§ 301.76  Restrictions on the interstate movement of regulated articles.

No person may move interstate from any quarantined area any articles regulated for citrus greening and Asian citrus psyllid, except in accordance with this subpart. 1/

§ 301.76–1  Definitions.

Administrator. The Administrator of the Animal and Plant Health Inspection Service or any individual authorized to act for the Administrator.

Asian citrus psyllid. The insect known as Asian citrus psyllid (Diaphorina citri Kuwayama) in any stage of development.

Certificate. A document, stamp, or other means of identification approved by APHIS and issued by an inspector or person operating under a compliance agreement when he or she finds that, because of certain conditions, a regulated article can be moved safely from an area quarantined for Asian citrus psyllid and/or citrus greening without spreading the psyllid or the disease.

Citrus greening. A plant disease caused by several strains of the uncultured, phloem-limited bacterial pathogen, “Candidatus Liberibacter asiaticus”.

Commercial citrus grove. A solid-set planting of trees maintained for the primary purpose of producing citrus fruit for commercial sale.

Compliance agreement. A written agreement between APHIS and a person engaged in the business of growing, maintaining, processing, handling, packing, or moving regulated articles for interstate movement, in which the person agrees to comply with this subpart. For the purposes of this subpart, a memorandum of understanding is considered a compliance agreement.

1/ In order to enforce this section, any properly identified inspector is authorized to stop and inspect persons and means of conveyance and to seize, quarantine, treat, apply other remedial measures to, destroy, or otherwise dispose of host articles as provided in sections 414, 421, and 434 of the Plant Protection Act (7 U.S.C. 7714, 7731, and 7754).
§ 301.76-2

Regulated articles for Asian citrus psyllid and citrus greening.

The following are regulated articles for Asian citrus psyllid and citrus greening:

(a) All plants and plant parts (including leaves), except fruit, of: *Aegle marmelos*, *Aeglopis chevalieri*, *Afraegle gabonensis*, *A. paniculata*, *Amyris madrensis*, *Atalantia* spp. (including *Atalantia monophylla*), *Balsamocitrus daiei*, *Bergera (=Murraya) koenigii*, *Calodendrum capense*, *Choisya ternata*, *C. arizonica*, *X Citroncirus* webberi, *Citropsis articulata*, *Citropsis gilletiana*, *Citrus madurensis* (= *X Citrofortunella microcarpa*), *Citrus* spp., *Clausena anisum-olens*, *C. excavata*, *C. indica*, *C. lansium*, *Eremocitrus glauca*, *Eremocitrus hybrid*, *Esenbeckia berlandieri*, *Fortunella* spp., *Limonia acidissima*, *Merrillia caloxylon*, *Microcitrus australasica*, *M. australis*, *M. papuana*, *X Microcitronella* spp., *Murraya* spp., *Naringi crenulata*, *Pamburus missionis*, *Poncirus trifoliata*, *Severinia buxifolia*, *Swinglea glutinosa*, *Tetradium ruticarpum*, *Toddalia asiatica*, *Triphasia trifolia*, *Vepis (=Toddalia) lanceolata*, and *Zanthoxyllum fagara*.

(b) Propagative seed of the species listed in paragraph (a) of this section is considered a host of citrus greening but not a host of Asian citrus psyllid. Therefore, notwithstanding the other provisions of this subpart, the movement of propagative seed of these species from an area quarantined for citrus greening is prohibited, while the movement of such seed from an area quarantined only for Asian citrus psyllid, but not for citrus greening, is allowed without restriction.

(c) Any other product, article, or means of conveyance may be designated a regulated article for Asian citrus psyllid or citrus greening, if an inspector determines that it presents a risk of spreading these pests, and after the inspector provides written notification to the person in possession of the
