this part are administered under the general supervision and direction of the NRCS Chief and the FSA Administrator. These two agency leaders:

(1) Concur in the establishment of program policy and direction, development of the national allocation formula, and development of broad national ranking criteria;

(2) Use a national allocation formula to provide GRP funds to NRCS State Conservationists and FSA State Executive Directors that emphasizes support for grazing operations, biodiversity of plants and animals, and grasslands under the greatest threat of conversion to uses other than grazing. The national allocation formula may also include additional factors related to improving program implementation, as determined by the NRCS Chief and the FSA Administrator. The allocation formula may be modified periodically to change the emphasis of any factor(s) in order to address a particular natural resource concern, such as the precipitous decline of a population of a grassland-dependent bird(s) or animal(s);

(3) Ensure the national, State, and local-level information regarding program implementation is made available to the public;

(4) Consult with USDA leaders at the State level and other Federal agencies with the appropriate expertise and information when evaluating program policies and direction; and

(5) Authorize NRCS State Conservationists and FSA State Executive Directors to determine how funds will be

used and how the program will be implemented at the State level.

(b) At the State level, the NRCS State Conservationist and the FSA State Executive Director are jointly responsible for:

(1) Determining how funds will be used and how the program will be implemented at the State level to achieve the program purposes;

(2) Identifying State priorities for project selection based on input from the State Technical Committee;

(3) Identifying Department of Agriculture (USDA) employees at the field level responsible for implementing the program by considering the nature and extent of natural resource concerns throughout the State and the availability of human resources to assist with activities related to program enrollment;

(4) Developing, with advice from the State Technical Committee, program outreach materials at the State and local levels to help ensure landowners, operators, and tenants of eligible land are aware and informed that they may be eligible for the program;

(5) Approving conservation practices eligible for cost-share and cost-share rates;

(6) Developing GRP management plans and restoration agreements, when applicable;

(7) Administering and enforcing the terms of easements and rental contracts unless this responsibility is transferred to an eligible entity as provided in § 1415.17 and § 1415.18; and

(8) Developing, with advice from the State Technical Committee, criteria for ranking eligible land consistent with national criteria and program objectives and State priorities.

(c) The funds, facilities, and authorities of the Commodity Credit Corporation (CCC) are available to NRCS and FSA to implement GRP.

(d) Subject to funding availability, the program may be implemented in any of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(e) The NRCS Chief or the FSA Administrator may modify or waive a

§ 1415.3

7 CFR Ch. XIV (1–12 Edition)

provision of this part if he or she deems the application of that provision to a particular limited situation to be inappropriate and inconsistent with the conservation purposes and sound administration of GRP. This authority cannot be further delegated. No provision of this part, which is required by law, may be waived.

(f) No delegation in this part to lower organizational levels will preclude the NRCS Chief or the FSA Administrator from determining any issue arising under this part or from reversing or modifying any determination arising from this part.

(g) The USDA Forest Service may hold GRP easements on properties adjacent to USDA Forest Service land, with the consent of the landowner.

(h) Program participation is voluntary.

(i) Applications for participation will be accepted on a continual basis at local USDA Service Centers. Eligible entities wishing to enter into a cooperative agreement under § 1415.17 in order to purchase, own, write, and hold easements may apply on a continuous basis to the NRCS State Conservationist. The NRCS State Conservationist and FSA State Executive Director will establish cut-off periods to rank and select applications for participation. These cut-off periods will be available in program outreach material provided by the local USDA Service Center. Once funding levels have been exhausted, unfunded eligible applications will remain on file until they are funded or the applicant chooses to be removed from consideration.

(j) The services of third parties as provided for in part 652 of this title may be used to provide technical services to participants.

§ 1415.3 Definitions.

Activity means an action other than a conservation practice that is included as a part of a GRP management or conservation plan that has the effect of alleviating problems or improving treatment of the resources, including ensuring proper management or maintenance of the functions and values restored, protected, or enhanced through an easement or rental contract.

Administrator means the Administrator of FSA or the person delegated authority to act for the Administrator.

Applicant means a person, legal entity, joint operator, or Indian Tribe who applies to participate in the program.

Chief means the Chief of NRCS or designee.

Biological diversity means the variety and variability among living organisms and the ecological complexes in which they live.

Commodity Credit Corporation is a government-owned and operated entity that was created to stabilize, support, and protect farm income and prices. The CCC is managed by a Board of Directors, subject to the general supervision and direction of the Secretary of Agriculture, who is an ex-officio director and chairperson of the Board. The CCC provides the funding for GRP, and FSA and NRCS administer GRP on its behalf.

Common grazing practices means those grazing practices, including those related to forage and seed production, common to the area of the subject ranching or farming operation. Included are routine management activities necessary to maintain the viability of forage or browse resources that are common to the locale of the subject ranching or farming operation.

Conservation district means any district or unit of State, Tribal, or local government formed under State, Tribal, or territorial law for the express purpose of developing and carrying out a local soil and water conservation program. Such district or unit of government may be referred to as a conservation district, soil conservation district, soil and water conservation district, resource conservation district, natural resource district, land conservation committee, or similar name.

Conservation plan means a record of the GRP participants' decisions and supporting information that will be developed to address resource concerns in addition to grazing land uses. The conservation plan will describe the implementation and maintenance of GRP management and conservation practices directly related to any additional land eligibility criteria under which the land is enrolled. Additional land eligibility criteria may include, but is
