

§ 1450.3

7 CFR Ch. XIV (1–1–12 Edition)

to support delivery of technical services, such as technical standards, resource inventories, training, data, technology, monitoring, and effects analyses.

Tribal government means any Indian tribe, band, nation, or other organized group, or community, including pueblos, rancherias, colonies and any Alaska Native Village, or regional or village corporation as defined in or established pursuant to 43 U.S.C. 1601–1629h (the Alaska Native Claims Settlement Act), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Violation means an act by the participant, either intentional or unintentional, that would cause the participant to no longer be eligible to receive or retain all or a portion of BCAP payments.

Yard waste means any renewable biomass generated from municipal or residential land, such as urban forestry materials, construction or demolition materials, trimmings from grasses and trees, or biomass removed due to invasive species or weather-related disaster, that can be separated from and has low potential (such as contamination with plastics, metals, chemicals, or other toxic compounds that cannot be removed) for the generation of toxic byproducts resulting from conversion, and that otherwise cannot be recycled for other purposes (such as post-consumer waste paper).

[75 FR 66234, October 27, 2010, as amended at 76 FR 56951, Sept. 15, 2011]

§ 1450.3 General.

(a) The objectives of BCAP are to:

(1) Support the establishment and production of eligible crops for conversion to bioenergy and biobased products in selected project areas; and

(2) Assist agricultural and forest landowners and operators with matching payments to support the collection, harvest, storage, and transportation costs of eligible material for use in a biomass conversion facility.

(b) A participant must implement and adhere to a conservation plan, forest stewardship plan, or equivalent plan prepared in accordance with BCAP guidelines, as established and deter-

mined by CCC. A conservation plan, forest stewardship plan, or equivalent plan for contract acreage must be implemented by a participant and must be approved by the conservation district in which the lands are located, or, in the case of Federal lands, the appropriate approval authority of jurisdiction. If the conservation district declines to review the conservation plan, forest stewardship plan, or equivalent plan, the provider of technical assistance may take such further action as is needed to account for lack of such review.

(c) Agricultural and forest landowners and operators must comply with any applicable existing conservation plan, forest stewardship plan, or equivalent plan and all other applicable laws, regulations, or Executive Orders for any removal of eligible material for use in a biomass conversion facility to receive matching payments.

(d) Except as otherwise provided in this part, a participant may receive, in addition to any payments under this part, financial assistance, rental or easement payments, tax benefits, or other payments from a State or a private organization in return for enrolling lands in BCAP, without any commensurate reduction in BCAP payments.

§ 1450.4 Violations.

(a)(1) If a participant fails to carry out the terms and conditions of a BCAP contract, CCC may terminate the BCAP contract.

(2) If the BCAP contract is terminated by CCC in accordance with this paragraph:

(i) The participant will forfeit all rights to further payments under the contract and must refund all payments previously received, plus interest; and

(ii) The participant must pay liquidated damages to CCC in an amount as specified in the contract.

(b) CCC may reduce a demand for a refund under this section to the extent CCC determines that such relief would be appropriate and would not deter the accomplishment of the purposes of BCAP.
